USING PLANES TO FIGHT BUGS AT ROSEBURG

Effective July 1st, Carl Abbott, trustee of the use of aeroplanes in connection for poison dust distribution of northern sterling and other pine worm pests, C. S. Bolton, U. S. Weather observer, acting at Roseburg.

Plans for using aeroplanes in fighting the U. S. representatives of the Southern Pacific company, C. S. Bolton announced that it would be the power the use other pine worm pests. Grange observers reported the U. S. Government of the fact and as forest fathers, is the work is carrying the purpose of eliminating pests as completed with ground equipment.

The airplane is now believed that the duty of Section the control of worms are especially in which grows. The disease spreads an aspen that spread with ground equipment is difficult, while the plane can cover large areas.

An experimenting of growers in other places the disease control of aspens is a re-operation was a breaking will cause. Due to the extraordinary low wage scales in the Umpqua valley, foreign country profitable experts will probably not be deemed advisable.

FORD BELIEVES BUSINESS IS ON UPGRADE TODAY

(Continued from Page One)

...encouraged that the Ford Motor company plans the establishment of a factory in Texas and may be prepared to go in Germany shortly. It is under consideration now looking to the establishment of a plant there.

"We are going to set up a plant in South America," he said, "and I believe a similar movement within the next six months for all of Europe. This is the time to build and to establish new plants all over the world, in the midst of general depression as the prices of all things entering into the cost of production are down."

Mr. Ford also said that Henry Ford, his son, was in charge of the work in Europe and that he was now in Germany.
