Blond Phil Cook, Six-Footer, Takes Any Role In His Own Show

NEW YORK (AP)—Six feet tall, and a good looking blond for a male—that is Phil Cook, radio's one-man show.

He sings, he plays, he philosophizes, he cracks jokes and he portrays a dozen characters, all in an effort to produce a pleasant 15 minutes around the loudspeaker.

He is just about everything necessary to put across radio entertainment, including his own sound effects such as turning his voice into a ferry boat whistle.

Two NBC-WJZ programs a day, that in the morning broadcast twice to fit two time zones, make up a busy 2 hours for the man who writes his own continuity and music.

The programs, while basically similar, sidetrack duplication. Even the evening period, which goes coast to coast, does not sound at all like the one in the morning.

Calling upon about all of the broadcaster's tricks of trade, Phil must literally "step on the gas" to keep interest from lagging. He even calls upon the news of the day to furnish the lyrics for part of the musical entertainment.

His guitar, which is crossed with a ukelele, is his main standby. At the tip of his tongue are a dozen characters, from the negro philosopher "Buck" to a coy young miss. Many of these he puts together in a "comic strip" portrayal of the happenings in a small town summer resort hotel.

Coldwater, Mich., furnished the site for the birthplace of this versatile artist, but East Orange, N. J., rates as his home town, for it was there that he was educated.

Phil is married, and has been for 15 years. He met his wife while in grammar school. Their daughter is a little more than a year old. She is named Phyllis, because it had been planned to call the baby Phil, jr., if it had been a boy.

Cook started out musically as a violinist, but his first salary check was that of a commercial artist. On the side he did some writing, including musical comedies, three of which hit Broadway.

He took on radio, he said, as a surprise for his family. It heard of him first as a ukelele player. Once he almost quit because he didn't think there was enough work to do. He has changed his mind since.

His wife is his cashier. He draws only enough from her to pay for lunches, carfare and cigarets. He is saving his money so that he can retire and paint pictures.

Going back to the program he writes himself by slow-motion typing with a finger or two, he has made the boast that he has never sung a song on the air that he did not compose himself.

Phil sits down when he broadcasts, and even grins at his own jokes.

Cunha's Story Supports Alibi Of Tom Mooney

SAN FRANCISCO, Aug. 20 (AP)—Testimony of Bernard J. Dunn, surprise defense witness supporting the alibi of Thomas Mooney, remained unshaken under the attacks of state's attorneys Tuesday during the supreme court hearing on the pardon application of Warren K. Billings, serving a life term with Mooney for the 1916 Preparedness parade bombing.

Cross examined by Fred L. Berry and Ed Cunha, deputy district attorneys during the bombing trials, Dunn repeated the story told the court yesterday. Mooney and his wife were atop the Eilers building more than a mile from the explosion scene from 1:45 p. m. until 2:10 o'clock the day of the parade.

The explosion occurred at 2:06 p. m. Prosecution witnesses identified Mooney and Billings as the men who placed a suitcase, presumably containing a bomb, at Steuart and Market streets a few minutets before 2 o'clock. Other witnesses against the men testified to seeing Mooney drive away from the front of a building at 721 Market street at approximately the same time.

Cunha's efforts to gain contradictory admissions from the witness were unsuccessful, Dunn repeating in substance his previous testimony.

Dunn insisted he had told Cunha of Mooney's presence on the building; that he had apprised the prosecutor of the time element relating to the incident and denied Cunha's inference he had in effect offered to aid the prosecutor in convicting Mooney.

Dunn was followed to the stand by state Senator Edgar Hurley whom Billings told the justices at Folsom prison last Thursday, had hired him to carry a suitcase of dynamite to Sacramento in 1913 presumably for use in bombing electric towers.

Hurley, former electrical union labor leader, emphatically denied Billings' story. The legislator said he was in Denver, at the time Billings said Hurley employed him. Hurley said he was in Denver from Aug. 31 until Sept. 30, 1913, attending an international convention of the Brotherhood of Electrical Workers.

Billings said Hurley hired him Sept. 11 that year. The senator said Billings had either lied to the court or it was a case of mistaken identity.

