## Highway Rough In Kamela Area Because of Work

By Mrs. C. E. Thornburg (Observer Correspondent)  
KAMELA, Ore. (Special) — The Kamela-La Grande highway is so badly torn up now on the long stretches where work is being done on it, that Kamela people drive to La Grande only when necessary.

Easter Sunday was an ideal day in Kamela, the weather being warm enough for outdoor picnics. Rain seemed imminent towards the end of last week, but it held over until Monday evening and then came in abundance for a short time accompanied by thunder. On Tuesday the grass and trees looked so refreshed by Monday's rain. Kamela school children were well feted during this last weekend. On Friday afternoon there was the school Easter party. On Saturday afternoon Mrs. R. Riggs gave a party honoring the 9th birthday anniversary of her son, Douglas. The children played games, and wore each given an Easter basket. Later delicious refreshments were served. Douglas received several nice gifts. The next party was an Easter one given by Mrs. E. Barnes honoring her niece, Miss Arva Taylor, of Portland, an Easter visitor at the Barnes home and her daughter, Betty. A wonderful picnic lunch including ice cream was served under the trees in the camp grounds. Games were played and eggs hunted for. Easter baskets were given to the children as favors.

## Orchards, Berry Bushes In Leaf In Wallowa Co.

By G. C. Meek (Observer Correspondent)  
WALLOWA, Ore. (Special) — Orchard, strawberry beds and berry bushes are rapidly coming out in full leaf in this section. Some of the farmers were busy planting small plots of early potatoes on Friday of last week. A considerable amount of early gardens have been planted in and around town during the past week and some of the early plantings are coming up nicely at this time.

H. C. Hearing and L. W. Minor were recently debarking and boxing some of their cattle before turning them out on summer range.

Clarence Witly, who has been farming the H. G. Masterson ranch in the valley a few miles east of town, has hired out to work for Mr. Masterson during the summer. Mr. Witly has purchased a farm on Cricket Flat but does not expect to move there until fall.

Alfalfa crops in the irrigated sections of this county are making an excellent growth. A number of farmers have recently cultivated the alfalfa fields with implements, killing much of the spring-tooth harrows and other small weeds and allowing the alfalfa to start nicely. Present indications are that if the next two months are favorable for growth of crops that an extremely early haying of the first cutting of alfalfa will be had here this year.

L. V. Lathrop, of Leap, was a La Grande business visitor the early part of last week.

Sam and G. C. Meek and Earl Burfield were Sunday visitors at Guy Parker's home in La Grande.

Mrs. Eva Parker, who has been staying at the Meek farm during the past six weeks, returned to her home at La Grande the last of the week.

George Cousins, of the Leap district, was a business visitor in town the last of the week. He states that this is the second time he has been in town since late last fall, having been busy hauling sheep during the greater part of the time.

Dozens of cars from this county and many from outside points were parked in the Wallowa canyon Sunday and the river was lined with fishermen trying their luck for trout. Some reports of nice catches are made by local people.

A number of local people drove to La Grande to view the airplane stunts held there during the afternoon.

Glass Plass and Sam Hudson made a business trip to La Grande the early part of the week. While there they leased a tract of land in the Dry creek section from H. K. O'Brien and have been busy during the past several days repairing fences and moving some farm machinery there and expect to start plowing during the coming week. A part of the ranch will be seeded to spring grain and the balance summer-fallowed.

H. C. Hearing and wife, of Evans, were Sunday visitors at the L. W. Minor home.

Oscar Maxwell of Middle Valley was busy the past week moving some of his machinery to the U. G. Couch ranch in the hills where he is starting some spring seeding and getting ready to plow a large tract of summer-fallow.

The young roving squirrels are making their appearance in many parts of the community now and many of the farmers are making daily trips into their fields with poisoned grain. According to many this is the most effective time to do good work with poisoned grain, as the young rodents eat the poison well when they first come out. A large amount of poisoned oats have been prepared by the county agent's office during the past two weeks for distribution to farmers. It is expected that much of this will be used during the next six weeks.

Roy Martin has been working for Ed Bell during the past two weeks.

Gastin and Cousins, who have been busy during the past three weeks lambing out their flock of something like 125 ewes, report that they have only a few head so report excellent success in saving most of the lambs, having lost only three to date. They expect to hold the sheep on their farm in the hills until around the first of July when they will place them with another band of several hundred head and take them to summer range in the high mountains until time for delivering the lambs in the early fall. L. W. Minor moved his band of sheep

from his home ranch to range in the Whiskey creek section the first of last week. The grass is well started in that district and is providing excellent feed for sheep and other stock being ranged there.

Ray Gastin who has been working for John Couch for the past several months returned home recently and is helping with the farm work on the ranch.

strength of the visitors, but they have already defeated Whitman college team, which won the championship of the Northwest conference for the past two years. The Coyotes have a well-balanced crew at the plate.

**Coyotes Win Three.**  
The Coyotes took three semi-pro teams into camp last week by safe margins. Wednesday evening they defeated the Nyssa entry in the Idaho-Oregon league 6 to 2. Cornell's men were in the lead from the start and were never in danger. Anderson, a southpaw, did the chinking for the Coyotes and let the Nyssa team down with six scattered hits.

Nampa was Thursday evening's victim for the Coyotes, losing a 5 to 0 contest. Glenn Earl, rookie Coyote hurler, did the mound work and although he was somewhat erratic, kept the Nampa hitters well in hand.

**Base Batten 7 to 3.**  
The week's schedule closed with the Boise Mountaineers on Friday and the Capital City bunch was easy meat for the Coyotes, finishing on the short end of a 7 to 3 score.

Following the games with East Oregon Normal the team will leave next week for Walla Walla where the Coyotes will meet the Whitman college team in a three-game series, May 1, 2 and 3.
