His mother, Mrs. Fleetwood, will go to Nebraska soon and she has allowed her son preceed her, going east with his aunt, Mrs. Evans.

The Methodist program began with a song by the congregation, "A Melody of Love," then followed by a prayer by the Rev. N. E. ## Wildcat Found Guilty; Radio Request Denied

PORTLAND, Ore., June 10 (AP) —Robert Gordon Duncan, self-styled "Oregon Wildcat," defeated republican candidate for nomination to congress, was convicted in district court Monday on two complaints charging him with electioneering on election day in violation of the Oregon corrupt practices law.

The jury of three men and three women deliberated only ten minutes before bringing in the verdict. Duncan will appear before District Judge Mears today for sentence at which time his attorney will present a demurrer for argument.

Specifically Duncan is charged with broadcasting two talks over radio station KVEP on election day in which he urged the voters not to return his opponent, Congressman Franklin F. Korrel, to congress. The offense is a misdemeanor and each is punishable by a maximum jail sentence of 30 days, or both.

### KVEP Application Denied

Hardly had the court room cleared after the verdict than word was received from Washington, D. C., that the District of Columbia court of appeals has denied the application of W. B. Shaeffer, owner of station KVEP, for a stay of the recent order of the federal radio commission terminating the station's license. The station's temporary license expired May 31.

Duncan's arrest for violation of the corrupt practices law was made on the complaint signed by George E. Sandy, commander of a Portland veteran's organization.

Immediately after Duncan's arrest, several Portland civic organizations addressed resolutions and petitions to the federal radio commission demanding that it refuse to renew the license of station KVEP, alleging that Duncan had used "obscene, indecent and profane language" in his talks over the station.

But Duncan's clashes with the law were not ended. In the course of his talks over KVEP he attacked chain store organizations and individuals. Among these were B. F. Irvine, editor of a local newspaper. Following these alleged attacks Duncan was arrested by a United States marshal on authority of J. W. McCulloch, assistant United States district attorney. Kenneth F. Fraser, United States commissioner, has set June 12 as the date for Duncan's hearing.

Duncan faces still further possible encounters with the law. One of the early cases to be investigated by the federal grand jury, now in session here, it was understood at the federal building yesterday, are charges against Duncan of "uttering oscene, indecent and profane language by means of radio communication and by interstate radio transmission." If the grand jury should indict Duncan, his hearing before Commissioner Fraser will not be necessary.

Duncan now is at liberty under $2500 bail.

### DUNCAN SENTENCED

PORTLAND, Ore., June 10 (AP) —Robert Gordon Duncan, self styled Oregon "wildcat," and defeated republican candidate for congress, who was convicted here yesterday on two violations of the Oregon corrupt practices act, today wass entenced to pay a $25 fine on the first count and $50 and a ten day jail term on the second.

The court announced what the penalties would be before hearing the demurrer of Duncan's attorney. The defense attorney withdrew his demurrer without argument when the judge ruled that fairness of the trial could not be challenged. Appeal bonds were set at $200.

## TARIFF BILL VOTE DUE BY NEXT FRIDAY

(Continued from Page One)

$197,000,000 over duties collected two years ago and added the average ad valorem increase on non-agriculture items amounted to less than one per cent.

Many increases were offset by decreases, he said, adding the duty placed on soft wood lumber was offset by placing logs on the free list, higher manganese rates were offset by lower aluminum levies, and increases in chemicals were offset by lower levies in this schedule.

"Agriculture has obtained the major part of the increase," Watson said, "and it is difficult to see how the senators from agricultural states can fail to support the bill."

Senator McCulloch, republican, Ohio, said he would vote for the bill because of the flexible provision permitting the president to correct any rates and setting up "machinery for a scientific readjustment."

Senate republican leaders continued confident today of enough votes to pass the tariff bill by a narrow margin.

The final roll call, concededly close, was expected to come on Thursday or Friday. Chairman Smoot of the finance committee, in charge of the bill, predicted the earlier date.

Meanwhile, the members of the senate were given a last opportunity to express their attitudes for or against the measure. To expedite action, the two sections of the conference report—one dealing with nearly all of the rate schedules and the other with the flexible provisions and the lumber tariff—were combined.

### OIL TEST "DUSTERS" PROVE BOON TO CATTLE RAISERS

SAN ANGELO, Tex. (AP) — Failure of the oil drillers to strike oil has proved a boon in many cases to cattle raiser of the southwest.

In years gone by locating of water holes in Texas and other states was one of the most serious problems faced by ranchers. Now the cattle raiser's struggle against drought has been made easier through oil development at which he once looked askance, for many an oil test "duster" has developed into a waterhole.

## PAIN IN YOUR SHOULDER?

**Use Tysmol for Relief**

Knife-like jabs of pain in the vicinity of the shoulder blade are generally due to neuritis, brought on by exposure to draughts or sudden changes of weather. In some cases there is stiffness or soreness in the muscles, making it difficult to raise the arm.

The safest and easiest way to relieve such an attack is to apply a small quantity of Tysmol over the affected area. This soothing, healing preparation is quickly absorbed through the pores and carried to the throbbing aching peripheral nerves. The pains usually stop at once, and in a very short time the last trace of soreness should disappear.

Tysmol is absolutely harmless—free from dope. Recommended for all forms of nerve pain, whether caused by neuritis, neuralgia, sciatica or rheumatism. Sold by leading druggists. Always on hand at Glass Drugs, Inc. —Adv.
