### ARCHBISHOP IS OPPOSED TO DEATH PENALTY

LONDON, July 10 (AP)—The most Rev. William Temple, archbishop of York, is one of the few witnesses who has come so far before the royal commission on punishment to favor the abolition of the death penalty.

Dr. Temple left the Lambeth conference of bishops for an hour to give his evidence.

"I dissent from the view that punishment should be regarded as regulated vengeance," the archbishop stated. "From a Christian viewpoint, vengeance is entirely illegitimate. The infliction of death or outlawry would, perhaps, be justified in the case of a man who was wholly evil but no person was ever thus."

The main argument advanced by the archbishop from a sociological viewpoint was that the behavior of a community as a whole was so largely imitative that the reaction to the taking of life by the state tended to a lower general conception of the sanctity of human life.

### No Jobs Available At Wenatchee Dam

WENATCHEE, Wash., July 10 (AP)—False reports that many jobs are available at the Wenatchee dam construction project, has resulted in hundreds of men from all parts of the northwest being disappointed here, R. E. McGrew, superintendent, said yesterday.

He asked that newspapers inform the public that no men are being hired. Some have driven all the way from Seattle and Portland for jobs and as many as 500 have applied in one day, he said.

### DUDE TRAVELLERS

### By Oscar Hitt Expecting Word From Sir Arthur In Near Future

LONDON, July 10 (AP)—A message from the spirit of Sir Arthur Conan Doyle as his body is lowered into the grave Friday was predicted yesterday by some London spiritualist circles.

The novelist's family, however, did not encourage this forecast of the moment when they will hear from their deceased relative. Although they expressed continued confidence "he will get in touch with them almost immediately."

The author's son, Adrian, told the Daily Sketch: "My mother is confident that he will reveal himself shortly. This wonderful faith buoyed her. She is beautifully radiant. I am certain that if she did not believe in spiritualism, she would not have survived Sir Arthur's death an hour."

"A seance may be necessary to establish the communication. When we do hear from him the communication will be treated as private unless, which is quite possible, he wishes to give the message to the world, in which case whatever he says will be published."

The son denied current reports a secret code had been arranged, stating that: "We should know very quickly if any spirits were impersonating my father." He intimated his mother would rely upon her knowledge of Sir Arthur's little quirks of nature through her years of intimacy with him to guard her against perpetuation of a spirit fraud.

HAIRD WORKING EQUIPOSE TO RETIRE UNTIL AUGUST

NEW YORK (AP)—Although Harry Payne Whitney's Equipose appears to have thrived on a long campaign, the colt will now receive a rest.

The horse was chosen as the best to get the lead of the two-year-old division in top shape for important engagements at Saratoga in August.

The son of Pennant has been turning back the best of the crop of juveniles as they came, including the great Vander Pool and the Ranocosa Stable's Polydorus.

Asked to carry 130 pounds, he did it with ease and looks to be the Whittens of 1930 unless some better colt that has not been uncovered makes an appearance.

MANAGER SAYS "HOLD-OUT" DIDN'T SEND MANUSH AWAY

ST. LOUIS (AP)—Bill Kullifer, manager of the St. Louis Browns, denies that "hold-outs" had any bearing on his recent famous "two for one trade."

He manager says that the lack of puns in the outfield prompted him to send Helme Manush and Alvin Crowder to Washington in exchange for Goose Goslin, and that the fact that Manush was a hold-out this spring had, no bearing on the matter.

YACHT RACE TO HONOLULU

### Jeff Dickson, Young American, Is "Tex Rickard" of European Boxing

PARIS (AP)—Practically controlling boxing in Paris, London and Berlin, Jefferson Dickson, young American promoter, has come to be known as the "Tex Rickard of Europe."

"Jeff" as he is called by friends and about two million European fight fans, came to France from Memphis, Tenn., via the A. E. F.

Starting in a modest way in 1925, Dickson is the only promoter in Paris who has reached the "million franc net" class.

Success in Paris caused Jeff to look for other rings to conquer and in 1929 he decided to extend his activities to London and Berlin.

His next promotional venture in London, W. L. "Young" Stribling and Phil Scott for the heavyweight championship of Europe on July 28th, is regarded as likely to be a sell-out.

Dickson has been instrumental in discovering several young fighters in France, the most prominent being Emilio "Spider" Pladner, whom he nursed along the flyweight division.

