

More Snow Falls; Abandon Search For Missing Man

By Mrs. L. Z. Terrill (Observer Correspondent)
The search for Manfred Alexander has been abandoned until the weather clears up and the snow has settled.

Mr. and Mrs. George Winship and Anna Mae were Union visitors on Thursday. Mrs. Winship attended the Women's club while Mr. Winship looked after business interests.

At a joint meeting of Cove and Union Eastern Star members Wednesday evening the officers of the two chapters were installed at a beautiful and impressive ceremony.

Cove officers who were installed were Elsie Collins, matron; Bert Peterson, patron; John Dean, as-

sociate patron; Leona Price, secretary; Thelma Anderson, treasurer; Maude Dean, associate conductress; Lulu Goyette, Esther, Cora Peterson, Martha, Beulah Lay, organist and Mrs. Mary Breshers, chaplain. At the close of the installation services Mrs. Jackson gave a very interesting talk. On behalf of the chapter, L. Z. Terrill presented a gift to Mrs. C. E. Lawson as an expression of appreciation for her faithful services as worthy matron the past year. The evening's program was closed with a social hour and lunch.

The Girls' League of the high school under the direction of the advisor, Miss Helen Schaper, enjoyed a costume party at the gymnasium Wednesday evening. The party began at 7:15 with a short program followed by games and dancing. The judges for the costume contest awarded the prize to Dorothy Baker for the most beautiful costume and to Virginia Ward for the most original and ridiculous one. Refreshments were served by a committee.

H. C. Seymour, state 4-H club leader, announced over the radio from KOAC Monday evening that the program and creamery club under the leadership of Mrs. Cecil Griggs was the second in the state to finish the course 100 per cent. He complimented the members on the high quality of their work and they are anxious now to make a 100 per cent exhibit at the 4-H fair in the fall. The girls who completed the course are: Gladys Conkling, Elma Halsey, Betty Vogel, Elaine Hess, Ruth Rode, Luella Burford, Wanda Ackley, Vivian Anderson, Lucia Bassett, Leita, W. L. Lott, Nedra Cox and Nicola Anderson.

E. A. Sayre, county superintendent, visited the grade school Wednesday and gave short talks to the various teachers. At noon he attended the commercial club luncheon at the Union hotel and gave a talk.

Mrs. Eva Wright is moving from the Selber place near the cemetery to the home of her father, E. A. Selber. Mrs. Wright came here from Nevada in the fall to take care of her father which was ill.

Lake Thurston will host to her returning to Silverton. The American Legion auxiliary sewing club met at the home of Mrs. P. A. Goodwood Wednesday and spent the day working for the veteran's hospital. Part of them quilted, others made baby garments and miscellaneous articles. A lunch was served at noon by Mrs. Goodwood assisted by her mother, Mrs. Orval Jensen.

CHILEANS REVAMP NAVY AS GUARDIAN OF SOUTH PACIFIC
By Morris J. Harris
SHANGHAI (AP)—Radio has at last put China into direct and instantaneous communication with the rest of the world.

Through transmission service at 100 words per minute has already been established between this city and San Francisco. Wireless broadcasts similar contacts are to be made with Berlin, Paris, London and other capitals of the world.

Establishment of the Shanghai international radio station at Chienyu, a suburb, has made this feat possible. Like other enterprises still new to the Chinese, construction of the station and its eventual opening was by no means rapid. Ceremonies attending the opening were preceded by two years of negotiations, hard work and various obstacles to be overcome.

A week before the final tests had been completed the Japanese government filed a formal complaint against the new enterprise. It was based on a treaty signed by the Japanese and the old Peking government granting the Japanese a monopoly on wireless stations operating in China with the outside world. It caused some apprehension for a time.

Plans for the station were formulated two years ago when the Nanjing government began to take radio seriously. However, it was not until ten months ago that actual construction was started.

Approximately \$500,000 was appropriated, most of this sum being spent for American equipment, with some apparatus purchased in France and Germany.

Installation work was supervised by Cecil Bailey, RCA engineer, who is remaining in China for a few months to help direct operations. George F. Sheekler of San Francisco, who has spent two years in China in connection with the radio plant, has accepted a post with the government in an advisory capacity and will assist in the operation of the station.

CLARA BOW ACCUSES EX-SECRETARY OF BLACKMAIL

Daisy de Boe (left) and her attorney, Nathan D. Freedman, in Los Angeles court where Miss de Boe, former secretary of Clara Bow, was tried on grand theft charges.

