Second Cutting Of Alfalfa Now On Over Valley

By Mrs. L. Z. Terrall
(Observer Correspondent)
UNION, Orc. (Special) — Farmers
for the valley are taking advantage
the good haying weather and are
shing through their second cutting
alfalfa. With many stacks in the
eld already from the first cutting of
falfa, the prospects of plenty of
ed for stock this coming winter
ema very good.

ems very good.

Mr. and Mrs. J. F. Hutchinson, Loune, Ted and Mary, Mr. and Mrs. Pred
fox and John Geertsen went to Walowa lake on Saturday returning Sunhay evening. They crowded in a lot
if swimming, liorseback riding, danctig and roller skating while away.
Mr. and Mrs. Del Irwin and family
pent several days camping on Cathrine creek last week. Several trande friends were in the party also
Mr. and Mrs. Joe Tobin stopped

Grands friends were in the party also Mr. and Mrs. Joe Tobin stopped over at the Henry Griggs home for a short visit late last week. Marguerite Jensen, who has been visiting at the Griggs home for sometime returned to Vancouver with the Tobins. Also Mrs. R. H. Roberts who has been visiting her sister. Mrs. Henry Griggs, accompanied them part way on her return trip to Alberts.

Fred and Harry West, who have been working their mining claims in the East Eagle, country for sometime left on Friday, for their respective homes in Portland and Stockton, Cal.

J. R. Jones returned from his intringic claim in the Thunder Mountain country of Idaho on Friday.

ing claim in the Thunder Mountain country of Idaho on Priday.

Mra. Almira Kennedy enjoyed a vistle last week from an old friend, Mrs. S. Thompson, whom she had not seen for 19 years. Mrs. Thompson and two sons drove over from Wallowa for a few days visit. Later in the week Mrs. Kennedy's brother, J. H. Barker and family and his father-in-law, Mr. Schilly of Buell, Idaho, visited her. Mr. and Mrs. Charles Edgerton, of San Pedro, Cal., who had been visiting his relatives in Washington, stopped for a few days visit with Mr. and Mrs. Charlese Carever last week. Mrs. Edgerton is Mrs. Craver's sister. They left Sunday for their home.

Health Talks

Next to Louis Pasteur, the brightest mame in the history of bacteriology, that branch of modern science which deals with germs and germ life, is that of Robert Koch—the discoverer of the tubercie bacillus, the promulgator of what in bacteriology are known as Koch's Postulates.

To the labor and ingenuity of Robert Koch we owe the discovery of the tubercie bacillus, the germ responsible for the great "white plague." the germ of tubercie bacillus, the germ responsible for the great "white plague." the germ of tubercie bacillus are greated by the force Koch we owe the discovery of the tubercie bacillus, the germ responsible for the great "white plague." the germ of tubercies and sought the then unknown agent of consumption, but none had successfully demonstrated its presence. Their failure, in part at least, is to be accounted for by the difficulties in artificially cultivating the tubercie bacillus.

This germ, which belongs to a special class known as the acid fast bacilli, will grow only under the most exacting conditions, and at that only very slowly.

Whereas most other germs will show a marked growth in from 18 to 24 hours, tuberculosis germs require weeks for appreciable growth and multiplication.

The isolation and identification of the ger mof tuberculosis marks one of the epochs in the history of medicine. Previous to the discovery of the tubercle bacillus, we were as much in the dark about the White Plague as we are today about the cause of camer. With the knowledge of the germ responsible for tuberculosis however, we have been able to study the discovered the tubercle bacillus, and through added knowledge, to combat it more effectively.

In the 50 years since Robert Roch iscovered the tuberole bacillus, eaths from tuberculous have been succeed to less than one-fifth of their

Forest Service To Collect Data

PORTLAND (Special) — The U. S. forcet service has been asked by the president's public lands commission to gather certain data on Oregon and Washington for its consideration this fall, is the announcement of C. J. Buck, regional forester, Portland.

The work of the commission is of considerable interest to Gregon and Washington, since about 13,000,003 acres of public domain lie in Oregon and some 500,009 acres in Washington.

and some 200,009 acres in Washington.

Oregon's representative on the president's commission is E. C. Van Petten of Ontario, Ore., while Washington's is R. K. Tiffany, state supervisor of hydraulics, of Olympia, Wash. The commission at its June meeting in Washington. D. C. requested Chief Forester R. Y. Stuart to have brought together for the consideration of the commission at its fall meeting data relating to:

1. The total acreage of timberiand within the public domain which may be added to the national forests in the interest of efficient administration and on account of the timber and watershed values.

2. The total acreage of the public domain, irrespective of the cover, the primary value of which is watershed protection, which may be added to the national forests, and which can be efficiently administered in compection with existing national forest units.

3. Lands whose primary value is

PORTLAND, July 29 (#)—Confirmation of the edict of the government excluding Russian pulp wood from the United States until it has been proven it is not the product of convict labor, has been received by the office of the collector of customs here. Customs collectors in every jort of the country have been so instructed by the treasury department.

refricted by the treasury department.

This department has placed
squarely up to the Soviet government the burden of proof in establiching that pulp wood designed for
United States trade must have been
produced by free labor.

American lumbermen thus have
won the first victory in their fight
against growing Soviet competition.

L. h. Hartman, director of the
Portland chamber of commerce, in
charge of maritime commerce, said
today the order of the treasury department will undoubtedly result in
a test case to be tried in court as
soon as the first Soviet cargo is excluded.

Hartman said he understands no
