The Market Place of Union and Wallowa Counties

## Sport Slants

**By Alan J. Gould**  
 (Associated Press Sports Editor)  
 Everyone will be all right if the American polo team survive the test matches for this year's international "Big Four." Today now looks away and with it has developed more realistic riding, vigorous jumping.

After the second test match, the cavalry has included Captain Tommy Nicholson, still slightly bothered by a muscle injury, the result of a track jump a week ago, G. H. (Pete) Bostwick, playing despite injury, young Earl A. H. Hoppling, victim of a hard, bruising fall. Nicholson obviously has hesitated to take matters easily, play only enough to keep in condition and run his race.

The American captain can best describe the time of the 1929 to coaching, developing teamwork and weighing the performance of team candidates. The only question about his place in the Big Four is whether he will choose to ride at No. 2 (instead of No. 1).

The others, however, must battle for positions. Hence the bumps and falls may be expected to continue in this hard-riding, spectacular sport.

It has been the case since Webber and Devereux Milburn retired, the polo position seemingly what difficult to fill will be No. 1 and back.

Eric Pedley has yet to be thorough-

ly tested as No. 1 but he looks as though he is well equipped for this arduous position. Eric Bostwick, the gentleman jockey, has the riding ability, but neither the weight nor experience to make an international claim this year. He is only 35 and will be 36, perhaps, by 1931. Harold E. Talbot, 35, has played like the best No. 1 on the squad.

Elmer Bostwick Jr., next to Nicholson, seems the nearest certainty among the candidates to make the team. He is a finely-equipped player. He can play a first class No. 1. He has looked good at No. 2 in front of Nicholson and he plays a hard-up back. If either Bostwick, Talbot or Bostwick Jr. is chosen, the team will be a finely-equipped player. He can play a first class No. 1. He has looked good at No. 2 in front of Nicholson and he plays a hard-up back. If either Bostwick, Talbot or Bostwick Jr. is chosen, the team will be a finely-equipped player.

The best guesses now are that either one of the following two combinations will take the field against England in September:

1—Pedley, Guest, Nicholson and Bostwick.

2—Bostwick, Hoppling, Nicholson and Guest.

Proceeding will be shattered if either Bostwick or Pedley or both make the Big Four, which hereafter in a half-century of polo competition has always been picked from the exclusive Meadow Brook circle of Long Island.

Guest for is the three-year old champion of the American turf for 1929 without dispute, but the bay colt of Sir Galahad III won't satisfy the old timers on the score of greatness.

## Bathing-Suit Beach Lunches In Vogue

**By Max McManis**  
 (Associated Press Staff Writer)  
 WASHINGTON (AP)—South American women of the capital prefer to dine in style in hot weather.

Wives and daughters of diplomats go to nearby beaches to spend the entire day in one piece jewelry. They divide their time between the water and the beach. Most of them are good swimmers.

There is little attempt at striking attire through most of them buy their clothes in Buenos Aires, noted for its smart costumes.

Atropolis Beach and country club is the favorite resort of the diplomatic crowd. They motor over early in the morning and do not return until after sunset.

The big cars are driven by chauffeurs and the girls of the legations are carefully chaperoned for their safety.

Mornings are spent swimming and reclining on the beach under gay umbrellas listening to the radio on the edge of the water. Bathing suits are worn at the picnic lunches served in a private room of the club beach parties.

Fresco Thompson, Philly second baseman who has been ridden all season by foul is certain to be traded next season.

**ALABAMA STAR GLITTERS AS BIG LEAGUE PROSPECT**  
 BIRMINGHAM, Ala. (AP)—Another Alabama collegian promises to join the New York Yankees as a big league baseball player.

He is Bill Benhoff, Birmingham second baseman, playing his first year as a Southern association regular and who got his early baseball training at Howard college here.

Benhoff, signed by the Barons and farmed out to the Southeastern league last year was played on the roster as a utility man when the 1929 season opened.

His chance came at the expense of Juggy Black, regular keystone man, who was injured after the season got under way. Black has recovered but stays on the bench while Bill leads the team in hitting.

**Champy-Beyer Turn Pro**  
 SAN FRANCISCO (AP)—Frankie Tucker, who as a member of the San Francisco Olympic club team won the 1926 national amateur light heavyweight boxing championship, has turned professional. He will be managed by Johnny Frazer, top-notch lightweight 20 years ago.

Almost 85 per cent of Washington farmers own their farms.

## WANTED

**MAN AND WIFE** want work on ranch. Permanent. T. J. Burke, 253 W. 8-7-5 1p

**JOHNSTON LIKELY TO BE**  
 EVEN IN CASUAL TENNIS  
 SAN FRANCISCO (AP)—William "Little Bill" Johnston, former national singles tennis champion and one of the great stars in the history of the game, probably never will lift a racket again, even in an exhibition match.

He suffered a nervous breakdown last spring and for several months fought a battle for his life.

At the height of his tennis career, Johnston teamed up with Bill Tilden to return the Davis Cup to America after it had been won by Australia for seven successive years.

**Its Greater Mileage is Due to its Dynamic Power**

The several extra miles you get from each gallon of VELTEX GASOLINE is attributable to the thousands of extra power units each tankful of this high grade gasoline contains.

# VELTEX GASOLINE

Due to the high grade gasoline crude from which VELTEX GASOLINE comes—and the very special refinery treatment thru which it is processed—a much higher percentage of it sprays into the motor in the form of a true, combustible vapor.

This means that practically all of this good gasoline is converted into applied power, whereas less expertly treated gasolines only partially explode and deliver only a small part of their power.

That's why your car performs so brilliantly and so much better with VELTEX than it will on other gasolines at its price.