WIDOW SLAIN; CHECK BOOK PROVIDES CLUE

CARSON CITY, Mich., Aug. 20 (AP)—A well to do 63-year-old widow was shot to death late yesterday or last night as she sat in her farm home five miles west of here, an open check book on a table in front of her and a fountain pen in her hand.

State police and county officers, who were called to the scene after the body of the woman, Mrs. Dora Laree, was found by her niece, Mrs. Beatrice Miller, who lives nearby, were without a clue as to the identity or motive of the killer.

State police and sheriff's officers started search today for two unidentified youths for questioning concerning the killing. A farmer living near the Laree home said that his machine was forced from the road near the Laree farm about the time the killing is thought to have occurred by an automobile occupied by two young men.

State police reported a stub in the check book indicated Mrs. Laree had written a check for $200, dated Aug. 20. They refused to divulge the name of the person in whose favor the check was drawn.

NEWSPAPER TO OPERATE NEW BUFFALO STATION

BUFFALO, N. Y. (AP)—The new station of the Buffalo Evening News will go on the air September 1. Its call letters will be WBEN, 900 kilocycles or 333.1 meters.

The installation of the transmitter was authorized by the federal radio commission after the newspaper contended that a radio monopoly existed in Buffalo. W. Nelson Wilkinson, newspaper executive, will be director, and Ralph J. Kinsley, formerly of WBAL, Baltimore, will be chief engineer.

Power will be 1,000 watts, and full time operation is planned.

NETWORK BROADCASTING CREATES NEW PROFESSION

NEW YORK (AP)—Chain broadcasting has developed a new profession—that of production engineer.

The job of the production man is a sort of behind-the-scenes task, for it is he who stands between the broadcaster and listener. He is in full charge of every program broadcast. One of the important items under his guidance is the timing of a program, such as seeing that it fits exactly the period allotted to it on the air.

He has many other duties, which in a sense parallel that of the stage manager in the theatre.

115,000 VISIT CRATER LAKE

MEDFORD, Aug. 20 (AP) — More than 115,000 persons have visited Crater Lake national park this season, figures released today indicated.

McElroy's Dance Band Here Friday

Cole McElroy's Columbia Recording dance band, which is to play at the Happy Canyon dances this year at the Pendleton Round-Up, will be in La Grande and will give a dance at Zuber hall Friday evening. Selection of this city for giving one of his dances was particularly pleasing to Ray Bronson, of La Grande, who is with the orchestra. He is all primec for the occasion and expects to make his drum sticks do their stuff for his friends. "Ted" Mullen, popular entertainer, is with the orchestra.

Vandeleur Speaks To Laundry Force

With an illustrated chalk talk, John S. Vandeleur, of Boston, Mass., last night addressed members of the sales force of the Standard Laundry company. The services of Mr. Vandeleur were obtained by the management as part of its plan to stimulate greater interest and knowledge among its members in sales and promotion of laundry service, and to stress the requirements for successful salesmanship.

Mr. Vandeleur is regularly engaged as sales counsellor by laundry organizations throughout the New England states, and his years of experience as routeman for one of the largest laundries in the east, makes him particularly fitted for the work he is doing.

Stopping over on his way to Portland where he is to visit relatives, Mr. Vandeleur was greatly impressed with La Grande and spoke enthusiastically about its progressive appearance and stated that it looked more prosperous than a great many of the western cities he had visited on his trip.

Swimming Meet Is Held In La Grande

The edge of the Cyrstal Plunge swimming pool was lined with cars last night, one of the largest crowds to attend a swimming meet here. The competition in races and diving was between teams from the Crystal Plunge, Radium Springs and Cove pools.

Considerable interest was shown in the diving especially in the boys' events with a large number of contestants. During an interval a couple from Radium Springs demonstrated fancy and trick diving, and a tiny girl from Cove, who won applause from the crowd, did a plain dive and an egg dive from the board, and two dives from the middle platform of the tower. Competition was in 30-yard free style, 30-yard breast stroke for boys, 30-yard back stroke, diving and relay races.

