PORTLAND CASH... BUTTERFAT... SAN FRANCISCO, June 5 (AP) - Butterfat 1.6. b. 84. 84. 84. 37c.

Butter Prices Firmer But No Price Changes

Butter prices displayed a considerably firmer undertone today, but no changes were announced in quotations. Supplies were less than previously and demand for storage appeared brisker. Premiums were reported paid by some for 92 score product.

Because of low prices, there has been a good demand for eggs, but not sufficient to absorb all the supplies. Prices continue irregular. Reviewing the fruit and vegetable situation, the Portland bureau of the U. S. department of agriculture says:

"The summer fruits and vegetables-melons, berries, cucumbers, etc., are meeting with rather slow demand this week; meanwhile, the cool weather stands by, as apples and potatoes, continue in good demand. Rain has delayed strawberry-ripening again, and receipts are light. Production will increase again with warm weather, though."

"The potato market shows fair activity, and new California stock shows a stronger undertone, with a few sales at higher prices. In California, northwestern Netted Gems are selling higher than new potatoes. At Portland however, the new potatoes are still a trifle higher."

"The first carlot shipment of mixed vegetables this season was loaded from Portland yesterday. A car of peas were loaded today, and Oregon's first cherries were forwarded yesterday, with two carlot shipments."

"Hot-house tomatoes are suffering from the present liberal supply of southern outdoor stock. Hot-house prices have lowered, to meet this competition."

LEGION, ROTARY EACH DONATE \$200

\$2000 will be given in prizes to the best drum corps competing. The first prize will be \$250.

The purchase of flag etiquette charts to be presented to all of the school rooms in the country, was authorized at last night's meeting. The charts tell how to salute the flag, proper way to drape it, etc.

Tomorrow night the drum corps of the legion members and the auxiliary will drive to Baker to attend a meeting of the Baker post, after a street parade in Baker by the drum corps.

The American Legion now has 350 members, a much larger number than ever before. Officials are interested now in securing one more candidate which would bring the total to 351 and allow them another delegate at the state convention.

Temple Ruins In Bolivia Reveal Old Civilization

POTSDAM (AP)—Of all ruined pre-historic cities "half as old as time," the most ancient is undoubtedly Tiahuanacu in Bolivia, on the banks of Lake Titicaca, where stand the remains of the great pre-Inca sun temple Kalasasaya, relic of a civilization that flourished many centuries before Christ.

Dr. Rolf Mueller of the Potsdam Observatory, who recently returned to Germany from Bolivia and Peru, has submitted to the Prussian Academy of Sciences a report in which he describes the results of two years' research with Professor Arturo Posnansky, of La Paz, among the Tiahuanacu remains. He believes them as old as the pyramids of Egypt, if not older.

Astronomical civilization in this dim past Peruvian civilization had reached an amazingly high level, according to Dr. Mueller. The temple solar Kalasasaya was so constructed as to present a stone calendar or record of the solar year.

By calculating the variations produced by time in the angle of the ecliptic the approximate age of the structure could be gauged. Throughout the regions visited by Dr. Mueller and Prof. Posnansky, there are vestiges of pre-historic observatories known as "Intiwatana," meaning "Places where the sun is kept prisoner."

The solar temple at Cuzco, Dr. Mueller concludes, must have been the most splendid of its period. Here stood, facing east, a huge golden image of the sun which caught the rays of the rising orb at the summer solstice, June 23.

Old chronicles tell of one Leguizano, a Spanish soldier who captured the golden image and gambled it away the next night. A local proverb still speaks of a spendthrift as one who "gambles away the sun before it is risen."

BISHOP CANNON QUILTS HEARING

Walsh, of Montana, the acting chairman of newspapermen he regarded Cannon as "in plain contempt of the senate."

Walsh said, in his opinion, Cannon's refusal to answer opened the way to one possible contempt proceeding, while his withdrawal today constituted a second basis for a contempt charge.

Although Cannon had appeared voluntarily, Walsh held that once having placed himself under committee jurisdiction, he could not withdraw until excused.

The Montana added there might be doubt as to the committee's authority to inquire into Cannon's political activities, but there was no doubt the withdrawal today amounted to contempt.

A fourth resolution expressed regrets to the family of Federal Judge N. J. Simont, former congressman from the district.

The committee also went on record as "approving the administration of our distinguished president, Herbert Hoover, and pledge to him our continued support," and also endorsing the efforts of senators and congressmen from Oregon.

A resume of the camp that the scouts have had during the past two years at Catherine creek was presented by Carl Egeman.

The address of the evening was by Elmo Stevenson, scout executive, who told many interesting points about the Anthony lake camp, saying that some of the buildings would be set up by men before camp starts. ENFORCEMENT OF PARKING LAW IS GIVEN SUPPORT

Verne Jennings, accompanied by Avery Harrison, said that Pendleton and Baker both make an attempt to enforce the law, and also pointed out the fire hazard that results from having hotels surrounded each night with locked, parked automobiles.

A. R. Hunter also spoke briefly, stating that he believed The Dalles and other Eastern Oregon cities had this law.

The discussion resulted from a decision a week ago to either enforce or repeal the ordinance in question.
