Outboard Racing to Thrive in Florida

PALEM BEACH, Fla. (AP) — Nineteen races in Florida and Cuba are included in the spring racing program announced by the Florida Outboard Motor Association, to continue through March.

Efforts also are being made by Palm Beach sportsmen, connected with the state organization, to arrange a schedule of 33 or more races calling for at least one race every two weeks.

Some of the races this spring will be features of well known Florida regattas. One is a race for the Sir Thomas Lipton outboard trophy here during the regatta of the Palm Beach Anglers and Sports club March 29-32.

Sites for some of the races already scheduled are St. Augustine, Orlando, Tampa, Fort Myers, Palm Beach, Sarasota, Jacksonville, Gainesville, Mount Dora and Bunnell.

International favor will be given the spring season with the holding of a regatta at Havana March 10, when some of the most outstanding outboard enthusiasts are expected to compete.

Butter and Eggs Unchanged; Spud Trade Is Slow

PORTLAND, Jan. 21 (AP) — Butter and egg quotations held unchanged in wholesale markets today.

Butter market at the opening stood on firm ground in its relation of receipts to demand. Receipts were light and demand unusually good, promising a good clean-up of fresh supplies.

Egg market opened easy, receipts greater than demand, sales forced at irregular prices. Pacific coast extras a cent lower at New York was a weakening factor on the shipping side.

Country meats and poultry were steady except for a cent decline on medium weight hens, in oversupply; quote: 14 to 15 cents a pound.

Fresh fruit and vegetable trade opened normally active at unchanged quotations on all lines.

Onion sets, from near Brooks, Ore., were a new offering for the week at 7 to 8 cents a pound.

Government market news service reported conditions as follows:

Local cauliflower continues to arrive at the farmers' early market, and at the East Adair St. wholesale market, at the rate of 500-1000 crates daily. Considerable local flower is still moving to Puget Sound and other coast points via motor-truck. Lettuce declined as a result of unusually heavy truck supplies. Imperial valley shipping point quotations are slightly lower also.

The potato trade continues slow, although there have been more liberal unloads into storage recently. Fine quality Oregon Burbanks are realizing top prices at California markets.

Apples are enjoying moderate local distribution, with cheap stock predominating. Both export and domestic demand slow. Current loadings at Portland are rather light, with few large cargoes.

Alfalfa Prices Decline in Oregon

PORTLAND, Jan. 21 (AP) — U. S. No. 1 alfalfa was quoted to the trade at \$17.00-\$18.00 a ton in Portland today, a 50 cent to \$1.00 decline from prices of a week ago and a reflection of continued slow demand reported by representatives of the department of agriculture economics throughout the northwest. F. O. B. prices in the Hermiston district were reported around \$12.00.

Gassy Stomachs Made Well

Every person who is troubled with gas in the stomach and bowels should get a package of **Balmain's Gas Tablets** and see how quickly they will relieve all distressing symptoms.

Sharp pains in the abdomen or about the heart are often due entirely to gas trapped in the bowels. Usually there is much gurgling or rumbling in the bowels. Many sufferers complain of a growing feeling in the stomach, extreme nervousness, headache, dizziness, spells of labored breathing.

Balmain's Gas Tablets, taken at meal time not only prevent all bad effects from gas, but they invigorate the weak nerves of the stomach and assist in restoring the whole digestive system to proper working order.

Balmain's Gas Tablets, in the yellow package, can be obtained at every good drug store. Price 1¢ every seven good drug stores.

German Dancer Acclaimed 'Liberator' Of Art

NEW YORK (AP)—Seddon has a foreign artist come over the horizon to arouse so much critical discussion as Mary Wigman, the German dancer, in her first visit to this country.

Recognized as a leader of the modern dance, Miss Wigman has freed her art from its dependence upon music. It is on this theory that she has built her school—that the dance itself is an art in itself, and should not be merely a physical interpretation of music.

As a student of Dalcroze and Rudolph von Laban, she subjected herself to absolute body discipline for four years. Because of this mastery of her body, she can execute dance movements which have been considered problems to other dancers for years.

One of the features of several of her dances evoked when she spoke around like a whirling dervish for seven minutes without a pause. Few dancers can do this for more than three minutes.

She has created about 100 solo dances and 50 group dances.

Once she believed in abstract dancing, but soon abandoned this for her own form, which an emotion she created first, and that the accompanying music then be composed to fit the dance.

She is a dark, muscular woman and much of her art is so intricate that it is confusing to the ordinary spectator. Dancers themselves, who comprehend the finer points of their art, are unanimous in admitting that she has carried on from where leaders Duncan left off.

She was 27 before she had a chance to give a recital of her own theories. This new form was not understood then, and the public rejected her. Four years later she appeared again, and this time she was a sensation.

Her school was started all over Germany, and the government recommended that all teachers study under her. She came to this country with the minister of culture as one of her sponsors.

She has never been married.

ELIHU ROOT PLEADS FOR WORLD COURT

(Continued from Page One)

taining the consent of the government.

"First," he said, "in the asking of advisory opinions of the court, the assembly and the council of the League of Nations would be obliged to proceed in ignorance of the attitude of the United States. It would throw doubt and delay around all proceedings.

"Second, there was ignorance on the part of the cabinet members of the council as to the meaning of the term 'reservation.' It meant legal interest, it might mean political interest and so forth."

Mr. Root, a former secretary of state, recalled instances of the application of such provisions in other treaties. He recalled the treaty of 1912 with Russia which he said was terminated.

"No difficulties arise any more or termination," he said. "So the secretary's reservation and its acceptance very much relieved the difficulty in making the agreement."

Root then took up the negotiations for meeting the senate's objectionable reservation regarding advisory opinions. He met two years ago with other international jurists to solve the problem.

He said the United States was protected at all times by another senate reservation already accepted by the other powers, "which makes the agreement terminable at will."
