SORROW TURNED TO JOY—Verily, verily, I say unto you, that ye shall weep and lament, but the world shall rejoice; and ye shall be sorrowful, but your sorrow shall be turned into joy.—John 16:20.

OUT OUR WAY

By Williams

THE BIG HEARTED HUSBAND

Your wife is talking of going to Palm Beach for the rest of the winter. Have you any objections? "None at all! Let her talk."

The difference between a haberdasher and a grocer is one is an outfitter and the other an infitter.

Maggie's sweetheart, a proverbial tight-fisted Scot, had taken her out for the afternoon, and that was about all. They rode some distance on the trolley, turned around, and rode home again. Never was mention made of food or entertainment.

Back within her own gateway, Maggie, who had keenly felt the neglect, sarcastically proffered Sandy a dime.

"For that car fare you spent on me," she said meaningly.

"Heck, took a woman," returned Sandy, pocketing the coin. "There was no hurry. Saturday wad-had-been time enough."

We have noticed that history repeats itself about the first of every month.

Magistrate—You say defendant struck you three times and knocked you down?
Witness—He did, sr.
Magistrate—And what did you do then?
Witness—I asked him if he had finished.

Some birds hate revolving doors because they cannot slam them when they get vicious.

House painter—What's this room with no ceiling and open to the sky?
Agent—It's the shower-bath room. The house was built by a Scotchman.

Wednesday is one of the days on which it is unlikely to get so darned foolish. Other days to be mentioned are Monday, Tuesday, Thursday, Friday, Saturday, and Sunday.

"Now I would like all you little boys and girls to each bring some specimen to Nature study class. I'll begin here with you, Robbie, what can you bring?"
Little Robbie, from a poor family, thought rather long and earnestly.

"Well, Robbie, I'm waiting."
"Please, teacher, would a cockroach be all right, we've got a lot of them."

He "Is the progressive or conservative?"
"I don't know, sr. So-a-waaa-aaa-aaa's hat, drives this year's car and 'lives in next year's income."

"Doesn't he ever take advice?"
"Occasionally, when nobody is looking."

"Then you deny," said the magistrate, "that you were rude to the policeman when he asked you to let him see your horse?"
"Certainly, sr.," replied the motorist. "All I said was that from what I could see if I was sure his wife would be happier as a widow."

Washington—Brigadier General Maurice Perry Maus, 79, retired, noted Indian fighter, dies.

London—Premier Premier Walsby predicts naval conference success in broadcast to Japan.

Barcelona, Spain—Racing crowd riots when five horses left at post in first training race.

San Sebastian, Spain—Miguel de Azkuna, exiled Spanish intellectual, returns and criticizes monarchy and dictator.

Notre Dame Not First
While archeologically the Cathedrale of Notre Dame in Paris is considered the most interesting, for beauty it ranks after the Gothic cathedrals of Chartres, Rheims, Amiens and Bourges.

Wealth is a disease, says a lecturer. Probably that's some big-name tax prologuist.

Race Between Expanding Production And Increased Consumption Is Seen

ORIGON STATE COLLEGE, Corvallis (Special)—Some what of a race between rapidly expanding production and increased consumption is seen in the final installment of the 1929 agricultural outlook report covering farm crops and horticulture issued today by the extension service.

In a great many instances of field and tree crops in which Oregon is particularly interested, production has advanced rapidly and yet an expanding market has absorbed the increase. Just how long this situation will continue is a problem tied up with general increase in consumption by the public, points out I. H. Breitbaugh, extension economist, who has completed the report in cooperation with department specialists.

Pears, cherries, canned berries and nuts are particularly mentioned as being horticultural crops in the situation referred to. Among field crops wheat, flax fiber and some of the seed crops are roughly in that category.

Sikorsky's Huge Amphibian Plane Is 41-Passenger

HELIOPORT, Conn. (AP)—Jens Sikorsky begins the new year for aviation with plans for the world's largest land- and water-borne capable of carrying 41 passengers.

For the designer the completed ship will mark the twentieth anniversary of the first plane he built and flew and the greatest realization of a 20-year-old dream of multiple-motored air liners.

A monoplane with a wing spread of 114 feet, the ship will be powered by four Pratt and Whitney Hornet engines. Fully loaded, it will be able to climb and fly with one motor stopped.

Two of the new liners have been ordered by the Pan American Airways on advice of Col. Charles A. Lindbergh, technical adviser of the company. They will fly between Oriskany and Miami.

The ship will be designed to fly 300 miles without refueling with 24 passengers and 1000 pounds of mail and baggage. Two non-stop hops over the Caribbean of 600 miles each are planned for the service.

The new series, to be known as the Sikorsky 8-10, will have a high speed at sea level of 120 miles an hour and a cruising speed of 180 miles an hour.