The little brawler from Clermont-Ferrand, through successive victories over Izzy Schwartz and Frankie Genaro, has reached the pinnacle.

Recently Jeff ran foul of the International Boxing Union. A scheduled ten-round bout between Louis Jacobacci, who as Jack Walker, was mid-dweight champion of the American Navy, and Jo Pegazzano of Corsica, came to an abrupt ending in the third round, when Walker was hit low.

Dickson put on his semitonal bout, permitting Walker to recuperate and then sent him back into the ring again against Pegazzano for what he

### WHEAT FARMER OF NORTHWEST IS REASSURED

PENNINGTON, July 10 (AP)—Eugene Kelly, general manager of the North Pacific Grain Growers, Inc., said that wheat farmers of the northwest have no need of being apprehensive over the suggestion of the national farm board to cut acreage.

### Jackson County Begins Harvest Of Wheat, Oats

PORTLAND, July 10 (AP)—The United States department of agriculture, weather bureau, has issued its crop and weather report for the week ending July 8.

The report said:

"The week was moderately warm, with little cloudiness and no rain of consequence. Streams are falling, but water for irrigation is holding out better than expected."

"Cereals: Harvest of winter wheat and oats has begun in Jackson county, and will begin in parts of Umatilla and Morrow counties this week; by the 15th of July it should be general over the warmer wet districts. In some of the central counties wheat shows considerable effect of drought and some frost damage, but elsewhere it seems to be filling well. Corn is improving."

"Fruits: Picking of cherries is nearly complete in some of the earlier districts and is progressing in the Willamette valley; in the latter section there has been much cracking. Appricots are in market in the south. Fall fruits are sizing well."

"Meadows, Pastures and Ranges: Harvest of the second crop of alfalfa is under way in southern counties, while in some of the elevated districts the first cutting is in progress. Cutting of clover and vetch is well advanced. Drought has seriously affected wild meadows in some central and eastern counties. Domestic pastures in the Willamette valley and coast counties are still good, and there is generally abundant feed on mountain ranges."

"Live Stock: Shipping of lambs is proceeding rather slowly. Stock is generally in good condition."

"Miscellaneous: Shipping peas is under way, and shipping of new potatoes will begin in the Hermiston section this week. Melons are growing well. Tomatoes are ripening in the Willamette valley in some of the warmer localities. Flax is in bloom and looks well. Peppermint is promising."

### DEVELOP NEW INSTRUMENT TO MEASURE BREATHING

WASHINGTON (AP)—A new instrument called the flarimeter is being used to measure shortness of breath. The test is described as important in detecting heart disease.

The instrument measures both shortness of breath and vital capacity, or the volume of maximum breath expiration.

It is pointed out that after exercise when the breath is coming in short gulps, the flarimeter measurement shows no decrease in vital capacity while the special measuring device previously used to determine shortness of breath shows a reduction to as little as one-third normal rate.

Persons with normal heart muscles it is explained, should be able to make a forced expiration for 50 seconds before the irresistible impulse to breath stops the expiration.

The new instrument is small enough to be carried by physicians in making standard tests.

## THE PACE-SETTERS

KEEPING-UP-WITH-THE-JONESES is no mere vagary of the cartooner. It is an actual condition in every city, town, village and hamlet of this great country.

There is a Jones in every locality to set the pace. But the average Jones is not a rich man—far from it. He has a good job, he dresses well, he is a good talker and splendid company. Jones is always the gentleman, welcomed at business conventions, public dinners and social gatherings alike. Mrs. Jones is envied as a successful hostess. Every woman in her set, and out of it, seeks bids to her bridge parties and other social functions. Their home is cozy, tastefully furnished and provided with most of the modern conveniences.

"How do they do it?" ask the neighbors. "We have as much money as they. Socially we are their equals." But without seeming to try, without putting on any "dog," the Joneses set the pace just the same. They have learned from reading advertisements how to have many desirable things at little cost. They keep up to date on almost everything—just reading advertisements.

Keeping-up-with-the-Joneses is a comparatively easy matter—other things being equal. Read the advertisements regularly. Study them. Remember what you learn. Then, when you are in the market for anything, you will know, just as they do, what kind to buy. Soon you'll find yourself saving money, yet having more than you ever had. You'll find folks wondering how you do it. Oh, yes! It's fairly easy, if you make the most of your opportunities.
