

A TRIBUTE to the WORLD'S TOILERS

INTELLIGENT, ambitious, honest Labor is the modern King Midas that brings wealth to our community, happiness to our existence, and progress to our civilization. The world is indebted to the laboring man and woman for all that is of value to civilized mankind. The farm worker, the miner, the humble street worker ... even the most unskilled of laboring men that you might choose ... holds an honored niche in the complex pattern of our life. Labor is the magic hand that brings value - and greater value - to everything it touches. This is the Day of Honor for the working man ... the day dedicated to the toilers, out of respect to the good they do for every last one of us.

Labor is discovered to be the great, the grand conqueror, enriching and building up nations more surely than the proudest battles.---Channing.