Somewhat as well as airworthily, the boat hull will be equipped with out line from fire water-tight compartments, any two of which will be able to keep the ship afloat. In case of damage to the side compartment, the watertight tanks will be able to keep the ship in balance on water.

The amphibian, even for landing on the ground, will weigh 1250 pounds with the usual load that can be carried will be 11,250 pounds.

Abe Martin

Colored "Movies"

The effort to produce colored films is as old as the industry. From time to time different processes have been introduced, and while none is considered perfect, several have met with approval. The commercial career of color dates back to 1900.

Survivors Benefit

Twelve insurance dividends refer to some form of life insurance under which, at some designated time, usually ten, fifteen or twenty years, the surviving and persistent policyholders share in the accumulated surplus.

Worth Remembering

If you do nothing when you are angry you will have less to undo afterward.—Clayton's Weekly.

Someone estimates that Oregon will be champion of the coast next year if the football team equals the reception being planned for the new coach, "Fat" Spears. He is not to be envied. Think of all the expectations he must live up to in the next few years.

News from the thriving city of Burns indicate that another obscure section of Oregon is coming into permanent prominence. The first unit of the new lumber mill is expected to start work within a few weeks and the new town-site is growing rapidly. Burns should boast a population of five or six thousand people by the end of 1930.

The most important work undertaken in this section last year was the land settlement activity of joint representatives of Union and Wallowa counties. When inaugurated there was not enough time for a full year's program but the few lowly classified ads placed in other states brought surprising returns. This year more work will be possible and more results. No money spent for development work is invested to better advantage.

Some publicity has been given the straw vote taken by the Eugene Register among newspaper men at the Press Conference in that city Friday. The desire of the Register was to check on the visitors' estimates of the standing of republican candidates for governor on the various communities of the state. Only about sixty votes were cast by the 150 editors in attendance, the result showing Norblad first, Corbett second, Hall third. Many publishers refused to mark a ballot and the outcome was of little significance. No one is venturing very definite predictions at this early stage of the game.

INSTALLMENT BUYING SOUND

A scientific survey, giving general approval to installment selling as economically sound when properly carried on, has attracted widespread attention. It is already referred to as a bull argument in the stock market.

The survey does not ignore the danger of high-pressure salesmanship, of over-persuading the consumer, or of unwisely credit extension in the competitive drive for business. The fact is not dismissed that in installment selling responsibility of the buyer is given no such thorough investigation as is ordinarily exercised in producer and bank credits. It notes abuses of the part-payment plan of buying but is optimistic as to their elimination.

Intelligently handled, the system is an important contribution to industrial progress, stabilizing output, increasing production, lowering costs and working for improved standards of living. And there is evidence that as a general thing American business has learned how to use the system intelligently. The almost negligible percentage of losses is the best proof that.

Even so, extension of the business, under the fierce rivalry and leadership of the automobile industry, has demonstrated the need of caution in persuading earners to over-mortgage the future. There is nothing in the survey that should prompt those who finance sales through partial payment and bankers who supply them with funds to relax vigilance or neglect precautions which the very nature of the business demands. A few buyers who have abused the system should not be permitted by the sellers and financing agents to deprive others of its obvious benefits.

NEW YORK FRUIT

NEW YORK, Feb. 10 (AP)—Exported apples steady; choice 12 1/2 to 13 1/2; fancy 14 to 15. Prunes steady; California 7 to 7 1/2; Oregon 7 to 7 1/2. Spain has forbidden children under 14 to attend bull fights. At big parties like that in this country, the youngsters have to go along to take care of their parents.

WYAN DUNCAN IN 'IT'S A GREAT LIFE'

Duncan Sisters In Picture At The State

"It's a Great Life," the Metro-Goldwyn-Mayer picture starring the Duncan sisters, which opened last night at the Star theater, for four days, is an all-talking, singing and dancing film directed by Sam Wood and filmed with technical equipment. The story might well be a biography of the dancers dealing with a sister act in vaudeville who find itself in difficulties when a quarrel separates the pair who find themselves "back" in songs.

The new musical incorporates a number of skillfully executed dance routines handled by Sammy Lee, who has received no little distinction as a result of his work in several Broadway musical comedy successes.

The Duncan sisters, as usual, were with their songs.

If men were compelled to bury their faults the undertakers would have to work overtime.—Chicago News.

Nick Longworth objects to the home of representatives being called the "lower house." Just take a casual glance at the senate some day if you want to know the reason.

Breakfast in New York, 4 inner in Paris is the promise of aviation experts for the near future. And after dinner you can go to a good movie.

The United States senate killed the bill on shoes the other day. We hope they will make some resolutions, however, on the number of boys coming here from Europe.
