

# PERKINS NEEDS MONEY!

## Forty Used Cars Must Be Sold By the Fourth of July!

SALE STARTS SATURDAY, JUNE 28---ENDS JULY 4th

### A FRANK STATEMENT

Our profit and loss statement discloses that we have picked the wrong year to go into an expansion program. It has never been the policy of this company to borrow any great amount of money and rather than go to the bankers at this time we are going to raise money by closing out our entire stock of used cars — they all must go between now and July 4th.

### This Plan Is Your Opportunity

This assortment of 40 cars represents the best values we have ever offered. Due to the low mark up on new Ford cars, you know that we do not take in trade anything but saleable used cars—and we must own them cheaper than any other dealer.

Now we offer these cars to the people of this territory at far below the allowance price and re-conditioning cost. And to assure ourselves that they will be in the cash register by the 4th day of July, we will reduce the price daily on each car—