Miss Bow, right, in disguise in district attorney's office, alleged her former secretary took \$16,000 from her bank account and from the witness stand accused Miss de Boe of attempted blackmail.

from Calneva and a gambling resort owner accused her of stopping payment on \$30,000 in checks given to cover her losses that the studio told her to keep her name out of print.

Miss Bow herself did not attend the session. In her place at the counsel table sat Rex Bell, her latest boyfriend and personal representative. He said Clara was ill.

In the studio statement concerning Miss Bow's withdrawal as co-star with Gary Cooper in "City Streets," it was stated the actress' physician said the nervous strain of the trial made a two-month vacation necessary. A story for her next picture was under preparation, the announcement said.

EAST OREGON IS PLEASED WITH ACTION

(Continued from Page One)
Aldrich said a number of Oregon and Washington cities have prepared contracts for power from the Umatilla project when it is completed. Portland, Tacoma, Pendleton, La Grande, Spokane, Walla Walla, and Ontario were mentioned, as bearing out the statement a market already exists for the power.

The delegates declared power can be developed at Umatilla for 1.2 mills a kilowatt hour. It can be sold for 2 mills and the resulting revenue would be sufficient to defray the entire cost of the project, repaying the government within 42 years, Hartshorn said.

From the Greek

The word "cometary" is a derivative of a Greek word which means sleeping place.

Evolution

"Man is the only creature that can build his thumbs." The other animals have instinct when they lack intelligence.—Columbia (S. G.) State.

Romance Language

It is customary to list French, Spanish, Portuguese, Italian and Rumanian as the Romance languages. These are largely derived from the speech of the Romans.

Substitute

Another way to lessen useless news would be to show stupid people some other way to attract attention.—Richmond News Leader.

"Uncle Tom"

Mrs. Stowe said that her first conception of the character of "Uncle Tom" came from writing letters for her colored cook in Ohio to the husband, a slave in Kentucky. Afterwards she used some incidents from the autobiography of Josiah Henson. The character of Uncle Tom, therefore, was a fictitious one, imbued with traits with which Mrs. Stowe was familiar. The death of Uncle Tom was her first invention.

TRY BOWLES AND WOMAN TOGETHER

(Continued from Page One)

Bowles and Miss Loucks, his former secretary, were brought from the county jail under guard to the state penitentiary.

The Multnomah county sheriff's office today was considering taking a hand in the investigation of an attempt Thursday to kill Mrs. H. W. Howard, 56, state's witness in the alleged murder of Mrs. Leone Bowles, Portland society woman.

W. Lair Thompson, of the attorneys retained by Bowles and Irma G. Loucks, asked Sheriff Thomas M. Hurlbut to launch an investigation. Mrs. Howard, purported to have been attacked at her home by an unidentified man who escaped and apparently left no tangible clues. Mrs. Howard was stabbed twice above the heart, slashed across the face and hit across the back of the head with a blunt instrument. Physicians said last night they had not fully determined the extent of her head injuries but expressed the opinion she would recover.

Butter Prices Lower Today In Portland Mart

PORTLAND, Jan. 17 (AP)—Wholesale butter quotations opened 1 to 2 cents lower on the Portland produce exchange today. Decline was influenced by lower prices at Seattle and Los Angeles despite improved tone of the local situation as result of lighter volume of receipts and better clearing of stocks on hand.

Butterfat Down One Cent; Butter Price Unchanged

While butter remained the same today on the local market, the price which the farmers receive for their butterfat dropped one cent. They were formerly receiving 22 cents but today they received 21 cents. Butter prices dropped in Portland today.

SHOULD THE CHILDREN EAT IT? PARENTS, particularly mothers, are paying a lot of attention to children's diet these days. For it is far more economical and pleasant to keep a child well by feeding him correctly than by nursing and doctoring him back to health. Of course the doctor should be consulted regarding what a child should eat and what he should not eat. But do you realize that the leading manufacturers of food now seek the advice and approval of the leading nutritional authorities in the country, relative to the claims they make for their products in their advertising? In other words, food advertisements are reliable sources of information regarding diet. They are based upon the results of the latest approved scientific discoveries about vitamins, minerals and roughage, in relation to vigorous bodies, clear complexions, sound teeth and properly regulated systems. So read these advertisements carefully. Consult your doctor about them. Very often the advertiser invites you to do this because he has asked authorities, whom your doctor respects, about those advertisements first.
