## ACTIVE WEEK FOR POLITICS IN POLITICS

(Continued from Page One)

George W. Norris, who left the republican fold to support Smith in the campaign. However, farm, relief and prohibition are numbered among the issues in the republican contest there. Norris is opposed by W. W. Stebbin, state treasurer, and Aaron Lee. The Stebbin campaign has been directed at Norris for failure to cooperate with the administration. The veteran senator carried to the voters a claim for vindication of his party, asserting "events that have transpired have cleared me of criticism."

The democratic primary in Nebraska offers a candidate who deserted the ranks of that party to support Hoover, in 1928, as a result of which he was opposed by former Senator, Gilbert M. Hitchcock.

Robinson is Active

In Arkansas, Senator Joseph T. Robinson, the democratic leader, has conducted a strenuous campaign against Rom. Campbell, Little Rock lawyer. Robinson has championed the cause of national prohibition in vigorous fashion in a manner that has led to general belief he sought to counteract any effect of his being named the national ticket with Smith.

Because of little opposition to republican candidates interest in Ohio has centered on the democratic senatorial contest in which prohibition has been the leading issue. Tariff, farm relief and present economic conditions have contributed to campaign topics.

Robert J. Bulkley, of Cleveland, a former republican and avowed dry, has repudiated and George S. Myers of Cleveland, favors modification. The other candidates in the democratic senate race are W. W. Duffin, for many years leader of his party in the state; former Representative John Mcweeney, of Wooster, and Charles V. Traus, once state director of agriculture.

No primary opposition faces Senator Roscoe C. McCulloch, the republican incumbent was a dry.

Ending a whirlwind two-weeks campaign of bitter personalities, Oklahoma democrats will go to the runoff primary polls tomorrow to nominate a governor and United States senator.

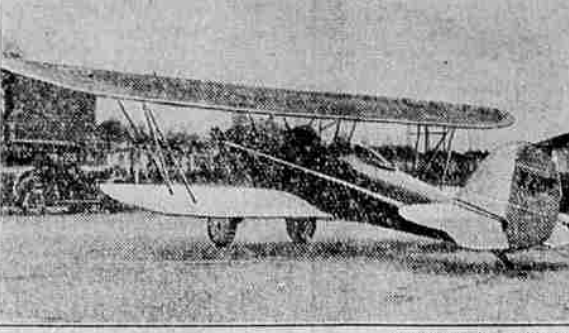

For their gubernatorial nominee, heretofore always elected, they must choose between Frank Buttram, Oklahoma City oil millionaire and colorful William Henry (Alfalfa) Bill Murray of Tishomingo constitutional author just returned from an ill-fated Bolivian colonization attempt, who had a 65,000 vote plurality in the first primary July 29.

Charles J. Wrightman, of Tulsa, also made wealthy by petroleum's favors, and blind Thomas P. Gore, for 13 years United States senator, will contest for the democratic senatorial nomination. They finished the first primary on virtually even terms. The winner faces a stiff general election contest against Senator W. B. Pines, republican and an independent field including J. C. (Jack) Walton, once governor in 1923 when he ordered martial law to quell Ku Klux Klan disturbances.

### ROBBED BY FILIPINOS

PORTLAND, Aug. 11 (AP)—Leslie Yeat complained to police today that after being rudely awakened from sleep on the grass in Irving park yesterday, he found himself surrounded by Filipinos. ### KEEP BABIES COOL

WASHINGTON, Aug. 11 (AP)—No nightgown, no socks, no shoes, no slip, no shirt for baby this hot weather.

That's today's advice from the United States children's bureau.

The 1930 August costume, which for quite a good many adults has slipped down to "shirts-n-shorts," should omit the shirt for the infant.

"The fewer clothes he wears, the better," the bureau set forth in its official opinion.

### YALE REQUEST DENIED

SEATTLE, Aug. 11 (AP)—Former Northwest Prohibition Administrator Roy Leyle and his three former aides, charged with conspiring with the Olmsted and other notorious bootleggers to accept bribes, were denied trial without jury by Federal Judge Frank H. Norcross today.

The visiting Nevada jurist declined to accept responsibility for determining the case without aid of a jury.

and at no time did more than .04 of an inch fall in any one day. During July the total moisture was .03 of an inch, separated into three rains, each barely measurable.

