

Menus Of The Day

By Mrs. Alexander George
FRUIT ICE REFRESHING DESSERT
Dinner Menu
Stuffed Eggs Creamed Potatoes
Corn on the Cob
Bread Fresh Apple Sauce
Sliced Cucumber Salad
Fruit Ice
Chocolate Loaf Cake, Frosted
Coffee or Iced Tea

Fresh Apple Sauce
3 cups sliced apples
2 cups water
1 2-cup sugar
1/2 teaspoon cinnamon
Mix apples and water and cook in covered pan 10 minutes or until the apples are soft. Add sugar and boil without lid for four minutes. Pour into serving dish. Sprinkle with cinnamon. Cool and chill.

3 oranges (large)
3 lemons (large)
3 bananas
3 cups water
3 egg whites, stiffly beaten
Squeeze Juice from oranges and lemons. Boil the sugar and water 2 minutes. Cool. Mash bananas. Combine fruit juices, mashed bananas and syrup. Pour into sterilized freezer and turn crank until mixture begins to freeze. Add beaten egg whites. Freeze until stiff.

Chocolate Loaf Cake
1-3 cup fat
1 cup light brown sugar
2 eggs
2 squares chocolate, melted
2-3 cup thick sour milk
1 teaspoon vanilla
1/2 cup salt
2 cup flour
1 teaspoon soda
Cream the fat and sugar. Add rest of ingredients and beat 3 minutes. Pour into loaf pan which has been fitted with waxed paper. Bake 40 minutes in moderately slow oven. Cool and frost.

Fudge Frosting
1 cup light brown sugar
1 cup sugar

2 tablespoons butter
2-3 cup milk
1 teaspoon vanilla
Mix the sugars, butter and milk. Cook over moderate fire, stirring frequently until soft ball forms when a portion is slowly poured into pan of cold water. Set frosting aside for 20 minutes. Add vanilla and beat until thick and creamy. Frost top and sides of the cake.

Beach Party Menu
Rolls Stuffed with Ham Pickles
Baked Beans Chili Sauce
Apple Pie Coffee

Never boil more than four cups of jelly at a time. It is better to have several kettles boiling at the same time.

SALEM, Ore., Aug. 7 (AP)—Patients at the state tuberculosis hospital were entertained last night by the Salem band. Tonight the band will play at the state institution for the feeble-minded.
Dib Williams, now playing short-stop for the Athletics, played last season with Little Rock.

RIVETS MAKE THE LOCOMOTIVE STEAM-TIGHT

The TORRID ZONE STEEL FURNACE is gas-tight and dust-tight because it is riveted

The smell of coal gas is unknown in homes heated by the steel Torrid Zone. Winter after winter, without replacement or repair, this marvelous furnace keeps delivering clean, healthful, luxurious heat.

For just as the locomotive boiler is made of steel, riveted and calked for complete safety—so the Torrid Zone is made gas, smoke and dust-tight.

This is the wonderful improvement this furnace can mean in your home next winter—a more healthful atmosphere and greater cleanliness. No more poisonous gases—no smoke or dust to soil walls and draperies. Even the cellar will be cleaner than ever before. Every part of the Torrid Zone is as tight as a drum.

Two other essentials to healthful heating—humidity and air circulation (or ventilation)—obtainable only with warm air systems are yours with the Lennox Torrid Zone. In the Torrid Zone, the humidifier has twice the evaporating area inside the casing of ordinary water pans. Rapid evaporation is also necessary, so it is placed directly above the firing doors where it gets the most heat possible. Proper air circulation is guaranteed, when an authorized Lennox Furnace man installs it according to the Standard Code. This is the most desirable heating plant that science has yet devised.

Torrid Zone design means more heat from your favorite fuel
Pick your favorite fuel—hard coal, soft coal, coke, lignite, wood, gas or oil—and this furnace will save you money in

burning it. The Torrid Zone produces from 10% to 20% more heat from the fuel than other furnaces do, hence will heat your house with less fuel than any other furnace will consume. Oversize heating surface radiates the greatest possible amount of heat from the smoke before it escapes up the chimney. Efficient, economical operation and great permanence have won thousands of warm friends for the Torrid Zone.

Come see this marvelous heating unit today—or phone or write. We want to show you the sturdy locomotive grates, the "lazy" shaker and many other features that would need pages if explained in this paper. Indeed, we have a mighty interesting book about it to which you are welcome. Plans and estimates quickly furnished for installations in new or old homes and other buildings of all types and sizes. Factory engineering service and blueprints obtained for special problems. Made by the LENNOX FURNACE COMPANY, Syracuse, New York—Marshalltown, Iowa—Toronto, Canada.

LENNOX Torrid Zone STEEL FURNACES

The Standard Code for installing a warm air heater, adopted by the National Warm Air Heating Association and written by its research engineers, is our code.
