NEWS of the CHURCHES

Rev. Walz Will Give Interesting Sermon Sunday

Baptists Conduct Teacher Training School During Next Week - Hagen to be Leader.

Church, school and state lay claim upon the energies of youth, and organize them out of freedom and spontaneity. J. George Walz, pastor of the Presbyterian church, believes.

Church, school and state lay claim upon the energies of youth, and organize them out of freedom and spontaneity. J. George Walz, pastor of the Presbyterian church, believes.

At the evening service at 7:30 o'clock, Miss Gladys Miller will preside at the organ console, and special music will be a feature with Mrs. Ray Fuller singing a solo. The minister, J. George Walz, will again speak.

Sunday Bible school opens at 9:45 a. m., with special numbers by the orchestra. Christian Endeavor, with its interesting topic, the second in a series, "My Idea of What a Young Woman Church" is conducted by Roscoe Burley at 6:30, promises to be full of interest.

Baptist Church Notes
Corner Spring avenue and Sixth. Next Sunday morning Dr. T. H. Hagen, director of religious education for the Oregon Baptist convention will preach. The regular B. Y. P. U. service in the evening will be omitted, and the young people will take over the evening preaching hour and present the evening program.

Dr. Hagen and Miss Louise Hinderup, director of children's work for the Oregon Baptist convention, will conduct a teacher training school through the week, holding two forty-minute sessions each evening, closing Friday evening. The two textbooks used will be "The Pupils in the Church School" by Anthony de A. Lamoreaux, and "Teaching in the Church School" by Seldon A. Roberts. There will be no charge.

Hours of services are: Sunday school, 9:45; morning preaching service, 11; B. Y. P. U., 6:20; evening preaching service, 7:30.

St. Peter's Church
Fourth and O avenue
"A Hidden Glory" has been chosen as the topic on which M. G. Tennyson will present his sermon Sunday morning at St. Peter's church. Heucharist will be held at 8 a. m. in the chapel, followed by church school at 9:45. Morning preaching service, 11; B. Y. P. U., 6:20; evening preaching service, 7:30.

In Washington

By Herbert Plummer
WASHINGTON - Plummer has been variously described as Washington's "architectural monstrosity," "Topsy" and "gingerbread man" - the state, war and navy building next door to the White House - is to have its face lifted.

Some \$2,000,000 is to be spent to make it harmonize with its neighbors. In this gigantic structure there is one office in particular, rich in historic significance, which likely will undergo drastic changes. It is that once occupied by the secretary of the navy before the move to "Peggy Bottom" - in the Mall - during the time of the World War.

Josephus Daniels was the last secretary of the navy to occupy this beautiful room, so intent was he that the navy not lose complete possession of their part of the building that he held on to his office.

For a long time it was known as the uptown office of the naval secretary. Occupied by Pershing
At the end of the World War, when General Pershing was made chief of staff of the army, he took up his quarters there. It remained the general's office from then on - after his retirement from the army, and as head of the battle monuments commission.

Last Christmas eve, when fire destroyed the executive offices of the White House, President Hoover had to look for new offices. Pershing surrendered his to the president until necessary repairs could be made at the White House.

Now, Pershing is back. This sumptuous suite is next few yards from the west entrance to the White House. Farther down, and in close view from the windows stands the treasury.

Here is a page out of the not-so-long-ago among those random memories concerning this historic section of an historic building. It is told by Salvatore Cortesi, now and for many years Associated Press correspondent in Rome.

Historical Incident
Back 40 years ago, to 1891, the story goes, when "eleven Italians were lynched in New Orleans," Cortesi was in Washington representing the Tribune of Rome.

Cables from Italy had told of a possibility that a fleet would be sent to enforce indemnity demands. Cortesi spoke of this to secretary of the Navy Tracy.

Italy is third naval power in the world," Cortesi quotes Tracy as saying. "We have practically no fleet, and that your ships could easily come over and bombard our cities along the Atlantic coast."

Holland or even Belgium could do the same, but he continued, marking his words, and pointing out of the window, "we have got there in the treasury enough money to build a fleet in the Pacific and then beat any aggressor or, if necessary, revenge ourselves in Europe."

