

We are happy to announce that Monday, September 1  
the Arcade and Granada Theaters  
will become units of

**INLAND THEATERS, INC.**

This means that the La Grande theaters will be members of the finest independent theater chain in the west. This chain is operated by Frederick Mercy Sr., who has been in the theater business in the Northwest for twenty-five years and his son, Frederick Mercy Jr., who has grown up in the industry. It means that the La Grande theaters will be operated under a policy which has placed Mercy theaters in a class by themselves; this policy, to state it briefly, is to offer our patrons the finest talking pictures available in the most comfortable and ideal surroundings possible.

During the next few days many changes will be made in the two houses. Redecoration will be extensive. Comfortable loge seats will be installed. Additions to the equipment will be made which will make a distinct improvement in the quality of the sound and of the projection of our pictures. Wherever a Mercy theater is to be found you will find a theater equal in quality to any in the entire United States. It is our intention that the same will be true of our La Grande Theaters. In making these changes it is our intention never to lose sight of the fact that patrons who pay for entertainment in our theaters are entitled to the best entertainment we can offer and to all the comforts we are able to provide.

A date for a reopening under this new policy will be announced soon. Watch for it.

**INLAND THEATERS, Inc.**
