WHY CHEAP BEEF!

We shall not insult your intelligence by telling you something other than what you already know. Prices of livestock have steadily declined. Seven weeks ago we were paying \$11.15 per hundred, live weight, to Grande Ronde Valley farmers for baby beef. Today we are paying \$6.00 per hundred for the same quality. We are not instrumental in making these conditions, we are obliged to follow the market. Margin of profits were less seven weeks ago than today on the prevailing low prices of meats. Who brought low prices, conditions or individuals?
