HUSKIES-TROJANS
TO PLAY FRIDAY

Washington Wins Second
Time from Oregon;
Idaho Beaten Again

PORTLAND, March 2 (AP)—Washington's Huskies and Southern California's Trojans basketball teams will fight it out this week for the Pacific coast conference championship, the first contest to be played Friday. Washington won the Northern division championship by their two victories over Oregon, 32 to 25 and 47 to 24, while Oregon dropped from second to third place, with Oregon State fourth and Idaho in the cellar position.

The Northern division race was hotly contested and was featured by the remarkable comeback of the Oregon team after getting off to a slow start. The Huskies walked through all opposition except Oregon State, which team won three out of four games from the leaders. Southern California won the Southern title by taking six games in a row, after losing two of the first three played. The standings follow:

Northern Division			
W.	L.	Pct.	
Washington	12	4	.750
Washington State	9	7	.563
Oregon	8	8	.500
Oregon State	7	9	.437
Idaho	4	12	.250
Southern Division			
W.	L.	Pct.	
Southern California	7	2	.778
California	6	3	.667
U. C. A.	2	6	.333
Stanford	2	7	.222

McLarnin Whips
Sammy Mandell
In Chicago Ring

CHICAGO, March 2 (AP)—Sammy Mandell's hopes of moving out of the lightweight division, of which he is king, and moving into the welterweight class, with the loss of losing the 147-pounder, has been pretty thoroughly rubbed by Jimmy McLarnin, the baby-faced dynamite from Vancouver.

McLarnin could not whip Mandell at 135 pounds with the lightweight title at stake 18 months ago, but demonstrated Saturday night in the Chicago stadium for the second time that he is Mandell's master at 145 pounds.

McLarnin gave Mandell the most thorough beating he had suffered since he became a boxing boxer, but could not knock the crafty lightweight champion from his feet. He took seven of the 10 rounds and in two of them, the second and sixth, had Mandell in bad shape.

Greyola Takes
Honors In Agua
Caliente Derby

By Paul Zimmerman
 (Associated Press Special Writer)
 AGUA CALIENTE, Lower California, Mexico, March 2 (AP)—Greyola, a three-year-old, today takes her place among the city's great filly and her owner of three days, Daniel Walsh, Hollywood movie director, takes his place as a new entrant in the racing game with \$28,299 in his pocket, the money won by the daughter of Grey Lad yesterday in the Agua Caliente derby.

DOYLE SLUGS
WAY TO COAST
AMATEUR TITLE

PORTLAND, Ore., March 2 (AP)—Clarence Doyle, Olympic club, San Francisco, slugged his way to a close decision over Tom Elliott, Los Angeles, coast title holder, to capture the crown in the heavyweight class in the finale of the Pacific coast amateur boxing bouts Saturday night. An extra session was necessary to pick the winner.

California captured five of the eight titles. Washington took two and one Oregonian emerged victorious. Tommy Grant of the South Parkway club, Portland, knocked out Jack Crowley, Young Men's Institute, San Francisco, in the first round to win the middleweight championship. E. J. McDonald, Lakewood, Ore., was unable to meet Angelo Puente, Olympic club, in the 115-pound championship match because of an injured eye received in a scintillating bout.

DEMPSEY WILL
FIGHT IF MAX
BEATS SAILOR

CLEVELAND, March 2 (AP)—Jack Dempsey, former world's heavyweight champion, announced definitely here today that he would fight again for the championship if Max Schmeling should defeat Jack Sharkey in June and provided Dempsey can reach fighting condition again.

The former "Big of the ring" was in Cleveland to act as master of ceremonies at the Ohio Sportsman's show.

Dempsey said he believes Schmeling is over-rated and Sharkey can defeat the German. If the latter proves true, Dempsey said his "condemner" plans would be abandoned.

Health Talks

INFANTILE PARALYSIS
 Infantile paralysis is listed among the so-called new infections.

While there are cases in medical history which might be construed as instances of infantile paralysis, the first authentic epidemic of this disease occurred in 1881 in Sweden.

Since then the disease has spread throughout the world, becoming particularly prominent in the United States. In 1914 there were more than 25,000 cases and 6,000 deaths in the United States.

Infantile paralysis is a disease caused by an agent still unknown but suspected as being a so-called filterable virus, that is, a disease producing something so infinitesimally small that it will pass through the walls of unglazed porcelain.

More than ninety-five per cent of the cases affect children under ten years.

Infantile paralysis is most common during the warm weather. Occasional cases and epidemics have been known in winter. Less densely populated sections seem to develop a larger number of cases. Poor and rich, clean and unsanitary, weak and strong alike appear susceptible.

Infantile paralysis usually attacks the individual rather abruptly. The child or adult may show fever, nausea and vomiting, irritability, stiffness of the neck, and other muscle involvements. This may last for several days, ending with a development of paralysis. Sometimes, however, the disease may begin with muscular paralysis. Milder cases have shown nothing more than drowsiness and stupor.

The disease, it is suspected, is directly spread from person to person, chiefly through the discharges from the mouth and nose. Experimentally infantile paralysis has been passed from monkey to monkey in this fashion.

Milk Pasteurization

The Department of Agriculture says that the total plant loss in handling milk should not be over 2 per cent. Many plants have it less than 1 per cent. The loss of handling milk through pasteurizing it depends entirely upon the type of apparatus used. If the vats are not exposed, there should be no loss. If the exposed system is used, the loss should not exceed 1 per cent.

Grasshopper's Short Life

In the tropics the natural span of life of grasshoppers and other insects may be somewhat lengthened by the fact that death is not hastened by the coming of cold and freezing weather as it is in temperate or frigid regions, and also because the period of metamorphosis extends over an average longer period of time. But as a rule the life of single-brooded insects is not over a year in any climate.

