

SOCIETY NEWS

15th Anniversary Of Ladies Aid Is Observed Monday

In celebration of the fifteenth anniversary of the Riverside Ladies Aid about 70 persons gathered last night in Lane chapel to enjoy a potluck dinner and program.

Announcements

The Ladies Aid society of the Methodist Episcopal church will meet Wednesday afternoon at 2 o'clock at the home of Mrs. Herbert Speckhart.

The Ladies Aid society of the Presbyterian church will meet Wednesday afternoon at 2:30 in the church parlor. All members are asked to be present as this will be the final meeting of the season and plans for the bazaar to be given in the fall will be discussed.

The Riverside Ladies Aid will meet at the Lane chapel Thursday afternoon at 2 o'clock with Mrs. C. H. Hylstone and Mrs. Tom Bayliss as hostesses. All members are requested to bring patterns for quilts and quilt pieces as a quilt is being started.

Bridge Club In Delightful Party

The Island City Bridge club was delightfully entertained Saturday afternoon at the home of Mrs. Carl Perrine with two tables at play. Lovely pink parties were a decoration of the room.

Mohawk Bridge Club Entertained

Members of the Mohawk Bridge club were guests of Mr. and Mrs. James Oneal at the last meeting of this season held Saturday night at the Oneal home.

Mrs. W. H. Safford Hostess to Club

Mrs. W. H. Safford was hostess to her club Saturday evening at her home on First street with two tables at play. Spring flowers formed pretty decorations, and following cards a dainty luncheon was served.

Tatapochn Camp Fire Group Elects

The Tatapochn Camp Fire group met Monday afternoon in the Lutheran church and officers were elected by ballot. Frances Alexander was chosen president.

Bible Searchers Will Entertain

The Bible Searchers class will entertain in honor of Mrs. H. R. Mumford Thursday afternoon from 2 to 4 o'clock in the Presbyterian church. Mrs. Mumford is leaving to make her home in Missoula, Montana.

Birthday Party At Lockwood Home

At a happy birthday party Miss Phyllis Lockwood celebrated her fifth anniversary recently at the home of her parents, Mr. and Mrs. Phillip Lockwood. Ten little girls were present and the afternoon was spent playing games.

Shower In Honor Of Miss Leighton

In compliment of Miss Loretta Leighton, daughter of Mr. and Mrs. H. W. Leighton, whose marriage to Movie Gollissen from Madrason of Mr. and Mrs. John Gollissen, of The Dalles, will be an event of this Friday, Mrs. W. M. Pierson and her daughter, Berneta, were hostesses at luncheon Monday afternoon.

Menus Of The Day

By Mrs. Alexander George LEMON CREAM CAKE USES EGG YOLKS

Menu for Dinner Sliced Roast Beef Creamed Potatoes Buttered Beans Bread Grape Jam Head Lettuce Mexican Dressing Lemon Cream Cake Iced Tea

Mexican Dressing (For head lettuce or vegetable salads) 1 teaspoon salt 1 teaspoon sugar 1-4 teaspoon dry mustard 1-4 teaspoon celery seed 2 tablespoons horseradish 2 tablespoons catsup 2 tablespoons chili sauce 1-4 cup chopped dill pickles 1-2 cup vinegar 2-3 cup salad-oil

Lemon Cream Filling 2-3 cup sugar 1-3 cup flour 1-8 teaspoon salt 1-2 cup lemon juice 1 tablespoon grated lemon rind 1 cup water 1 tablespoon of butter 2 egg yolks

Blend sugar, flour and salt. Add lemon juice, rind and mix well. Add other ingredients. Cook in double boiler until thick and creamy. Stir frequently to prevent lumping. Beat filling 1 minute. Cool. Spread on top layer of cake, cover with other layer. Chill. Cover with boiled frosting. Serve cut in wedge shaped pieces.

Boiled Frosting 2 cups sugar 1 cup water 1-8 teaspoon cream of tartar 2 egg whites, stiffly beaten 1-4 teaspoon vanilla 1-4 teaspoon lemon extract

Mix sugar, water and cream of tartar. Cook over moderate fire without stirring until thread forms when portion is slowly poured from spoon. Pour at once into beaten egg whites and beat until cold and creamy. Add vanilla, lemon extract. Mix well. Frost top and sides of cake. If frosting thickens before it becomes cold, add little boiling water and beat thoroughly.

Grapejuice sauce blends well with baked spiced or cottage puddings.

WEDNESDAY PROGRAMS The National Broadcasting Co.: 6:30, mixed quartet and orchestra; 6:30 to 7, Grantland Rice and Dizzy Vance, orchestra; 7, Henry Starr; 7:30, Amos and Andy; 7:45, violin; 8, Jack and Ethyl; 8:30, Bill Billy boys; 9, Olympians; 10 to 11, minstrels.

KHJ (900): 7:30, CBS; 10, new, dance music; 12 to 1, organist.

KFI (640): 7, popular music; 8, NBC; 8:30, features; 9:15, concert orchestra; 10:30, dance music.

Spokane KHQ (590): 7:30, NBC; 9, Hawaiians; 9:30, NBC; 11, requests.

through an effort to replenish the state's diminishing supply of wild turkeys. Several hundred domestic birds were driven far from civilization in the game preserves, but a large percentage of them promptly came back to the comforts of modern life.

