Gay Stripes, Zigzag Prints In Spring Togs
By Adelaide Kerr

—PARIS, Jan. 30 (AP)—Gay stripes and splicing prints designed in zigzag lines were shown by a prominent Parisian dressmaker here as the latest worn in spring togs.

Even monotonous dresses of apparent simplicity revealed triangular or square pleating of the most intricate design while others were frankly mystifying with ruffles winding from hip to hem in striking drapes and graduated pleats.

Black and dark blue chiffon or crepe afternoon frocks featured cream puff sleeves made of myriad rows of Valenciennes lace of dark shadow lace sleeves under waistlength capes. The simplest daytime models had standing, flat, or bib collars of white pique or bright silk Scottish plaids, while several models displayed plaid silk underskirts showing several inches below the hems.

Even sports models, featuring green, blue, beige and red plaids and stripes combined with plain colors were exhibited with complicated vests and trouser blouses. The evening gowns used several materials and colors in one model.

White cotton lace combined with organdy, velvet leaves and flowers roped on net, rows of narrow lace stitched on voile, and black stitching on light organdy, were among the newest evening notes. Brilliant large flowered chiffons designed in overlapping drapes and tiers were a favorite among the exhibits.

The jewels displayed with the gowns were complicated as the dresses. Brilliance, colored with crystals, corals and jade, were designed in three tiered necklaces and bracelets generally contrasting in color with the gown.