And this incident is only one of many which have occurred at this same room.

First Methodist Church

The Sunday evening service at 7:30 is attracting wide interest which the pastor attributes in a large degree to the musical program which is a regular feature of the service. An orchestra of fifteen pieces plays an interesting prelude to each evening service. This week's concert will consist of the following numbers: "March Ponticane" by Gounod, "Valse des Fleurs" by Tschalkowsky, "Field of Glory" by Zamecnik.

The concert is followed by a lively song service led by a large choir. All of the music is now under the direction of the pastor. The evening sermon topic will be "The Unknown God." Mr. Mortimore states that the evening sermons will be presentations of reasons for faith in the Christian religion.

The young people of the church are divided into three groups for the 6:30 p. m. service. The Christian Endeavor topics are discussed in each of these divisions. A group of adults meet at the same hour for prayer. All who care to attend are welcome to these services.

Special emphasis is placed at all services of the church of Christ. The pastor states and the gospel invitation is given at every service. A number of new converts have been received recently. "The Church of a Hearty Welcome."

First Church of Christ, Scientist
First street at Washington
Services will be held Sunday at 11 a. m. and 8 p. m. at First Church of Christ, Scientist, at First and Washington streets.

"Life" will be the subject of the lesson-sermon in all Churches of Christ, Scientist, on January 18. The golden text will be "If thou wilt enter into life, keep the commandments." (Matt. 19:17).

The lesson-sermon will also include the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "In Science, all being is eternal, spiritual, perfect, harmonious in every action. Let the perfect model be present in your thoughts instead of its demoralized opposite. This spiritualization of thought lets in the light, and brightens the mind. Life, not death, into your consciousness." (p. 407).

Sunday school is held at 9:45 o'clock for pupils up to the age of 20 years. The Wednesday evening service which includes testimonies of healing is at 8 o'clock.

The reading room in the West-Jacobson building is open every day except Sundays and legal holidays from one to 4:30 o'clock.

Church of the Nazarene
Corner Y and Birch
In the near future the church will begin a revival with the district superintendent and a special singer and they are making special preparations, the pastor states. This Sunday the morning message by the pastor will be "Essential Factors in a Revival." The evening message will be "The Spirit-filled Life."

Church school will begin at 9:45, morning worship 11, N. Y. P. S. both societies 6:30, and evening meeting 7:30.

Island City Community Church
At the 11 o'clock hour of morning worship, the pastor, N. E. Hershey, will use the subject, "I Believe," in which is the beginning of a new era. "I believe that matter." On Sunday evening the service will consist of talks by various members of the congregation on "What my church stands for." This will be a symposium of the creeds or outstanding points of various denominations. Miss Minnie Holman will represent the Lutheran; Mr. W. Case, the Christian church; Mrs. H. G. Avery, the Presbyterian; Mrs. Ray Blockland, the Baptist; and Mrs. Des Davis on the Methodist Episcopal.

Mrs. Hershey will make a brief summary of "The Beliefs That Bind Us Together." Violin selections will be supplied by Mr. John Dahlstrom.

The Epworth League will be led by the newly elected first vice president, Mary Jane Chadwick, and the church school at 9:45 will be presided over by the superintendent, Mrs. Allen Shupp.

Hereafter the Bible study group will meet at 7:15 instead of at 7:30, and will be followed by a social hour. The Ladies Aid society will have another all-day session and a pot-luck dinner at the home of Mrs. J. L. Perry, on Thursday the 22nd.

The Gospel Mission
2201 Fir street North
Miss Pauline Taylor, colored pastor, will speak and sing at the Sunday evening services at the Gospel Mission. The morning service will start at 11; the evening at 7:30; Sunday school, 9:45, midweek services, Wednesday evening, 7:30.

SAM PEPPS OF DIARY FAME ALSO MADE A SHIP MODEL
LONDON (AP)—Samuel Pepps did more than write a diary, and the outcome of one of his labors has just been completed at the Science Museum.

It is a six-foot model of one of Queen Elizabeth's ships, and was built from designs in manuscripts collected by Pepps nearly 200 years ago when he was planning a history of the Royal Navy.

The paint work, as was the custom in the days of the Spanish armada, is based on a singular pattern of brilliantly contrasting colors.

