

GOOD FISHING EXPECTED ON OPENING DAY

ROSEBURG, Ore. (AP) — The opening of the trout season, Apr. 15, will find unusual fishing conditions, according to anglers here. Water in the Umpqua river and its tributaries is already down to normal level and trout are expected to be taking the fly earlier than in any recent year. The water is clearing up rapidly so that conditions, even now, are good for trout fishing. In the Umpqua river, where fishing for trout over 10 inches is possible at any time of the year, some fine catches have been made, with best, Chinook fishing, however, has occupied the attention of the anglers for the past month and many large fish have been taken. The streams, it is reported, are unusually well stocked this year, particularly with steelheads and salmon in poor conditions at the mouth of the river in the early fall prevented the commercial fishermen from getting their nets into the river. Consequently the salmon were enabled to get into the upper waters. As a salmon

run is always followed by trout, the outlook is exceptionally bright for the season. The warm weather has brought out the trout flies and the fish are already feeding on the surface, so that fly fishing should be excellent by the time the season opens. Heavy rains may cause some changes.

DISLIKE RECONCILIATIONS

PORTLAND, Ore. (AP) — Portland police are contemplating a rule whereby estranged wives must post bond guaranteeing that they will not effect a reconciliation with their husbands after asking police protection while they gather their belongings from the family domicile.

Police say the contemplated rule finds its inception in the numerous cases where families effect a reconciliation about the time of the arrival of officers to protect wives from angry husbands.

START WORK ON SYSTEM

EGGENE, Ore. (AP) — Work on a new water system for the McKenzie river hatchery has been started by the city of Eugene. The work is in preparation for dam-

age done to the hatchery when the dam for the local water system was built. At that time several of the lower ponds of the plant were flooded and the city agreed to make restitution. Construction is estimated to cost about \$10,000 and the pumps, when installed, will handle several thousand gallons of water each minute.

Originated Plane Stunt

Eugene Ely was the first man to take a plane from ship to shore. In 1910 he flew from the deck of the cruiser Birmingham and landed near Norfolk. In 1911 he landed a plane aboard ship for the first time. A platform was built over the deck of the cruiser Pennsylvania and the trial was made at San Francisco.

"FOR THOSE WHO WANT THE FINEST"

Announcing **TEXACO ETHYL**

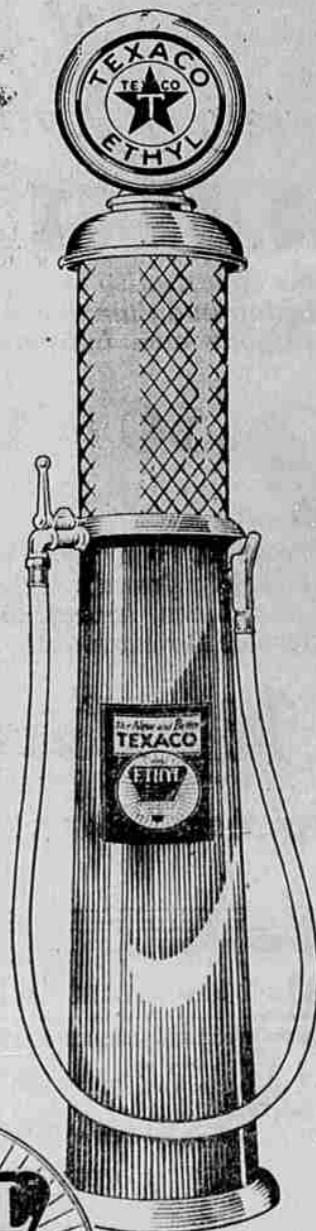

THE DRY ETHYL GASOLINE:—The Texas Company is proud to announce that now, for the first time, a "dry" gas has been combined with the Ethyl compound. It means the linking of two famous names in motor fuel to produce one of the finest gasolines ever offered the motoring public—Texaco Ethyl.

THE ETHYL COMPOUND in itself cannot perform miracles any more than rich cream can make poor coffee good. The better the gasoline you begin with, the better the Ethyl Gasoline.

THE NEW AND BETTER TEXACO, the original "dry" gas that vaporizes instantly, plus Ethyl, equals the last word in automobile fuels. Texaco the driest of dry gases permits complete and uniform diffusion of Ethyl through the manifold into the cylinders. It creates higher standards of power, speed and mileage for any car, old or new. This new premium grade is now available to all motorists who desire a superior anti-knock gasoline. Try it today!

Remember, the richest cream will not make poor coffee good. Likewise, only the new and better Texaco can give you Texaco-Ethyl.

TEXACO the original dry gas + ETHYL world-famous anti-knock compound = TEXACO-ETHYL the only dry anti-knock gasoline