Officials are now experimenting with the eggs of wild fowls, from which they hope to raise a crop of turkeys that will return to their native haunts and provide game for sportsmen.

Polinosis is the correct name for what in popular language is known as "hay fever."

In substance, hay fever is due to the invasion of the body by a foreign protein. To appreciate the meaning of this last statement, it must be understood that all living things are made up of protoplasm, which, among other things, contains protein. The protein of each type of living thing is essentially different from that of the others.

When a strange, undigested protein gets into the blood of a body, it causes the body to react. This reaction becomes more violent on the second and subsequent invasions so that the invading undigested protein becomes a poison.

Polinosis, as the name suggests, is a condition commonly caused by plant pollens. The pollen is the male sexual cell of plants. The wind-carried pollens are those most commonly responsible for polinosis.

The mechanics of polinosis are explained somewhat in this manner. During certain seasons, the air is laden with pollen granules. These are taken in with the air we breathe. They are deposited on the linings of the nose and throat.

Ordinarily the pollen grains are digested by the mucous membranes. But, should pollens because of their abundance, or for other reasons, fail to be digested, they will get into the blood-circulation and produce a type of protein poisoning which leads to the symptoms recognized as hay fever. These symptoms are fits of sneezing, fullness in the head, watery and mucous discharges from the nose and eyes and a general sense of feeling just miserable.

MATRONS AT CAPITAL STRONG FOR BLUE WASHINGTON (AP)—Blue is apparently the choice of the best dressed matrons for spring and early summer.

Mrs. Edward E. Gann attended the races recently attired in a light blue silk suit.

Mrs. James L. Whitley, wife of the representative from New York, is wearing a blue sports dress embroidered in red and a light fitting blue hat.

The number of motor vehicles registered in Canada during 1929 was 1,193,889, an increase of 117,070.

Weather Maps To Aid Aviators On Ocean Journeys

NEW YORK (AP)—The non-stop planes now lining up again in Europe to try the hitherto almost certain death westward flight across the North Atlantic have a new aide.

This is new weather service, started in May, 1930, that plans the first complete ocean forecasting. In its files here are pictures that explain better than words why but one westbound non-stop plane has crossed the North Atlantic, while eight have made it in the other direction.

Take, for illustration, one of these pictures, the weather map of the North Atlantic on November 25 last, made during preliminary organization.

The lines that mark the course of the winds trace a vast shape, that looks like a devil fish filling the ocean from Newfoundland to Ireland.

Its eyes are two whirling cyclones set one-third the distance out from each shore. Its tentacles swing southward to the Azores and north nearly to Greenland.

On it the thing which swallowed the westbound fliers without trace, from the French ace Nungesser to Princess Lovensstein-Wertheim and the Hon. Elsie Mackay, is apparent. It is a steady rush of air toward Europe.

Though from locality to locality

Chats With Parents

COMMON SENSE By Alice Judson Peale There are still a good many parents who hold that parenthood is an instinctive art which requires for its successful practice nothing more or less than ordinary common sense. Yet common sense alone possesses its dangers when applied to a so subtle and complicated a process as bringing up a child.

The common sense of our grandmothers leaves us still as puzzled as they must have been by the ineffectiveness of classic disciplinary measures and the apparent willful waywardness of innocent childhood.

Common sense takes no account of the emotional under-currents which exercise a profound influence upon the relationship between parent and child. Common sense largely attributes to heredity much behavior which is really determined by the interplay of personalities within the home.

It ignores almost entirely the unconscious factors at work in determining the parent's methods of discipline, his prohibitions, his standards. It ignores the actual mechanisms by which behavior is determined in favor of certain a priori notions of how children should act.

It ignores also the unconscious drives at work within the child in determining his resistances, his suggestibility, his wish either to be

U. S. Supreme Court Adjourns To Oct. 6

WASHINGTON, June 3 (AP)—Setting a record by disposing of all cases on hand for decision, none being carried over to the next term, the supreme court Monday recessed to meet again October 6.

The court consented to entertain the appeal of the Northport Power and Light company from Northport, Washington, seeking to enjoin Washington from forfeiting certain of its property.

The court refused to pass on the demand of Charles A. Burchardt and Fred A. Ballin for an accounting by the old board of directors of the Northwestern National Bank of Portland, Oregon.

NEW AIRPORT FOR CUBA HAVANA (AP)—Announcement has been made that the rotary club of Meron, in the province of Camaguey, has been authorized to construct an airport. The new field is to be known as Jose Marti Aviation station.

YOU CAN'T HIDE FAT CLUMSY ANKLES When tempted to over-indulge "Reach for a Lucky instead" Be moderate—be moderate in all things, even in smoking. Avoid that future shadow* by avoiding over-indulgence, if you would maintain that modern, ever-youthful figure. "Reach for a Lucky instead." Lucky Strike, the finest Cigarette you ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Lucky Strike has an extra, secret heating process. Everyone knows that heat purifies and so 20,679 physicians say that Luckies are less irritating to your throat. "Coming events cast shadows before" "It's toasted" Your Throat Protection—against irritation—against cough *No special dietary, but moderation in eating and drinking and not more than three meals daily, is Dr. F. McKelvey Bell's advice in the New York Medical Journal to all men and women who want to keep a proper figure. We do not represent that smoking Lucky Strike Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a Lucky instead," you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.
