why **CENTER TRACTION** is more **Economical** and also **SAFER**

- 1 & 2 Perfectly balanced, continuous center and side running strips give smooth road contact, make steering easier, and provide ample road contact that adds thousands of extra miles.
- 3 Scientific continuous encircling grooves give properly placed resistance against side-skidding... on account of the extra thick treads, these grooves are so deep, that the tire retains its non-skid properties for practically the whole tire life.
- 4 & 5 Deep cross slots and "T" slots give greater traction, aid braking and prevent skidding.
- 6 Massive shoulder bars widen the tread and protect the tire against bumps, strains and wear on curves.

WEAR-WELL TIRES
A most dependable tire at a very low price. The broad, non-skid rib tread provides more than normal traction and safety, while excellent materials and construction make Wear-well Balloons in every way worthy of our unlimited Guarantee.

stinking of wells in the Willamette valley district for irrigation purposes will be under his direction.

The wells, Jamison said, will be used for supplemental irrigation of farming and dairying land and should eliminate the drought suffered by ranchers of the valley each year.

STUDENTS BOOH MUSICIANS

SALEM, Ore., Feb. 7 (AP)—Booting and other disorderly conduct by the Salem high school students during a musical program in the high school auditorium yesterday caused Principal Fred Wolf to threaten denial of the privilege of holding the student assemblies. A substitute plan suggested was recognition of the disorderly students from the main student body at the assembly hour.

QUID BUSHY IN JANUARY
PORTLAND (AP)—More marriage licenses were issued in Multnomah county during the last month than in any January since 1927.

A total of 148 licenses was shown for last month. In January 1927 the total was 144.