How to Live

"How to live," wrote Stuart Sherman, "has happened in my opinion, to be the most important and the most neglected of all studies among the American people—how to live so that life shall taste somehow good each day it passes here on earth."

Capital Likes Music
IF FIRST LADY DOES

WASHINGTON, (AP)—Mrs. Herbert Hoover's frequent attendance at concerts and interest in music has popularized this entertainment in the capital this winter.

France Watches Headlights

PARIS (AP)—Automobile headlights that comply with the law are to be stamped by the government.

Spit is a horrid word,
but it is worse on the
end of your cigar

In New York

She has attended several concerts given in the Library of Congress by the Friends of Music, including a box party at the New York symphony orchestra concert and has been at band concerts at the Armory and the Lincoln Center.

Entrance of the first lady, usually with guests and an aide, adds considerable zest to the occasion.

For a man who plays golf only in the winter time, Babe Ruth contributes some remarkable chapters to the sport and present game.

"I can't play in the summer; now I'm in ball a day are tough enough without tramping around a golf course in my spare time," the Babe said to me as he walked his way around the Juniper Country Club course not far from St. Petersburg, where the Yankees do their training.

Ruth is not so good with a club as he is with a bat. For some unexplained reason (but he never No. 5 iron for distances up to 150 yards and a No. 3 for 210 or 220 yards). Long hitting, however, is not Ruth's main asset. In fact he has decided to avoid a former tendency to "kill" the ball and is getting better results. He is a deadly pitcher as a rule, as distinguished player as Jones, Max Baer or Earl from any spot on the green, chiefly for the reason that he is confident he can "beat" the ball but also because he has a "good eye and steady wrist."

One of the best young golfers who has stepped into the Florida spotlight in some seasons is Howard Tron, the 21-year-old champion of the Florida (N. Y.) Country Club and winner of the tournament for "golf club champion."

As he said this, the Babe pointed to a water bucket at one side of the tee. It had a tremendous dent in it where Ruth had swung while his driver to express indignation at getting off a poor tee shot. He pointed to the hole in the bucket and said that he had intended a willingness to chop down trees and brush in emerging from the rough. Hoarse, rumbling cough may be heard from afar when the Babe is in difficulties. He is a swash-buckling figure on the links.

You have heard about the indignity of the Babe with his wood clubs and it is a little more than 250 yards with a club and 300 or over consistently with a driver. His results with the iron are even more remarkable, for there are plenty of long drivers in the game.

SENTENCED TO PEN
 OREGON CITY, Ore., March 1 (AP)—E. E. Teeple, former city treasurer of Gladstone, Ore., was sentenced to three years in the state penitentiary today after Teeple pleaded guilty to a charge of larceny of city funds.

Teeple was arrested Thursday and jailed in lieu of \$10,000 bond.

TO HONOR HOMER HITTER

INDEPENDENCE, Kan., Mar. 2 (AP)—Mr. and Mrs. Roy Thompson today announced that they would name their 13 pound son, born Saturday, after the first member of the Independence Western association baseball club to hit a home run during a regular game of the 1929 season.

Announcing New Service
 by
MOTOR COACH

Pendleton - Walla Walla - Lewiston
Spokane - Yakima - Bend - Portland
Baker - Boise - Twin Falls - Pocatello
Salt Lake City

8 Trips Daily to Pendleton and Way Point
 3 Trips Daily to Baker and Way Points.
 2 Trips Daily to Portland and Way Points.
 Thru Daily Service to Weiser, Ontario, Boise, Twin Falls, Pocatello, Salt Lake City and Way Points.

Connections are made at Pendleton to and from Spokane, Coeur d'Alene, Colfax, Lewiston, Pullman, Moscow, Walla Walla and Way Points.

DRY CLEANING
 FOR SPRING

IT ISN'T TOO EARLY to begin planning for Spring housecleaning, and this year let the Standard Laundry help you with this annual task.

Curtains and Drapes will require laundering or dry cleaning. Our service in either department will please you.

Spring Wardrobes will need freshening and often a little spent on reconditioning last year's garments will save the price of a new article.

Winter Clothing, whether for yourself or for the home, should not be stored for the spring and summer without a thorough cleaning. Coats, Suits, Dresses, Blankets, Quilts and Pillows will last longer and prevent moths if laid away clean and sweet.

LET ONE CALL, DO IT ALL.
 A phone call will bring our service car to your door for both your laundry and dry cleaning orders.

...the war against Spitting is a crusade of decency... join it. Smoke CERTIFIED CREMO!

Hating "spit" as you do, wouldn't you be horrified if you suddenly discovered that the cigar you smoked was rolled by filthy fingers—and tipped with spit?

Why take chances? Smoke Certified Cremo and protect yourself against this abomination! Every tobacco leaf entering the clean, sunny Certified Cremo factories is scientifically treated by methods developed by the United States Government during the war. And its purity is safeguarded along every step of the way by amazing inventions that foil-wrap and tip the cigars without the possibility of spit!

Try a Certified Cremo—see how wonderfully good it is! Made of the choicest, tenderest leaves that the crop affords, we claim Certified Cremo's quality is faster than that of any other cigar. Don't let its 5c price stand in your way. Certified Cremo is the kind of cigar your physician has in mind when he recommends a mild smoke in place of heavy brands.

Crush-proof... immaculate... foil-wrapped... Certified Cremo is the kind of cigar the late Vice-President Marshall undoubtedly had in mind when he said, "What this country needs is a good 5c cigar!"

Certified Cremo
THE GOOD 5¢ CIGAR
 ... THAT AMERICA NEEDED
