**From Salem**—  
Mrs. W. W. Williams arrived last evening from Salem and is visiting at the home of her sister, Mrs. Julius Fisher on Lower Cove.

**Visiting Brother**—  
Mr. and Mrs. Paul Knutz of the Iowa district had as their guests over the week end, Mr. Knutz's brother, Charles Knutz and family, Mrs. Knutz and sons, Eugene and Richard of Hellingham, Washington, Mr. Knutz's sister, Mrs. Trachsel of Portland and his niece, Evelyn Eberhardt of Portland. The party left in their cars this morning for their respective homes.

**Sells Turkeys**—  
Prof. Cecil R. Griggs of Union served in a number of capacities during the recent stock show. On Friday he received from Mrs. Russell of the Willamette valley a shipment of day old chickens. The Russels were attempting to dispose of some surplus turkeys and sent them here at a low price to be distributed at the show. Mr. Griggs succeeded in putting out the whole lot of about 1150 little turkeys.

**Makes Initial Visit**—  
Earl L. Cooley, state supervisor of vocational agriculture was in this valley last week visiting his acquaintances here and conferring with the F. E. A. boys at the stock show. Mr. Cooley has quite recently succeeded O. I. Paulsen, who has taken the position of agricultural agent of the U. P. railroad. Mr. Paulsen was also here last week renewing old acquaintances and making new ones.

**Plans In Cherry**—  
State Representative H. H. Weatherston has been doing some real work the past weeks. He has cleared off another piece on his farm above Elgin and is putting in seven acres of cherries. Mr. Weatherston is a firm believer in the possibilities of the hillsides for fruit and he is giving it practical demonstration.

**Concludes Visit**—  
Mrs. Lew Lewis who has been visiting at the home of her son-in-law and daughter, Mr. and Mrs. Carl Brown near Imbler left Sunday for her home at Lathrop, Mo. Mrs. Lewis has been in the valley for about a year.

**Home From Trip**—  
Mr. and Mrs. Sam Buckman of near Alsea have just returned from a very pleasant auto trip which took them into southern and western Oregon. While they were gone they visited also at the home of Mr. and Mrs. Alvin Olms at Fields, Oregon.

**Funeral Today**—  
The funeral of the late R. McAnish, who died Saturday at his home in the Valeria district, is being held this afternoon. Mr. McAnish had been in poor health for a long time but had hoped that with warmer weather he would be able to get out and would improve. The family had been living rather a comparatively short time on what is known as the Lytle farm which they purchased.

**Mr. Curtis Better**—  
M. J. Carter who has been quite ill of pneumonia, at his home in the Riverside district is much better and very nearly well again. He, too, like others bothered with this disease, began to feel better as soon as the weather became warmer.

**Purchases Sire**—  
Wayne Prizell of Pleasant Grove last week purchased from Jimmie Mills of near Cove a registered Jersey bull which will eventually become the head of his herd of fine Jersey cows. Mr. Prizell has been building his herd up gradually and now has both quantity and quality.

**Wins Scholarship**—  
William Hill of Elgin, who was graduated week before last from the Oregon state college was announced as having been awarded a \$1000 fellowship in the soil bacteriology department at the state college of Wisconsin.

**Club Plans**—  
The Praxella Sewing club, an organization of ladies in the vicinity of Imbler held a club picnic on Thursday at Riverside Park. There were 19 ladies who attended the happy gathering which lasted all day, the picnic luncheon being served at noon. The next picnic will be two weeks from that date at West's infirmary.

**Grange To Meet**—  
The regular meeting of the Blue Mt. grange will be held next Saturday at the grange hall, beginning at 11 o'clock and with dinner served at noon.

**Fractures Arm**—  
Earl Hermann son of Mr. and Mrs. Henry Hermann of the Island City-Deer road had the misfortune to break both bones in his right arm just above the wrist last week. The accident occurred while the lad was attempting to crank the tractor.

