Mrs. Pierce Gives Interesting Talk At Club Meeting

Mrs. Walter M. Pierce presented a study of greatness in women, as illustrated by five women and the places in which they lived, at the meeting of the La Grande Neighborhood club yesterday at the La Grande hotel.

Mrs. Pierce mentioned some qualities necessary to greatness before giving her portraits of the combinations of these qualities as presented in the five women she chose from history. Three loved power, one loved beauty, and one loved a good life. Each died in all her glory though held in power by satellites who fell at their feet. Each enjoyed life to the fullest measure—and each "took her throne."

Hatsheput of early Egypt was the first woman portrayed. Second was the Greek mistress, Sappho, who although she lived in a life of luxury, has been an outstanding inspiration to all forms of art.

St. Catherine of Siena led a life

of self renunciation and thought of humble birth, became a diplomat of unusual ability and wrote a book on mystic religion, which is second only to Dante's works.

Catherine the Great of Russia was an absolutely uncontrolled rollicking woman, contemporary of revolutionary war leaders. The empress was hard working, excelling in diplomacy and administrative powers. She is known as the greatest benevolent despot of the eighteenth century. Catherine set herself a program of self education and remained with it all her life. This fact alone should make her great, according to Mrs. Pierce.

The dowager empress, Tzu-hsi of China was known as "The Orchid" because of her beauty, but was rapacious. She hated foreigners and was responsible for the Boxer rebellion. Later her court became the first to be opened to "foreigners."

Mrs. Pierce named several, such as Cleopatra, who she classed as "those who had risen just above the crowd."

The brief business session preceding the program was in charge of Mrs. J. L. Ingle, the president.

The next club program April 1, will be musical in theme—a song cycle under the direction of Mrs. Jessie A. Hoskins.

CAKES AND PIES HAVE PLACE IN THE DIET

Their Flavorful Goodness Makes Balanced Meals Complete

America has made its pastry popular the world over. And of all desserts, few can be made in more pleasing variety than pies and cakes.

Every normal person should have pastry frequently, because it helps balance the diet. A piece of fruit pie with a tender crust, or a slice of light textured cake is an ideal ending to a meal composed of meat and vegetables of the leafy as well as the starchy sort.

The ingredients and manufacturing methods employed by modern bakers, great and small, insure the highest quality in these popular American desserts. Their freshness can be depended upon and their price is within reach of all.

A nationally known food chemist recommends a generous vegetable salad followed by a piece of pie, cake or any similar dessert for those dieting, in order to reduce weight. Such a meal ideally satisfies the appetite without increasing weight. A bit of sweet makes the meal complete. The Sugar Institute.

auxiliary enjoyed several hours of cards in the reception room, while the canton was instituted.

Progress canton officers took charge while the local canton was formed. Thirty-three persons became charter members last night. Grand officers present were: Brigadier General W. E. Wadsworth, who is also a past grand patriot; Inspector Charles Poole and deputy commander; Major L. D. Porter; Past Deputy Adjutant McKilloch; Past General Hantz; and the past grand masters, Mr. Hubbard, Mr. Mandel and H. E. Coolidge.

At midnight both orders had been formed and refreshments were enjoyed in the banquet room. Chevallier C. F. McPherson was toastmaster.

Each grand officer gave a short talk. A floral gift was presented to association president, Mrs. Henderson. Clifford E. Bragg is captain of the local canton and Mrs. C. F. McPherson president of the auxiliary.

Decorations were potted plants and daffodils in a color scheme of purple and gold, the association colors.

Mrs. Max Turn and Mrs. Flossie Engle were in charge of arrangements, assisted by auxiliary members. Out-of-town visitors and members were from Enterprise, Lostine, Wallawa, Inbler, Cove, Union and Baker.

Balloon Dance At Elks Temple

A balloon dance was enjoyed by the members of the Elks club last night in the Elks ballroom with about 50 couples present. Punch was served during the evening. Music was played by the Serenaders.

COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

Low charges for distribution of the new Ford save you at least \$50 to \$75 in addition to the many savings in making the car

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy. Value is again being carefully considered.

Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late.

ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods.

The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economies in making the car. There are definite reasons why this is so.

(1) The Ford dealer does business on a smaller margin of profit because of the greater number of cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

(2) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices.

None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car.

Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value.

WHEN you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling,