Another meet will be held at the pool Labor day between La Grande and Pendleton.

H. D. KING ON BOARD YACHT

LONDON, Aug. 21 (AP)—Confirmation that Commander H. D. King, member of parliament, was aboard the wrecked yacht Islander was obtained by the central office of the conservative party this afternoon from the commodore's solicitors. The central office issued the following statement:

"We have heard from Commodore King's solicitors that he was on board the yacht Islander. His friends on the yacht, we understand, were Commander Searle of Berwick on Tweed, A. R. Bralley of Dunmow, Essex, and Captain Glazebrook of Bishop, Stortford. It also is believed one of Commodore King's daughters was on board. Mrs. King at present is on a holiday on the Isle of Wright."

(Except for Commodore King, none of those mentioned in this statement is a member of parliament).

miles up the Yangtse from the sea. However, the reds apparently were frightened away by foreign warships which were rushed to Hankow by Americans, British and Japanese governments.

Since then the communists have ravaged smaller places, avoiding cities where the national government has concentrated small bodies of troops withdrawn from Honana and Shantung province fronts where the government is seeking to stem the northern alliance rebellion.

Hampered by torrential rains, the civil war itself has lagged.

Although the issue still is undecided, the government apparently has the advantage. The rebels have made their stand recently on the border of Chihli province, where they were driven after evacuating Tsinan, on the opposite side of the Yellow river.

Fighting on the Haichow-Tungkwan railway front in Northern Honan continued unabated.

End Piles Quick
Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad circulation of the blood in the lower bowel. Cutting and external remedies can't do this—an internal medicine must be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, a specialist, succeeds, because it relieves this blood congestion and strengthens the affected parts. HEM-ROID is sold by druggists everywhere, and has such a wonderful record of success right in this city that Red Cross Drug Store says to every Pile sufferer, try HEM-ROID at my risk. It must end all Pile agony or you get your money back. —Adv.

RANKINS IN AIR ABOVE PORTLAND

tact. Another contact was made during the night.

Several changes were made in the plane before the second flight started. Chief of these were the installation of another 50 gallon gasoline tank and two radio sets.

In order to establish a new record, the brothers must remain in the air until the evening of Sept. 16.

Tennis Tourney Begins Friday At Union, Ore.

Eastern Oregon tennis fans are looking over their rackets, in anticipation of the annual district tournament that begins tomorrow morning. Four men of Seattle who have the reputation of being skilful tennis men, Norton and Nelson Robinson, Ken Duncan and Dick Cook, will be here to compete for the title cups and will add broader interest to the tournament which will probably have about 20 entrants according to Fred Fox, manager.

The most successful tournament ever held in Eastern Oregon took place last summer, and officials hope that this year's will be even more outstanding.

This is the second year the tournament has been held at Union; for two years before it was held in La Grande.

Worth Oswald, the winner of last year's meet in the three events—men's singles, doubles and mixed doubles, has not yet entered. Last year's fans competed against and witnessed the brilliant playing that has won for Oswald a place among 20 ranking players invited to play at Forest Hills this season.

Neither last year's singles champion, Miss Myrtle Ogle, of Bend, nor Miss Jeanne Bell, of Pendleton, champion of several former years, are expected to return, so that the odds favor Mrs. Fred Fox, of Union, runner-up for a number of years and always a player not easily defeated, or Miss Annie Stange, last year's runner-up, if she enters.

Jack Ahearn, champion of a few years ago from Walla Walla, will be among those in competition for the men's title. Several players are expected to arrive from Portland, according to their plans a few weeks ago. The usual delegation from Pendleton is hoped for, with Witheral, Boyer and Cook who participated last year.

There may also be competition in the women's doubles, for a team is organized in Union and another may enter from La Grande.

In the mixed doubles Jack Ahearn and Lois Nelson will compete again for the title, along with Mr. and Mrs. Fred Fox.

Drawing will be held this evening at the Union bank after 7:30, the deadline for entries. Playing will begin about 8 o'clock Friday morning on the Union tennis courts behind the Union hotel. Anyone wishing to view the matches is invited.