**Home From Utah**—  
The Misses Stella and Esther and Arnold Edvalson have recently returned from a visit with relatives in Ogden, Utah and southern Idaho. They were accompanied by the valley by their sister-in-law, Mrs. Carl I. Edvalson, and her daughter, Rebecca Louise, the latter being, by the way, the only granddaughter of Mr. and Mrs. C. P. Edvalson of Cathlamet Creek. The mother and daughter will remain here visiting for some

time. A week ago Sunday Mr. and Mrs. Edvalson were further surprised by the arrival of their son-in-law and daughter, Mr. and Mrs. Leigh Crossan and their two sons, Leo and Glen of Lebanon, Oregon. Mrs. Crossan is the eldest daughter of the Edvalson family. Last Thursday evening a family dinner was held at the Edvalson home with all except one member in attendance, that being their son, Carl I. of Ogden. Those present were Mr. and Mrs. Leigh Edvalson and Mrs. Donald Lloyd, Elmer and Gene; Mr. and Mrs. Leigh Crossan and sons, Leo and Glen; Mrs. Carl I. Edvalson and daughter, Rebecca Louise; Merlin Wade, Herman Edvalson, Mr. and Mrs. C. P. Edvalson, and children, Arnold, Evelyn, John, Esther, Stella, Edna and Ada. A bounteous dinner was served and the evening was a very happy one, so all report.

**Has Fine Stock**—  
E. K. Hunter came down from Wallowa with 10 head of fine registered Jersey cattle and carried back at the close of the livestock show, numerous and sturdy ribbons of different hues as well as considerable prize money. The ton which Mr. Hunter chose to show from out of his herd of 20 head, entered at the show under the classification of aged bull yearling bull, senior bull calf, junior bull calf, cow over four years and senior yearling heifer. In these classes he placed as follows respectively, first, second, third, first, second, first and first. He was senior champion bull and he also received ribbons for the senior champion and grand champion female. Mr. Hunter stayed in this valley during the entire show and was accompanied by Mrs. Hunter who made many friends while on the show grounds.

**More Beans**—  
They are trying for the first time this year, beans on the Carey-Herman ranch east of Island City also. About 70 acres have been put as a trial. These men

are not yet ready to report their decision as to the success of their experiment made last fall with the deep harrowing—the Killefer machine having been used. It is early yet to determine just what benefit is going to be derived.

**Had Menches**—  
Miss Jane Daniels of Muddy Creek recovered from an attack of the measles just in time to come to the livestock show, although her eyes were still weak and colored glasses were necessary. Jane was successful in receiving the scholarship given annually by Dr. Phin in memory of her brother, Marvin who was very active in civic work and who died a few years ago. Both of the Daniels girls have now won this particular scholarship.

**Name Given Incorrectly**—  
In the account of the recent election of a Smith-Hughes instructor for the Imbler high school, to succeed Prof. Don Stewart, the name was reported incorrectly to us, and should have been "Swearingin" and not "Swearingin". Prof. Swearingin was kept quite busy during the three day show and made a very good impression, according to reports.

**Wedding Of Interest**—  
Of considerable interest in this valley is the recent marriage of Miss Carmen Blasz of Wallowa to Harold L. Pearce of Lostine which was solemnized at the home of Rev. Shields at Wallowa a week ago Sunday. The ceremony was witnessed only by the immediate families of the young people. It is reported that they will make their home in Lostine.

**Smith-Conley Reunion**—  
About 55 members of the Smith-Conley clan gathered at Riverside Park in La Grande Sunday for their annual reunion. The day was spent very informally with the different groups having their dinner together and then an afternoon of visiting. A short business

session resulted in the retention in office of the present officers, Dick Smith, president and Mrs. Grover Gelmaier, secretary. It was also decided to hold another reunion next year.

**Wins Lamb**—  
Clifford Koyce of near Summer-ville received the fine registered Hampshire ewe lamb which is to be given annually now by Hugh Huron and Frank McKenyon for some sheep club member of eastern Oregon. During the livestock show a three day contest in fitting a lamb for show purposes is to be held and the ewe lamb is the prize offered. This is the first year this award has been made but the two men plan to make it an annual one and open to all sheep club members.

**Haying**—  
The first cutting of the alfalfa crop is being made at the present time and as expeditiously as possible. In most cases the quality is reported as being quite good. Weather is ideal right now for drying and the stacks are going up all over the valley.

**Sells Many Animals**—  
C. N. Ogilvie, of near Cove, whose herd of fine registered Guernseys is very well known, reports the sale of 12 head from his herd since he made his extensive showing at the Wallowa county fair last fall. The whole Ogilvie family is interested and busy with the successful showings they have made.

**To North County**—  
Mr. and Mrs. Ed Jasper, of the Valeria district, drove to Palmer Junction Sunday on business and pleasure combined.

**Visits Son**—  
Mrs. B. P. Dahlstrom, of North Powder, is making a visit at the home of her son, John Dahlstrom, of Iowa district. They all spent a day last week at the stock show.