Accompanying the rain over the weekend was cloudy weather and lower maximum temperatures. The mercury was under 80 above both Saturday and Sunday, although the minimum remains in the 60s.

The rain was generally welcomed through this section, the only disadvantage being a short curtailment in some harvest operations, and these were not serious.

### DEMPSEY IN RICH CLOVER REFEREEING COAST BOUTS

LOS ANGELES (AP)—While the fistie world has been guessing whether Jack Dempsey would attempt a comeback, the former heavyweight champion has been making financial hay as a high priced referee.

### GRANDEA HAS WON IN SOUTHERN LEAGUE

### MULES CARRY CARS TO MOUNTAIN CITY

BUCARAMANGA, Colombia (AP)—Automobiles are packed on mule back for this mountain-bound city.

### HUSBAND LIKE OYSTERS? THEN HERE'S GOOD NEWS

BALTIMORE (AP)—Housewives whose husbands are oyster lovers may be cheered by the news brought by Dr. R. V. Truitt, head of the Chesapeake biological laboratory.

Oysters will be unusually fat and in prime condition at the start of the tonging season in September and are two months ahead of normal development.

The heat wave is credited with pushing the bivalves faster than their wont.

Her debutante daughter, Laura, was gowned in white lace and wore a scarf of black lace.

### PLAY GAME ALL SUMMER, BUT IN THE MOVIES

LOS ANGELES (AP)—Following Harold G. Grange's example, a quarter of University of Southern California grid stars are conditioning themselves for the Trojan call this fall, but not as ice men.

Oh, no! The four backfield acres who are expected to play an important part in Coach Howard Harding Jones' offense are banking under the glare of the Kleig lights of Hollywood's movie lots.

Marshall Huffield, quarterback; Ernie Pinchert and Marger Aspit, halfbacks, and Don Moses, fullback, all of whom are expected to be more or less permanent fixtures in the Trojan eleven, have been working together in a football picture.

With them are Harry Edelson and Russ Saunders, now alumni of S. C. grid game, one season remote. Their work allows them considerable practice.

rise five and six cents. It would decrease a margin between Liverpool and the domestic market, he said.

SALEM, Ore., Aug. 11 (AP)—Keen interest in the Oregon flax industry, which, he said, is entitled to the same consideration from the federal farm board as other crops when operated on a cooperative basis, was shown by Alexander Legge, chairman of the board, who was a guest yesterday for several hours at the farm home of Senator Charles L. McNary.

Legge recalled that Col. W. B. Barriman, superintendent of the industry for the state, appeared before the board in connection with a proposed loan for flax producers.

ern Illinois towns to be on the lookout for the plane. It was also indicated that another appeal would be made to Governor Sampson for troops.

The governor has refused to send troops, but he believed that detectives could do more to break up violence than could troops.

Mines Closed April 1

The mines in this section were closed April 1 because of disagreements over wages and working conditions. While a vote was announced as overwhelmingly in favor of a strike, it was never authorized by the United Mine Workers of America. In recent weeks most of the mines have been reopened and announced they were producing at almost normal rate of production.

Dynamite and other forms of violence followed and 98 men have been enjoined in federal court against interference with the mines.

### ORDERS INVESTIGATION

WASHINGTON, Aug. 11 (AP)—The department of commerce today ordered an immediate investigation after receiving reports that an airplane had been used to bomb coal mines near Providence and Clay City in Kentucky.

Clarence M. Young, assistant secretary of commerce for aeronautics, said the pilot of the plane and his helpers had violated federal statutes, not once, but several times.

### SEEKING PLANE

MARTIN, Ill., Aug. 11 (AP)—Southern Illinois authorities were asked today to find an airplane which dropped bombs near non-union mines in Kentucky. A message from an official of the coal company to chief of Police Herbert Ramsey of Marion said the plane carried government license number 5088.

## Heat Wave Breaks Over The Nation

CHICAGO, Aug. 11 (AP)—It finally cooled off.

After weeks and weeks of sweltering, stifling heat, the nation put its coat back on, laid aside its fan, breathed deeply and smiled once more.

Weekend showers and cooler breezes brought temperature drops of 10 and even 20 degrees over most of the country. Although in most instances precipitation was not heavy enough to bring the drought-stricken crops out of danger, at least no more damage was done.

Only in the southern tier of states were there temperature readings yesterday approximating those of a few days ago.
