PORTUGUESE EMIGRATION TURNS TOWARD FRANCE

LISBON (AP)—While the gates of Brazil are only ajar to Portuguese emigrants, those of France are flung wide open.

Since the big coffee slump and the crisis of unemployment in South America, Portuguese emigrants have turned their gaze across the Pyrenees. Exodus to France in the second six weeks of the year beat all records, an average of 1000 Portuguese a week being signed by French employers.

These emigrants, it is declared, are settled upon the land to take the place of Frenchmen who, lured by prospects of more money in the cities, have deserted the rural districts.

There is much uneasiness here over reports circulated by emigrants returning from Brazil concerning the misery of Portuguese settlers in that country. Emigration to it has fallen off almost to zero.

RECALLS OLD WARS

BERLIN (AP)—President von Hindenburg, whose social duties are largely concerned with meeting old comrades in arms, attended recently the 70th anniversary of the third regiment of footguards, in which he started his military career. In his address he recalled memories of the Austro-Prussian war of 1866, the Franco-Prussian war of 1870, and finally the world war.

POKER WRECKS TURK'S HOME

ISTANBUL (AP) — The great American indoor sport of poker has created a divorce precedent in Turkish courts. A wealthy merchant here won a divorce on the plea that his wife's penchant for dallying with poker chips had resulted in complete neglect of her home.

MAKE RICE STRAW PAPER

ROME (AP)—Paper making on a large scale from rice straw, designed to obviate the necessity of importation, is engaging the Italian ministry of agriculture and forestry. Technicians expect to develop a particularly fine variety of book paper.

Rubber Goods Not Molded

Contrary to what seems to be the quite common impression, rubber goods are not cast by pouring the melted material into molds. Instead the crude rubber is worked between steam-heated rolls and at the same time the sulphur and other ingredients are mixed in. The warm, plastic mixture is then molded and heated to vulcanize the rubber—that is, to cause the sulphur to combine with it.

Proud Old Spanish City

Toledo, ancient capital of Spain, is her most crowded city. Physically crowded—with narrow streets and buildings squeezed inside the walls, leaving not an inch to spare. It is crowded, too, with associations and memories; of Spain in her glory under Ferdinand and Isabella; of the Moors who came here before; of Cervantes and El Greco, Spain's great artists.

Farm Life Fifty Years Ago

A pleasant picture of American rural life as reported in the Farm and Journal of November, 1879: "The tobacco has all been gathered and the farmers are busy cutting corn and seeding. Their wives are making pumpkin pies. The big boys are after the girls. The little boys are after the muskrats."

Broke, but Lucky

Most of us know from doleful experience what it means to be "broke." But did we profit by our experience? Often a man gains more wisdom from being "broke" than from years of handling large sums of money.—American Magazine.

Education's Aim

The ultimate aim of education is the building of character, without which there can be no real success, and there is no school for the development of character like the one in which we graduate by means of self-improvement and the overcoming of difficulties.—Ralph Waldo Emerson.

Plant's Peculiar Growth

The "slowest" crop in the world is the giant bamboo of India. It blossoms only when it reaches its thirtieth year, and then dies. In the meantime it bears an enormous quantity of seed, which is gathered and used as grain by natives.

Hydrogen Gas

The bureau of standards says that the atom of hydrogen has not been split into two different gases. What has been discovered is that hydrogen gas contains two different types of hydrogen molecules, and a partial separation of these two types has been effected.

Variable Timber Line

The timber line, above which trees will not grow, occurs at different heights in the upper northwestern United States as low as 9,000 feet, while in New Mexico and Arizona between 11,500 and 12,000 feet.

First American Steeplechase

The first steeplechase was run at Paterson, N. J., June 7, 1865, a three-mile handicap, over 27 jumps, though the real beginning was an extra day's steeplechase at Jerome park in November, 1869.

Italian Art Masterpiece

Ten stories from the Old Testament are illustrated on the famous bronze doors made by Ghiberti for the Baptistery at Florence, Italy, regarded as among the world's masterpieces.

RUPTURE

Don't submit to avoidable operations or the use of antiquated trusses, as they all set where the lump is and not where the opening is. The opening is seldom larger than a dime (no matter the size of the rupture), and all cases can be retained with the end of a lean pencil.