**Chats With Parents**—  
A CHANGED IDEAL By Alice Hudson Peale

There was a time when the conception of a perfect mother was that of a woman wholly devoted to her children and to her home. She had no other interests, no longings that were not fulfilled by a comfortable and snug home and a row of shining faces at the dinner table.

The perfect mother of a generation ago was the embodiment of self-sacrifice; it was her duty and presumably her joy to give up everything for her children.

The ideal has its virtues and its drawbacks, but whatever our final estimation of its value, either to the parents or the children, the fact remains that it is out of date.

With changing social and economic conditions such single hearted devotion has become absurd and probably harmful.

To the mother of today, bringing up a family is but one interest, although an important one, among others.

The passing of the home as a productive unit, knowledge of the newer psychology of family relationships have brought her to a stand from which she could not, if she would, turn back to the old simple picture.

The mother of today is successful through the integration of her own personality and through her understanding of the importance of relative values in her own life and in the lives of her children.

Her solutions are not final, they cannot be in a world so quickly changing.

every lamb has brought down going across the world at this price and I sold good California straight at \$12.10. The fact that Chicago has shown a decline of 50c to \$1.00 per ewt. in the last two days brings our market well in line, and it means that the packers want this choice class of lambs and will pay for them, and I hope and really believe that we will see 13c lambs, and we would see them in the very near future if there were not so many lambs being shipped from Kentucky and Tennessee.

Aged sheep have not held up, there being a decline of about \$1.00 per ewt. Best ewes are selling around 50 now. Most of them bring \$4.50 to \$4.75 per ewt. Good yearlings are selling at 7 1/2c to 3c, according to weights and quality. Old wethers would bring around 50, and we believe the low time has been reached on this class of stock.

There seems to have been a little more activity in the wool sales down east these past ten days, although there has been very little change in values. It wouldn't take much of a boost in price, and only a little more activity, to give the packers more credit for their pelts, and this and the fact that possibly lots of idle men have found work recently, and with the good demand for lambs that has been created by the advertising your organizations have carried on, makes it a sure bet that an outlet will be found for all your fat lambs that will come at fair prices.

The demand for feeders is limited to the commercial feeders who are paying \$5.00 to \$5.25 for 110 spring lambs to shoot and feed out. The country demand will not amount to much for thirty days at least, and right now the pastures never were better, and a good prospect for a corn crop makes it almost a sure bet that there will be a big demand for all the feeder lambs, but at lower prices than were paid last year.

**Market Price Of Good Lambs Is Advancing**

In the current issue of the Oregon Wool Grower, it is asserted that the market price of good lambs is advancing as the following story shows—In one of those personal letters that Ed Nolan sends out to several thousands of the folks in the sheep country, there is indicated an opportunity for the fellow with lambs now ready for market. As sheep salesmen for the Lincoln Cattle company at Omaha, Mr. Nolan writes as follows under June 5th date line:

"It is more than satisfying to see the market advance gradually, just as we felt it would, and our predictions made some time ago when things looked pretty blue, that the good lambs would bring \$12.50 has come to pass. Up until

today, \$12.00 to \$12.25 has been the popular price and the top on this and other river markets, of course, the bulk of the lambs offered coming from California, a few scattered Idaho shipments, and today I sold for Mr. Waino Spencer of Boise, Idaho, four double decks of good Idaho lambs at \$12.50.

drawbacks, but whatever our final estimation of its value, either to the parents or the children, the fact remains that it is out of date.

With changing social and economic conditions such single hearted devotion has become absurd and probably harmful.

To the mother of today, bringing up a family is but one interest, although an important one, among others.

The passing of the home as a productive unit, knowledge of the newer psychology of family relationships have brought her to a stand from which she could not, if she would, turn back to the old simple picture.

The mother of today is successful through the integration of her own personality and through her understanding of the importance of relative values in her own life and in the lives of her children.

Her solutions are not final, they cannot be in a world so quickly changing.

She works not from an inherited pattern of ideals, but from her formulation of what seems to be important in a progressive adjustment to realities.

**OLD SOLDIERS EXEMPT**

SALEM, Ore., June 17 (AP)—An act of the 1929 legislature exempting old soldiers from certain forms of taxation is operative when the soldier is buying land on contract and is not yet in possession of a deed, says an opinion by Attorney General Van Winkle to Fred A. Miller, district attorney for Clackamas county.

To be allowed the exemption for 1929 the opinion holds it is not necessary for the old soldier or sailor to have filed his claim on or before April 1 of that year.
