Poppy Drive To Begin at Imbler In Near Future

Leitha Cleaver (Observer Correspondent)

IMBLER, Ore. (Special)—A meeting was held Monday evening by the Harry K. Larsen auxiliary unit in the American Legion hall. After the business meeting refreshments were served by Mrs. Walter Furman and Mrs. Ray West. The annual poppy campaign will be on again in a short time. The unit hopes for the generous support from the public as in the past years campaigns. This is a worthy cause and every poppy sold means more comfort and convenience for our soldiers, who came home crippled or invalids. Mrs. John Lloyd is to be campaign chairman this year. Prizes of three dollars have been offered to the school children of Imbler making the best poppy posters. These will be on display later as a part of the advertising campaign.

The Sewing club, which meets once a month, will be held at the home of Mrs. Pat Rollins, Tuesday afternoon at one o'clock. The quilt on which the club have been working will be used for community welfare, if needed, and if not, will be sent to the headquarters in Portland, where it will be given to some ex-soldier's family in need.

The friends of Miss Birdie McCoy of Imbler, and Mr. Frank Stewart of Alsea, were surprised a few days ago when they learned of their marriage which took place some time ago. Their many friends extend their congratulations. Mr. Stewart has been working at Pendleton the past year and Miss McCoy has made her home with her parents. They have not yet made their plans for the future known.

The P. E. A. (Future Farmers of America) club gave a welcome roast Friday evening, inviting the A. G. S. (Associated Girls Students). Several cars took the students to the west foothills where the roast was held.

Those on the honor roll in the Imbler High school for the last six weeks were: Wanona Westenskow, freshman; Mary Richardson, freshman; Harold Cole, Junior; Clifford Conrad, senior; and Jack McFar, post graduate.

Hugh Davis, of Enterprise, has been in Imbler recently visiting relatives and taking pictures here and at Sammamish. Mr. Davis is a relative to Mrs. Martin of Imbler.

Mrs. C. C. Welch had as her dinner guests Wednesday Mrs. Frank Woodell, Mrs. Sanderson, Mrs. Wayne Parks and Mrs. E. Long of all of Summerville. The afternoon was spent in visiting.

A baseball game is to be held at Island City Friday afternoon. The game will be between Imbler grades and Island City grade teams. Both girls and boys are to play.

Friends of Ralph Cleaver, who has been recently ill, are glad to hear he is able to be up and around again. Mr. Cleaver is still under the care of a physician but is much improved.

Mr. and Mrs. Stevens and daughter, Mae are visiting their son, Leonard and family, who live on the Wade place near Imbler. Mr. and Mrs. Stevens are from Seattle. They are leaving Thursday morning for Portland.

A charivari was given Tuesday May and his bride on Tuesday evening. They were married last Saturday. Mrs. May is from Washington. They will make their home at the Wade place near Imbler.

Waste paper found on the lawn at the Hiawatha, Kan., library is sold to help pay for a landscaping project.

THE WHOLE PACIFIC COAST IS SWITCHING TO THIS NEW HIGH COMPRESSION OIL THAT GIVES 200 EXTRA MILES OF LUBRICATION

SUPER quality at a fair price is making MOTORITE the most widely used motor oil in this community.

MOTORITE is, first of all, super oily or extra slippery. Thus it minimizes friction and guarantees smoother operation.

Next, it has the ability to cling tightly to metal. This enables it to form a perfect seal between piston and cylinder wall to resist the intense pressure developed by gas explosions above. Maximum power is the result.

And MOTORITE is equally efficient at all working temperatures. As the engine warms and the metal parts expand MOTORITE automatically adjusts its viscosity in just the proper ratio to assure 100% perfect lubrication.

A fourth advantage is its great capacity for giving up and carrying away heat. This feature assures cool bearings and is noticed particularly when traveling long distances at sustained high speeds.

No Hard Carbon

The small amount of carbon deposited by MOTORITE is soft and fluffy, much unlike the hard, gritty carbon, common to many oils.

And finally MOTORITE is strictly non-acid—no possibility of corroding the metal of your motor.

These six advantages guarantee you longer service from your oil. Now, with MOTORITE you can drain at 200 miles farther than you have been in the habit of doing.

Don't miss this extra 200 miles. Specify MOTORITE on your next refill.
