WEST QUESTIONS New Utilities Bill In House

SALEM, Feb. 6 (AP)—Validity of the proposed common user measure by which private utilities would be compelled to grant the use of lines and systems to municipally owned utilities, was questioned by Oswald West, former Oregon governor, before the joint utilities meeting today.

The bill under discussion, was introduced by Representative John H. Lewis. West contended that the original code, which the new act proposes to amend, provided reciprocal user rights between private companies, but the new act does not provide that the municipalities should go into a reciprocal agreement. It is on this basis he believed the measure would be unconstitutional.

No Rash Action Contemplated In Flax Industry

SALEM, Feb. 6 (AP)—The Capitol Journal yesterday in a story on the report of the auditors showing loss of some \$230,000 suffered by the state in the past four years through its flax industry, quoted Governor Julius L. Meier as stating "this is no time to do anything rash, and we contemplate nothing of the kind." The governor further stated in the interview "the industry has grown to be an important one and one which must be fostered and safeguarded. There are some changes which should be made, and I have some plans in mind toward that end."

The paper says the governor agreed that most of the apparent troubles of the industry were due to the general depression which has affected all business and all lines of industry. "It is a situation in which we must give and take," Meier declared.

Governor Meier and others interested in the current agitation over the state flax industry agree that most of the loss suffered during the past four years was due to depressed prices and only a small portion to errors in management, and that prospects of any rash action that might sacrifice the progress of the industry were vanishing.

Senator J. E. Bennett advocated consideration of his measure to provide a means of forcing telephone companies to enter cities and operate under franchise. He declared in many cities, the telephone company has a monopoly and therefore does not renew its franchise with the city after its expiration. A privilege tax of not less than five per cent is also charged against the company's net earnings. By the bill this would bring into Portland alone a quarter of a million dollars, he stated.

The second public hearing on the hydro-electric commission bill was set for Monday morning, 8:30, by the committee.

GRANTS PASS, Ore., Feb. 6 (AP)—Funeral services for Judge C. E. Rusk, writer and explorer, who died here Monday from a heart attack, will take place in Portland Saturday at the Portland crematorium. Last rites will be held here at 2 p. m. Friday and the body will be forwarded to Portland.

Judge Rusk, who was 59 years old, was a justice of the peace in Josephine county. He returned recently from a trip into Alaska where he explored crater formations.

Washington — Caraway apologizes for remarks about Hoover.

CONFERENCE OPENS HERE NEXT MONDAY

After the noon luncheon of the chamber of commerce, the afternoon session will be devoted to group consideration of substitute crops, including flax seed, peas, potatoes, also grain marketing, power farming and hay costs. J. A. Gaskill is group chairman.

Wave motion in a liquid represents a continuous landing on from particle to particle of a disturbance in the medium without actual transfer of the medium itself. This may be demonstrated by throwing a stone into water. It will be seen that waves pass out in circles from the point at which the stone submerged. These waves seem to be actually moving, but if a chip be thrown on the surface of the water it will be found that its motion is up and down and not in an outward direction.

Early Names for "Movies"

Some of the names that motion pictures were called when they were first introduced were kineograph, cinematograph, kinetoscope and biograph.

Brilliant prints have made their debut already this spring to take the place of the conservative travel picture which proved so popular last season. Gorgeous dresses which boast a tropical splendor with their brilliant reds or yellows placed attractively on a dark background. Flares and fitted waists predominate in the dresses.

The eternal question, how long will the skirts be? Spring fashion dictators decree that for afternoon wear the dresses will be from 11 to 12 inches from the floor, and for dinner wear they may be anywhere from 11 inches from the floor to the soles of the dainty slippers.

Of course, the knitted suit is still the ultra fashionable item for golf, which, when worn with a beret and the new sport oxfords with composition soles makes Madame play a bet for game of golf because she knows that she looks attractive when the crucial moment for a big drive arrives. If Madame is only watching the match, however, she may wear one of the smart tie or strap pumps with Cuban or boulevard heels in black or color combinations.

Spring coats are made individually this season with snappy collars and attractive colors including bright greens, reds, or blues, in a fitted coat with a tight belt at the natural waist line. Some of the coats are trimmed in silk, shiny lapin or galepan fur on the new basket weave, telga cloth, tweeds, or imported chunga cloth. The coats are sporty, but the tight fitted models add to the femininity of the garments.

Hats Tricorn Shapes... The hats are scarcely hats at all this spring, with a shallow crown, high in the forehead and the hair showing in sleek waves against the cheeks. Hats are tricorn shapes mostly and straw and lace effects being worn almost exclusively. Like the dresses and coats, the hats are tailored, simple, yet "dressesy."

As always the appointments make the costume, and the cravat which is worn with the sport coat, tied at the throat with decorated ends, adds a dash of note to the costume along with the light colored gauntlet gloves, the purse, and the new hose of light shades, tan or gunmetal to blend with the French heel pump, which goes with the street ensemble, and makes their wearier chic.

No Hi-Jacking in London... Vans of ordinary construction pass through the streets of London loaded with gold every week and extra precautions is not regarded as necessary. The Britishers attribute this to their superior civilization. Even the gold bullion that leaves the Rand goldfields in South Africa is carried in an ordinary train without any special guard and through some of the wildest country in the world. And yet on only two occasions since the goldfields were discovered has the train been robbed.

THE DALLES IS SUGGESTED FOR BOWLESTRIAL

PORTLAND, Feb. 6 (AP)—A statement suggesting The Dalles as the place to try the Bowles murder case was issued by the district attorney's office yesterday, accompanying the announcement that the state will not oppose the defense motion for a change of venue.

Hood River county is mentioned, the statement said, because it is more remote from Portland than other counties suggested. In an affidavit George Kowry, deputy district attorney, said that if public sentiment against Nelson C. Bowles and Irma Loucks is strong in Multnomah county, it must also be prevalent in Columbia, Washington, Clatsop, Clatskanie, Yamhill and Marion counties.

Disability Pay of Officials Limited

WASHINGTON, Feb. 6 (AP)—The senate yesterday adopted an amendment to the independent offices appropriation bill to prevent government employees with salaries of \$8000 or more from accepting retired officers disability pay.
