

Kamela Boy In Bad Fall; Snow Is Disappearing

Mrs. C. F. Thornburg (Observer Correspondent)

KAMELA (Special) — Warren Hawes, ten-year-old son of Roy Hawes of Kamela, fell out of a tree while playing on Tuesday evening cutting his head slightly below the right ear. He was unconscious for about 15 minutes and it was thought at first he was seriously hurt. Two girls, Lillian Schmitt and Alva Wigglesworth saw him fall and thought at first he was only pretending to be hurt. The girls carried him home and so far he seems to be in no danger.

Mrs. C. O. Schubert was in La Grande on Tuesday on business. The night engine crew at Kamela is not working at present.

"200 More Miles"

in this super oily oil for high compression cars.
Buy it at Union Oil Company stations or where you see the Motorite sign.

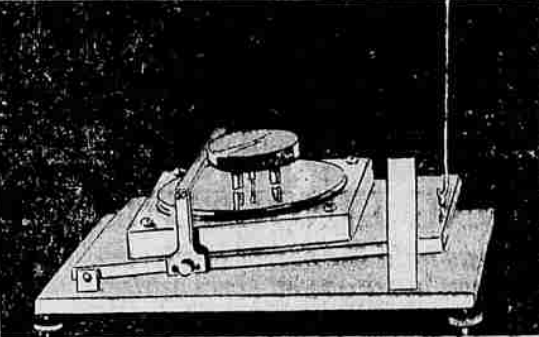

The OILMETER (left) is a remarkable instrument. It measures the slipperiness of oil. The plate portion of the Oilmeter has a polish comparable to that given optical lenses and as such is accurate to the 1/2 wave length of light.

When submitted to the Oilmeter test, MOTORITE proves itself to be one of the *oiliest* of the oils. This is important to you because *super oiliness* assures an ever-present, *slippery*, lubricating film in the *oil* space between the piston rings and cylinder walls of your high compression motor when the engine is hot.

Another advantage is that MOTORITE resists dilution by "giving up" stray gasoline, *quickly*, in the form of vapor—without sacrificing the lubricating efficiency, or "life" of the oil.

Also, MOTORITE has a great capacity for giving up and carrying away heat. This feature assures cool bearings, and is noticed particularly when traveling long distances at sustained high speeds.

The small amount of carbon deposited by MOTORITE is soft and fluffy, much unlike the hard, gritty carbon common to a great many oils. This means no clogged or sticky valves due to carbon—*last wear* on your high compression motor.

And So It Lasts Longer!

Tests in the standard makes of automobiles prove that you can easily get 200 extra miles out of a crank case full of MOTORITE. Now, with MOTORITE you can drain at 200 miles farther than you have been in the habit of doing.

Make a note on your dashboard sticker NOW to refill with MOTORITE. It's available at any Union Oil Service Station or wherever you see the MOTORITE sign. Remember the name... MOTORITE... unexcelled in quality yet only 25c a quart.
