GLOVES CONTRAST BY DAY AND NIGHT

PARIS (AP)—Gloves have upset the style apparel by making rules of their own for color.

Paris is wearing them lighter than the costume for daytime, on the whole, with evening gloves generally a shade deeper than the dress, or contrasting boldly.

The light gloves for day wear are a result of the vogue for touches of white on dresses, hats and accessories.

NEW BELTS BRAIDED FOR SPORT WEAR

PARIS (AP)—Belts which are formerly braids of material are new to accompany the tweed skirt or sport dress of heavy silk or wool.

Braided suede belts also are in vogue. The same braid reappears as a hat-band on a brimmed hat of color to match the sports dress.

The state by reason of the present deficit in its funds to meet authorized obligations, is now paying interest upon moneys borrowed from other funds or from outside sources.

MOUNTED PIANO TEACHER RECALLS PIONEER HIGGERS

COUNCIL BLUFFS, Iowa (AP)—Mar Bouricuts recalls the days when he fought through blizzards and a temperature of 20 below zero to give music lessons in pioneer farm parlors of western Iowa.

Bouricuts recently celebrated the forty-fifth anniversary of his career as a circuit-riding piano teacher.

He made trips, in 1885, to the homes of 41 widely-scattered pupils twice a week, traveling on horseback.

"Substantially all of the revenues accruing to these institutions from their annual millage tax levies and other sources are now absorbed in their operating activities," Koser said. "Consequently it follows the needed buildings at these institutions during the next 10 years must be provided for from other sources than their millage levies."

"In 1914 there were about 2600 students registered in the agricultural college, the university and the normal schools. These registrations numbered approximately 5600 in 1929. During the past 10-year period the student registration for resident instruction at these institutions have risen to approximately 8000 for the year 1929, or about 43 per cent increase over the year 1920."

"The percentage increase in registration during the past few years has not been as great each year over the preceding year as during a similar period of some few years ago. There seems to be no question, however, that there must be new buildings and equipment for these institutions to meet the needs of their ever increasing registrations."

Large Parade Planned Saturday which is the last day of the convention, will also be a day of activity for the general public. The great parade which will be miles in length will vie with the big gold rush program, and a boxing match of Pacific coast interest.

Many features, including the plans for local color which are now being worked out, will add greatly to the occasion and state officers of the Legion declared that Baker's program for the three days will outdo anything yet staged in Oregon.
