University Will Light Gridiron For Night Games

EUGENE, Ore. (AP)—The University of Oregon, it is believed, will be the first school in the northwest to have a lighted football field. Contracts to install equipment on Hayward field were awarded by the interim committee of the executive council, the governing body of stu- dent affairs in the summer months when regular school is not in ses- sion. The cost is \$4000. The equipment calls for comple- tion September 15 when fall prac- tice opens. It is expected the play- ers will drill nightly, the first two weeks, until school opens, to accus- tom them to playing nights as Ore- gon's first important contest is a night game at Soldier Field, Chi- cago, against Drake October 3. The first night game in Eugene probably will be against Willamette September 26. Great pressure has been brought to bear on the gradu- ate manager's office to install the lights when it was learned Oregon was considering the move. Not only the Willamette game, but also the two freshmen games sched- uled for Hayward field, with Wash- ington and with Oregon State, will likely be played at night under flood lights. Last year the Oregon-Oregon State freshman games, at Medford and Corvallis, were hotly contested.
