

### FEDERAL PRISONS ARE OVERLOADED

#### Death of 320 in Ohio Penitentiary Turns Spotlight on U. S. Institutions.

**FLIGHT OF PRISONS SHOWN BY FIGURES**

WASHINGTON (AP)—The nine United States prisons now have twice as many inmates as they were built to hold; 12,259, compared to 6,675, normal capacity.

These figures on federal penal institutions were compiled by Sanford Bates, superintendent of prisons:

Normal Capacity	Population
U. S. penitentiary, Atlanta	1,800 2,854
U. S. penitentiary, Leavenworth	1,640 3,379
Leavenworth Annex	1,200 1,603
U. S. penitentiary, McNeil Island	558 1,981
U. S. Industrial Reformatory, Chillicothe, Ohio	1,000 1,439
Federal Industrial Institution for Women, Alderson, W. Va.	500 424
Alderson Road camp	85
Hetion house, N. Y.	200 182
Camp Bragg, Fayetteville, N. C.	129
<b>Total</b>	<b>6,675 12,259</b>

WASHINGTON (AP)—Death of more than 320 prisoners in the overcrowded Ohio state penitentiary puts building federal prisons in the spotlight.

Built in 1890 and designed to house 1,500 men, 4,300 were confined in the Ohio prison when it was swept by flames.

Not only are federal penitentiaries, in some instances, housing double normal capacities, but jails and reformatories in all parts of the country are being swamped with prisoners.

Increasing at a rate of more than 10 per cent a year, inmates in federal prisons total more than 12,000, an amount almost double the combined normal capacities of the institutions, Sanford Bates, superintendent of prisons, says.

In addition, Bates points out that more than 15,000 federal prisoners in 1,100 different jails await sentence or trial.

Attorney General Mitchell has told the senate judiciary committee that because of this congestion "further stimulating activities of prosecution under any law will get us into difficulties."

To relieve conditions somewhat, Bates says many inmates of federal institutions are being sent to government road camps and disciplinary barracks.

Completion of two farms in 1934 for narcotic addicts will provide for 2,000 persons. With this outlet, however, Bates expects a federal prison population in 1934 of 15,000 prisoners, 3,000 in excess of normal capacity.

Prohibition violators constitute the great majority of the federal prisoners with violation of the Dyer auto theft act and the Mann act offering the other chief causes for imprisonment.

The number of prisoners in penal institutions of the country other than federal is placed at about 115,000 by prison officials.

SALEM, Ore., May 6 (AP)—The secretary of state's office was startled Monday when it was discovered that on ballots sent out to Marion county precincts, instead of the slogan "No interests to serve but the public interests," that congressman W. A check with the secretary of state's records showed that it was correct in the official certification so the error apparently fell either on the Marion county clerk or on the printer who printed the ballots.
