Where is Arcadia?

Arcadia is a picturesque district of the Peloponnese, Greece, and is the traditional home of pastoral poetry. The name figures largely in Greek mythology. Figuratively "Arcadia" is applied to any region of ideal rustic simplicity and contentment. Frequently the name is confused with "Acadia," the original French name of Nova Scotia.—Pathfinder Magazine.

Baker Lake

According to the records of the geographic board of Canada, Baker lake was so called, in 1762 by Captain Christopher of the ship Churchill, who discovered the lake on ascending Chesterfield inlet from Hudson bay in that year.

No Camouflage

Tombsones are a monumental piece of folly. An epitaph cannot change a closed record.—Country Home.

Bred Plants in 1879

Plant breeding experiments have been conducted since 1879 at Michigan State college.

Evil in Excess

The best things carried to excess are wrong.—Churchill.

Acute Observation

Fault is the one thing that is usually found where it is not.—Chicago News.

Vernon "Catfish" Smith, all-southern football end, is missing from the Georgia basketball court this year. He was a star center in 1930.

"Stone of Destiny"
Scene, in Perthshire, Scotland, was the site of an old abbey and the place of residence of the early kings of Scotland. It was also the scene of their coronation. A "stone of destiny" was part of the coronation chair. This stone was carried off by Edward I of England in 1296 and placed in Westminster abbey, where it still remains under the coronation chair of the British Kings.

Not Such a Much
Moonlight is something we have all woven into dreams, into romance, into exaltation and inspiration. Into songs, poems, visions and unforgettable pictures. Now for the descent, though not exactly to Avernus. The man that unweaves the rainbow and puts moonlight upon the scales, says: "The total brightness of the moon is reckoned as equal to a 100-candle-power lamp at a distance of 22 yards."—Exchange.

Notes of Little Value
About this passion for note taking: Have you heard about the scholar who studied and studied, and wrote it all down in elaborate notebooks, piles and piles of remarkably edited notes (oh, he was considered an educated man). They contained everything he knew. Then, sleek, came a fire and burned up his notes and his textbooks. And he was a scholar no more.—Detroit News.

British flying clubs issued 441 class A pilot licenses to members during the fiscal year ended July 31. The French air ministry allows the use of American touring planes in France free of charge for one year on presentation of American permits and licenses.