Gold Mixture
Green gold consists of gold, silver and cadmium, and sometimes copper is also added. The degree of the green color depends upon the percentage of the metals used with the gold.

WOMEN OFTEN PAY A DOUBLE PENALTY for wearing this gage, for it is usually purchased by the wife or suppressed menstruation should never be considered necessary. Painful periods are a warning that something is wrong and needs immediate attention. Failure to heed and correct the first painful symptoms usually leads to chronic conditions with sometimes fearful consequences. Dr. Pierce's Favorite Prescription is for women's own peculiar ailments and can be obtained at any drug store. Every package contains a Sympson Blank Form and the Blank Form to Dr. Pierce's Clinic, Buffalo, N. Y. for FREE medical advice. Send 10c if you want a trial package.

Advertisement for Dr. Pierce's Favorite Prescription, featuring a woman's portrait and text about menstrual health.

MIMIR WILL BE TYPICAL OF CITY

Continued From Page One
is to appear in the book at least once. Mr. De Weist states, The district include administration, expenses, classes, organizations and activities, athletics, features, and the secret section.

Donn Pouch is doing the cartooning for the book and Miss Hanson states that he has many clever ideas which he plans to put into the book. News of the classes will be handled by Mildred Cade, senior; Marie Floberg and Wilma Hansell, junior; Howard Lyman and Barbara Coolidge, sophomore; Janet Bingner, freshman.

Cedra Harvey and Lenora McCorkle will handle the organizations and activities. Marylou Piper will write the society events which are important in the book. The cartooning is to be written by Eileen Bull and Thelma Shyllis, while Fred Nowland and Phyllis Dunn will have charge of the snap shot section.

Activities will be handled by Helen Newlin and Jess Parker; and the alumni by Carolyn Gray. Packey McFarland will inculcate the humor; Virginia Wetzel will furnish the literary material.

Business managers are Arlo Noyes and Ray Nelson, assistant.

The annual book this year is attempting to feature individuals more than they previously have, Mr. De Weist states.

Weather Controller
In some African tribes, the chief is official rainmaker, and is supposed to command rainfall and sunshine.

LEAGUE 11 YEARS OLD

Eleven years ago today the first meeting of the council of the League of Nations was held in Paris. Looking back to that time it seems the irony of fate that the call for that meeting should have been issued by the then president of the United States, acting on behalf of the nations which had deposited their ratifications.

What was most conspicuous in the eyes of the world that morning was the empty chair at the table about which the men were seated. Despite this ill omen, as it was then interpreted, it can be said, in looking back over the eleven years to that morning's meeting—as he who called it said—that it was the beginning of a new era in international cooperation, the first great step toward the ideal concert of nations.

This most ambitious experiment in world government ever assayed by man has already enough to its credit, even without the filling of the vacant chair, to justify the prophecy of the American convener that its progress would accord with the noblest purposes to which it was dedicated. At any rate, it has been demonstrated that the machinery put into operation on January 16, 1920, for preventing war—its main objective—is workable, for it has in more than one instance been used with complete success.

So important a role has the League of Nations come to play in human affairs in maintaining world order as between nations that it is not too much to say that its failure would almost take away the hope of ever saving the civilization which the nations built up when the world was not so contracted and closely bound together as it is now.

TRUTH STRANGER THAN FICTION

Reports are filtering in from France which would indicate that dress, which means so much more to the French mind than simply clothing, is becoming so expensive that it is hard for a person of moderate means to keep up to national standards of style and elegance. In Paris prices are so high that it is said ready-to-wear clothes are having an unprecedented sale.

If the French take up with ready-made clothes they will no doubt find that garments turned out in that way can be purchased very cheaply. And in that event the dressmakers and tailors of France will find their greatest patronage from tourists from America and England who are visiting France in great numbers, every woman of them resolved to purchase at least one frock made especially for her.

It would be strange if things should so change that the great dress-making establishments of Paris should devote themselves exclusively to catering to the tourist trade, while the French themselves wore clothes ready-made in American factories. But stranger things have happened. For example, Paris is the fashion capital of the world, yet the women of the United States are conceded to be the best dressed women in the world.
