readily be helped by definite schooling of the formal kindergarten type. This, she thinks, would stimulate him and "take him out of himself."

Watching Teddy, however, one feels that his need is not so much for the "definite mental stimulation" which his mother thinks necessary, as for a vacation from that worthy and adoring nurse.

The child is her joy and her pride and she without doubt is doing her best by him. She never permits him to get dirty or to play with anything except his own beautiful, shiny toys.

The lovely grubby excursions into other people's back yards and garages, the informal adventures with other children, which are the right of every child, are unknown to him. Nurse has never let him do anything that would tend to make him independent of her.

The child's only possible escape from this loving and dominating woman has been in that withdrawn front reality which so distresses his mother. What Teddy needs is freedom and an opportunity to discover for himself the delightful world about him.

Baxter and Ruth Baxter were in attendance at the Gold and Green ball in La Grande Friday night from the Hot Lake district.

Mrs. Mitchell and daughter, Mrs. Nellie Woods, and babies, Shirley and Don, were visitors last week from La Grande at the John Peterson home.

Mr. and Mrs. Grant W. Wilde drove to Hubler last Sunday and visited at the Charles Keenan home at Hubler and with Mr. and Mrs. Walter J. Stringham at the city drug store at Elgin.

Mrs. Grant Wilde and Mrs. J. A. Atkinson were shoppers in La Grande Friday morning.

Hot Lake men have been hauling hay and straw from the J. W. Wilde farm to Hot Lake during the past week.

The biggest part of the lambing rush is over and it will soon be time for the big herds to be on the move to their feeding places in the hills.

Most colorful maid I've ever seen.

A La Grande school teacher tells of a little boy whose coat was so hard to unfasten that she went to his assistance. As she tugged at the hook, she asked: "Did your mother hook this coat for you?"

"No," was the astonishing reply "she bought it."

"Clara—Do you know what right economy is?"

"No—No, what is right economy?"

"Clara—A dead Scotchman."

Another good co-educational institution is matrimony.

The absent-minded professor went out to lunch and left pinned to his door a card which read, "Professor X will be back at 1 p. m."

Returning at 12:30, he read the notice, looked at his watch and set

down to wait for himself to return.

Men who dislike the new movies because they can't sleep when somebody is talking doubtless are bachelors.

Man (at restaurant)—I wonder how this chicken could live with so little meat on it.

Sid—It didn't—that's why it's here.

Henry—So you and your wife share alike in the work of getting breakfast?

Harry—Yes, she burns the toast and I scrape it.

Would La Grande be a better or poorer town if every one in it was like you?

Hubby—Guess what I have in my hand for you?

Wife—I bet it's new undies!

Hubby—Yes, but how many?

**OFFICE CAT**  
TRADE MARK REG.  
By Junius

It is said to be quite an impossibility for two musicians to live together in harmony.

A prospective buyer went out the other day to see what was advertised as a "modern farm." He returned very much disgusted, and said—They have the same kind of a filling station that was in use when the pavement was first built.

Here hair is brown.  
Her eyes are blue.  
Her lips are red.  
Her cheeks are too;  
Her actions dark.  
Yet she acts green.

## Fat Comes At Forty

Sometimes in earlier years. It comes when a certain gland grows weak. That is what modern authorities find. And physicians the world over now combat that cause.

The method they use is embodied in Marmola prescription tablets. People have used them for 22 years—millions of boxes of them. Now in every circle you can see what slender figures, what health and vigor that right method brings. And all without abnormal exercise or diet.

Every box of Marmola contains the formula and facts. Users know the reasons for all good effects. In fairness to yourself, go try Marmola. Watch the results. All druggists supply it at \$1 a box.

## Chats With Parents

**TEDDY'S TROUBLE**  
By Alice Judson Peale

According to his mother, Teddy is a bright, good child and a healthy one, but as she says "inhibited." He is shy with other children, physically inactive, slow of speech and sits for hours silent and inwardly absorbed.

He has, it seems, an excellent nurse who adores him and who has cared for him all the five years of his life. She has taught him to dress himself and brush his teeth, to go to bed without a murmur and to eat what is set before him.

His mother feels that his absence and self-absorption, his shyness and day dreaming, could most

Turn this package over and read the back

THE WORDS on the back of the package still mean what they say. No "extras," which do not contribute to the quality of the smoke, are included in the price of Camels. Just the utmost smoke-enjoyment that modern science can put into a cigarette.

That statement was on the first package of Camels manufactured and has been on every one of the billions of Camel packages sold from that day to this. When it was first written, other cigarette manufacturers were giving away flags, pictures of actresses, pictures of ball players—almost anything that would make the smoker think he was getting something extra for his money. The makers of Camels believed the smoker wanted a cigarette sold strictly on its merits, with all of its cost put into quality—a cigarette made of such excellent tobaccos—so perfectly blended—so mellow—so fragrant—that it would win its own way.

The vast popularity of Camels is a tribute to that four-square policy.

# CAMELS for pleasure

Don't look for premiums or coupons, as the cost of the tobaccos blended in CAMEL Cigarettes prohibits the use of them.