"The Spermatic Shield-Complex in combination with the Retainer-Simplex (Patent No. 747247 and other patents pending) a scientific achievement in a highly specialized art. It will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Infinitely superior to any instrument method or operation and producing results in no other way obtainable. All cases are secure a lifetime as against further trouble or expense. Large or difficult cases or incisional rupture (following operations) especially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions, with distinguished personal patrons of all nations."

"If you want done what the rest cannot do—see Seeley."

H. M. SHEVNAN — F. H. SEELEY'S EXPERT of Chicago and Philadelphia will be at the La Grande hotel Wed. only, May 14th, from 9 a. m. to 5 p. m. He will be glad to demonstrate without charge or fit them if desired.

N. B.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

Home office: 140 N. Dearborn St. Chicago. Adv.

Denmark's Pre-Eminence

Denmark is the oldest existing kingdom of Europe and one of the greatest dairying nations in the world. The rich pasture lands of Denmark have brought prosperity to her industrious peasants and her products have gained fame to the ends of the seas.

Linking Ancient and Modern

Such modern and ancient industries as aviation and sheep grazing are combined in France at the Ain airport. Airmen have been warned to make a circuit of the airdrome before landing to give the shepherd time to collect his flock.

Stock Exchange Term

A "straddle," in stock dealing, is an option giving the holder the double privilege of a "put" and a "call"—i. e., the right to demand of the seller or require that he take, at a certain price within a certain time, certain securities.

Rubber Sponges

The bureau of standards says that in making sponge rubber a substance such as ammonium carbonate is mixed in the rubber compound. The gas which is liberated during vulcanization produces the porous condition in the finished product.

White Oak Reproduction

Natural reproduction of white oak in the southern states may be either by seed or by sprout. Under usual forest conditions acorns are produced when the trees are about seventy or seventy-five years old. Good seed crops occur in every four to seven years.

Passing Observation

You won't believe it, but you probably are happier with what you have than you would be with what you crave.

Parson Weems Book Agent

Parson Mason Locke Weems, first biographer of George Washington, was America's first itinerant book agent. A biography of Weems reveals that with a copy of his "Life of Washington" under one arm and tracts on morality under the other he made house-to-house canvasses of the citizens of the then young republic.

Home Livers

The good old days were those when young people lived at home even before they were married.

URGES RESISTANCE

SURAT, Bombay, India, May 10 (AP)—Non payment of taxes and social boycott of government servants as long as Mahatma Gandhi, leader of the civil disobedience campaign, is imprisoned, was urged today by V. J. Patel, resigned speaker of the Indian legislative assembly.

WOMEN'S CLUBS TO MEET

SALEM, Ore., May 10 (AP)—The state convention of the Oregon Federation of Women's clubs will meet here Monday in the hall of representatives. About 400 delegates and visitors are expected. Chairmen from various parts of the state are sending in their reports relative to activities planned for the four-day session.

The are program will be in charge of Mrs. E. P. Mossman of La Grande. Speakers will be Mrs. H. C. Myline of McMinnville and Clara B. Smith of Washington county.

FIVE KILLED

MONTEVIDEO, Uruguay, May 10 (AP)—Five persons were killed when an airplane belonging to the French company La Tessore fell into the sea today while flying from Montevideo toward Rio Janeiro.

A passenger, Juan Alberto, De Barrios, escaped uninjured.

MOTOR FAILURE FATAL

HARTFORD, Conn., May 10 (AP)—Motor failure was held today by Chief Motor Inspector George Pranatis of the state department of aeronautics to have caused an airplane crash at Brainard field which brought two deaths.

Clark Wood Says

Bankers came to the rescue of the stock market, although it is quite unlikely that the stock market would ever come to the rescue of the bankers.

The airplane industry must be thriving if one judges from the turnover. A New York aviatrix has just made 344 loops.

The nose is a feature which never changes, according to a medico, who probably doesn't refer to a woman's nose.

The esteemed Portland Oregonian clarifies the Indian situation by saying that Mahatma Gandhi gave the lion's tail just one twist too many.

Sports writer says that the Sharkey-Schmeling fight is hard to figure out, and all we know is that there is likely to be one figure out at the finish.

"What's the matter with Oregon?" Nothing except the pests who are constantly voicing this inquiry.

"One congress cannot bind another," says a leading solon. Which is, in a way, regrettable, as a bound congress would be a spectacle for gods and men.
