Wheat Yielding 30 to 40 Bushels Acre in Wallowa

By G. C. Meek (Observer Correspondent)
WALLOWA, Ore. (Special) — Harvesting of the bumper grain crops of this section still occupies the attention of the farmers. The reports of yields from practically all farms where threshing has been in progress are very encouraging. Much of the early threshed wheat returned yields of better than 30 bushels per acre, however, during the past week a number of fields have been harvested which yielded around 40 bushels and some of them above this figure. Oscar Maxwell, who has been busy combining a large field of Forty Fold wheat at the U. G. Couch farm in the Leap section, has secured a yield of about 40 bushels per acre from a 100-acre field. Gilbert Baker reports a yield of around 45 bushels per acre from a field he has just recently finished cutting in the Dry creek community. A large number of trucks have been busy during the past two weeks hauling wheat to the warehouses here and at Evans. It has been necessary for the warehouse management to put

on an extra crew of men to handle the grain during the rush period. Lee W. Bell, manager of the local Kerr-Gifford houses, reports that one of the houses has been filled nearly to capacity and many loads are going into the other house daily. More grain will be stored in the warehouses here this year than for a number of years. A large acreage and much heavier yields is resulting in a great increase in the amount of wheat. According to some of the farmers who have already had their grain hauled to the warehouses there has been no large amount of selling done yet. Prices being offered here are several cents per bushel lower than the figures of a couple of weeks ago and many are inclined to believe that some advance in price is due later in the season. Most of the wheat grown here this year is said to be of a very good quality with some of the 40-fold testing No. 1 and much of it not grading lighter than No. 2 which is considered better than grades of previous years when some lots of wheat has graded as low as 56 pounds per bushel. Spring wheat which has been threshed here is said to have returned very good yields, a number of reports are being received where Hard Federation on dry land has yielded as high as 30 bushels per acre. Another week's good weather will see the most of the fall wheat harvested.

J. B. Plass of Diamond prairie suffered some severe bruises the early part of the week when a car in which he was riding struck loose gravel at the edge of the road and upset. Mr. Plass is able to be on the streets the latter part of the week but will not be able to work for some time.

F. A. Downing, of Leap, has been busy recently getting his new combine harvester started at his farm. He has done several days cutting and reports good success.

C. W. Mumford and family, who have been residents of this community for about 25 years, are moving to Pendleton where they will live. M. A. Peterson, of Whiskey creek, will move to Mr. Mumford's farm just east of town and Elmer Osborn, who has been farming a large tract of dry land for J. H. Haun in the Leap community, will operate the Peterson farm on Whiskey creek. Mr. Osborn is just finishing harvesting of 240 acres of wheat at the Haun ranches in the hills and reports an excellent yield of grain.

U. G. Couch, of La Grande, was in the Leap section during the past week and spent some time at his ranch there where harvesting is in progress. Oscar Maxwell, of Middle valley, is operating the Couch farm there.

W. Minor has been hauling logs and other material to his farm for use in putting up a shop.

Giles Plass has been threshing for a number of the farmers in the Dry creek section. He also threshed a crop of grain of his own at the O'Brien farm in the community and reports a yield of around 30 bushels per acre from a field of spring wheat.

Leslie C. Gering has been hauling logs from the logging camp to Whiskey creek to the railroad here. Mr. Skilling, who is doing some logging for the Bowman-Hicks company in that section, has been hauling logs with his trucks. The dirt roads are in excellent condition for heavy hauling and many large loads are coming in daily. Members of the A. F. O. are busy with flooring a bridge recently on the market road west of town which had gone through with heavy hauling.

Yakima Peaches Near Peak Now; Cheese Higher

PORTLAND, Ore., Aug. 26 (P) — Butter and egg prices again were unchanged on the Portland wholesale market today. Both opened very firm, due to light receipts from the country. Peaches and eggs were in good supply. Storage withholds were resorted to make up butter supply deficiencies.

Of the fruit and vegetable markets, the U. S. D. A. market news service reports: Yakima cantaloupes were weak with receipts strong and quality down. Receipts from the Dillard-Roseburg district, from which practically all production is coming to the Portland market by truck, were pricing at \$2.50-\$2.75 a standard crate.

Walla Walla onions were in good demand with no Oregon on the market yet. Supply of Yakima Elberta peaches is near season's peak. Willamette valley peaches are plentiful and of excellent quality.

Tomatoes are having erratic ups and downs of supply volume and price.

A 1c advance in wholesale price of Tillamook cheese has been announced by the Tillamook County Creamery association making triplets 21c and loafs 22c, effective immediately.

Necessity for heavy feeding of dairy cows, due to extreme dry weather, is stated reason for the advance. The association reports a very active demand.

CHICAGO, Aug. 26 (P) — Clarence Darrow, Chicago attorney today denied he was to debate Dr. Walter A. Maier, St. Louis, on atheism as announced in New York by the American Lutheran Publicity bureau.

CLOSE STRONG IN EXCHANGE; STEEL CLIMBS

NEW YORK, Aug. 26 (P) — The hungry bulls, grown lean during a summer barren of the kind of business news that is their sustenance, found a plot of green pasturage in today's stock market, with the announcement of sharp increase in the United States steel ingot production.

A wide assortment of shares was up 2 to 4 points or more, on publication of the steel news, showing output increased from 62 to 66 per cent of capacity. U. S. Steel rose about 4 points to the best price since the June crash. The steel news served to quieten an advance which had developed earlier under the leadership of the motion picture shares. Shorts rushed to cover and trading expanded sharply.

The advance embraced most groups with the exception of the oils and coppers, shares selling up 3 to 6 including American Can, Dupont, Vanadium, Air Reduction, Southern Railway, Auburn, Westinghouse Electric, Worthington Pump Case and Columbian Carbon, while Consolidated Gas, North American, New York Central, Con products and Johns Manville gained two or more. The close was strong. Total sales approximated 1-850,000 shares.

Nuthall-Marlowe Combination Wins

BROOKLINE, Mass., Aug. 26 (P) — Betty Nuthall, of England, and Helen Marlowe, of California, today won their opening match in the women's invitation doubles conducted in conjunction with the men's national doubles championship tournament at the Longwood Cricket club today.

Misses Nuthall and Marlowe defeated Polly and Joan Palfrey of Brookline, 6-1, 6-1.

Stanley Wood and Frank X. Shields, New York, advanced into the second round of the national doubles championship by defeating Keith Werner and Harold Losch, Los Angeles youngsters, 7-5, 4-6, 9-7, 3-6, 6-3.

Berkeley Bell and Gergory Mangin, Davis cup alternates, advanced into the third round on a default when tournament officials were notified that Stanley Van Allen had suffered a broken leg while playing polo at Newport last night.

Young Van Allen, who had successfully teamed with Arnold W. Jones, successfully overcame first round opposition yesterday. After the match Van Allen flew to Newport to keep his polo engagement.

Astoria Woman Is Killed By Airplane

LONG BEACH, Wash., Aug. 26 (P) — Mrs. Marie Williams, 37, Astoria, was killed late yesterday when an airplane piloted by Clyde S. Murray, Vancouver, Wash., crashed into a crowd of women and children on the beach.

Edith Groeger, 2, Portland, was injured slightly. Murray told authorities he attempted to rise above the crowd but wet and loose sand did not allow him to do so.

Mrs. Williams seized the Groeger child as she ran and was able to prevent the girl from harm. The propeller struck Mrs. Williams.

The South Bend district attorney began an investigation.
