**Takes Position**—Mrs. W. Williams of Salem who has been spending the summer at the home of her sister, Mrs. Julius Fisher on lower Cove, planned to leave for her home last Friday. However she was offered a position in the office of the Ford Motor Co. and has decided to remain in this part of eastern Oregon.

**Aid to Meet**—The Island City Ladies Aid is planning a meeting to be held next Thursday afternoon at the home of the president, Mrs. Garrett Blokland.

**Has Banana Tree**—When asked if she had any news, Ada Brenhears, daughter of Mr. and Mrs. Jay Brenhears of lower Cove very quickly and enthusiastically replied "My banana tree has a new leaf." And immediately we wanted to see that tree. When the Brenhears family returned from their sojourn in California last spring, Ada brought several unusual articles, one of them being a very small banana tree. Ada has given it the best of care and now it stands 15 to 18 inches tall and seems to be a very sturdy plant. We like our bananas baked like Beth Bailey McLean demonstrated, Ada.

**Preparing for School**—Miss Esther Blokland is making preparations for the opening of her school which comes on the first of September. Esther is to teach at Wolf creek this year. She was graduated from the Eastern Oregon Normal last June.

**Guests From Washington**—Mr. and Mrs. O. O. Shafer of Moss Chapel have been having some visitors this week and Mr. and Mrs. Lester Sletter of South Prairie, Wash. Mr. and Mrs. Sletter had been visiting Mrs. Sletter's brother at Flora and stopped off at Shafer's for a short stay. Mr. Sletter is a cousin of Mrs. Shafer.

**Visits**—Mrs. Wiley Gordon of Elgin has been visiting at the home of Mrs. Arthur Doty near Valeria school.

**Have Guests**—County Superintendent and Mrs. E. A. Sayre of La Grande had a number of guests this week, relatives of theirs who were called to this part of the state by the sudden death and funeral of H. P. Riggs at North Powder, last week. Mrs. Sayre had as her guests for dinner Wednesday of this week, Henry Riggs of Burns, Kan., and his numerous relatives in the Summerville neighborhood.

**Aid Meets**—After a long intermission the Summerville Ladies Aid society met last Thursday afternoon at the church with a good attendance of members present. Various matters of business were discussed including plans for a bazaar to be held early in the fall. Another meeting will be held next month at the home of Mrs. I. Littre.

**Has Infected Hand**—Roy Neiderer, elder son of Mr. and Mrs. Leo Neiderer of Dry Creek is having some difficulty at present with infection in one of his hands.

**At Coast**—Mrs. Irwin Moss and daughter, Janie of near Alice, are spending a few weeks at Portland and some of the Oregon beaches.

**Have Picnic**—The heavy shower plus wind and lightning on Monday evening did not keep a group of members of the Young People's class of the Baptist Sunday school of La Grande from having a delightful picnic at the Cove swimming pool. The supper was spread in the place arranged indoors for such emergencies, where it is warm, dry and comfy. Then the entire party enjoyed a dip in the pool. Those who went over to Cove were Rev. and Mrs. B. M. Godwin, H. R. Collard, teacher of the class, Mrs. Collard, Ruth and Jane, Mr. and Mrs. H. A. Fox and Glen, Mr. and Mrs. Sidney Happerrett, Enid Happerrett, Mr. and Mrs. A. M. Pflughaupt, H. P. Craven, Grace Headden, Miriam Miller, Mrs. J. W. Stotts, Alma and Myrtle Whitmer, Jay Anderson and Verle G. Ramm.

**From Portland**—Oetald Moss of Portland is in the valley making a visit at the home of his grandparents, Mr. and Mrs. Willis Moss of Moss Chapel neighborhood.

Fresh from the original vacuum pack... that's **HILLS BROS COFFEE**

No matter when or where you buy Hills Bros. Coffee it is as fresh as when it came from the roasters. By the vacuum-packing process, air, which destroys the flavor of coffee, is removed from the can and kept out. No air-tight can will keep coffee fresh. It is easy to open a can of Hills Bros. Coffee with the key.

Controlled Roasting gives Hills Bros. Coffee a flavor no other coffee has.

**Cattle**—Oregon cattle showed a reasonable decrease during July but are coming off the ranges in better shape than stockmen expected. Cattle are generally being held wherever possible in hopes of better prices this fall. The movement to market will probably start a little earlier this year than last. Washington cattle have shown a slight shrinkage but are in good shape. Idaho cattle are in very good flesh. Many California grass cattle did not fatten and feeding is necessary; some will likely be held over until 1931; beef sales are very slow, especially for half fat stuff. Dry ranges resulted in a decline in the condition of cattle. Cattle did well during July in Colorado, New Mexico, Arizona, western Nebraska, Idaho, Utah and California. It rains do not provide feed, forced shipments may result in Montana, Washington, Wyoming, Oregon, Washington, the western Dakotas and Oklahoma. Continued drought may result in earlier movements from dry areas. In areas that have ample feed there is the possibility of a tendency to delay shipments. Reports from some sections indicate that cattle may be held over rather than to sell at present prices if feed and financial conditions permit.

**Sheep**—Oregon sheep show a slight shrinkage from last month but are in good condition. Early lambs have come off the ranges in better condition than usual. Late lambs may be a little lighter than usual due to dry range conditions causing heavy shrinkage later. Weight of lambs already shipped has been normal or heavier. The demand for feeder lambs has been very limited and practically no demand for old ewes. Washington sheep are showing some shrinkage but still in good flesh. Idaho early lambs were very good with most of the fat ones shipped. There is little demand for old ewes and no contracts for feeder lambs.

**Sheep and lambs are in good condition, being very good in the high ranges. Some decline in condition is shown in the drier parts of Montana, Texas, Wyoming and slight shrinkage in parts of Oregon, Idaho, Nevada, Washington and Utah and a few other places. Sheep and lambs did well during July in California, Colorado, New Mexico and Arizona. Present indications are that lambs from dry areas may be a little lighter than last fall. Few feeder lambs have been contracted and there is a light local demand for old ewes. If rains are not received in some areas that are dry, the shipments of sheep and lambs from these sections will be heavy.**

I am trying to send a complete notice of the club exhibit and picnic at present to send a letter to each club member. They are twenty-one economic clubs in the county besides the livestock clubs—H. G. Avery has charge of the livestock clubs while the economic clubs are under my supervision.  
Let us have a good attendance at our picnic. Carry off some of our prizes and get acquainted with other club workers.  
Very truly yours,  
E. A. SAYRE  
County School Superintendent
