## LEGISLATURE ENTERS LAST WEEK TODAY

(Continued form Page One)

mittee Saturday with a favorable recommendation, along with amendments. The utilities bill, reported out of the house committee Friday night has not been placed on the calendar as yet.

In addition the senate bill considers the adverse report on Jay Upton's prohibition referendum, and although it is expected the recommendation of the alcoholic traffic committee that it do not pass will carry, the measure attracted several hundred people when it was the subject of a public hearing last week.

**Basic Science Bill Next.**

The basic science measure that is being opposed by drugless physicians and supported by medical doctors is the first bill to be considered when the senate convenes under special order at 11 o'clock. At 2 o'clock two bills, relative to the legal practice of corporations and trust companies, are slated under special order, while at 4 o'clock the Upton bill limiting the length of trains is a special order. This provision was recalled for reconsideration after having been approved the day before by a bare majority. A move to re-refer this to the committee to permit another public hearing has been started. Reconsideration was carried by an 18 to 12 vote.

The return of the intangibles tax collected under the 1929 law, since declared unconstitutional, will be considered on the floor of the house late in the afternoon under regular order. The bill is the 13th on Monday's calendar. The sum to be returned nears the $900,000 mark. The house also will consider, under special order, the advancing of the fair dates one week, the qualification of judges and tightening the restrictions on operators and chauffeur licenses. Five education bills are also on the calendar.

**Both Have Busy Schedules.**

The house has a total of 23 bills while the senate will consider 18. One public hearing, that dealing with chain store licenses, has been set for Monday night. No other hearings have as yet been scheduled, and committee chairmen state that with possibly one or two exceptions, all hearings have been completed. Night sessions are expected to be held the latter part of the week.

Two bills which have been the subject of controversies during virtually the entire session, were signed by Governor Julius L. Meier Saturday. These are the Rogue river closing bill, the first bill introduced in the senate the opening day, and the port of Portland commission election provisions.

**TWO GROUPS MEET**

SALEM, Feb. 16 (AP) — Committees of the Oregon and the Washington legislatures, meeting jointly in Portland Saturday to consider legislation affecting fishing in waters over which the two states have concurrent jurisdiction, failed to agree on an act for the definition of gear. It was agreed, however, that if either state wishes to adopt a law on the subject it may do so without affecting the other state.

It was further agreed to recommend that the gear question, along with any others that may arise, be referred to an interim committee from the two states which would be instructed to report to the 1933 sessions. This committee would comprise the Washington supervisor of fisheries, the chairman of the Oregon fish commission, two senators and three representatives from each state.

Other recommendations in the report are:

That all laws pertaining to commercial fishing in the waters and streams over which the states have concurrent jurisdiction shall remain unchanged.

That the Columbia river be open to angling at all times.

That there be a license fee of $5 for the commercial fishing of smelt in the respective states and a tax of one-half cent a pound on all commercially caught smelt.

That there be a tax of one-half cent a pound on every species of ocean-caught salmon, striped bass and sturgeon, excepting chums and dog salmon.

That the states adopt legislation to prohibit the sale within the states of any troll-caught salmon under 26 inches in length.

That at this time there be no adoption of any act providing for any change in the dead line now existing on the Upper Columbia river.

successive year.

The bill would provide $26 a month for a widow and one orphan of world war veterans, regardless of whether there was any service connection with the cause of death. It would provide $6 for each additional orphan and would exclude widows without children.

**PROHIBITION ARGUED**

WASHINGTON, Feb. 16 (AP)—Democratic differences over prohibition were aired in the senate today as southern senators gave notice that any effort of their national committee officers to commit the party against prohibition would be bitterly resisted.

The attack of the southerners turned on Chairman Raskob, of the democratic national committee, and Jouette Shouse, executive director.

Senator Morrison, of North Carolina, the national committeeman for his state, finally told the senate that if Raskob or "those responsible to him undertake to insolently fix the policies of the Democratic party instead of leaving these for the national convention they will be defeated."

Senator Sheppard, Democrat, Texas, co-author of the 18th amendment, started the Democratic row when he read a statement calling upon Shouse to support his claim that enough states already are against prohibition to insure action at the next convention against the dry law.

Senator Tydings, of Maryland, carried the anti-prohibition cause in the lengthy wrangle with Senators Black and Heflin, of Alabama, as well as Morrison joining in the attack on the wet leaders of the party.

Morrison denied that Raskob "has any influence or is a leader in our party."

**HOOVER GIVES RECOMMENDATION**

WASHINGTON, Feb. 16 (AP)—President Hoover today recommended to congress a $20,105,000 appropriation for public buildings under the $415,000,000 program authorized.

**JENKINS BILL APPROVED**

WASHINGTON, Feb. 16 (AP) — The house immigration committee today approved the Jenkins bill restricting western hemisphere immigration to 10 per cent of the existing quota annually.

The committee also reported favorably the free bill to limit immigration from the Philippines to 500 annually. Restrictions on Philippine immigration was omitted from the Jenkins bill, committee members said, to expedite action on the federal legislation.

**ASKS FOR TESTIMONY**

WASHINGTON, Feb. 16 (AP) — The senate today adopted a resolution asking the Wickersham commission to submit the testimony on which it based its prohibition report.

The resolution proposed by Senator Tydings, Democrat, Maryland, excluded testimony which the commission received in confidence.

## *BULLS REMAIN IN CONTROL IN WALL STREET*

NEW YORK, Feb. 16 (AP) — Bulls initiated a second week with vigorously rising prices in the stock market today.

While the movement lacked the violence of the early sessions of last week, several issues that are particularly responsive to bullish stimulation were bid up $1 to $3 a share, and Auburn auto was hurled up $16 to a new peak price for 1931 at $108, or $96.50 above its January low.

Trading was in fair volume, the day's transactions aggregating some 3,000,050 shares, but this compared to 4,100,000 to 4,600,000 shares daily in the first three days of last week. Nevertheless, bulls were encouraged by their ability to revive the advance, after the period of hesitation last Friday and Saturday.

## Ash Wednesday Ushers In Lent; Easter Apr. 5

The forty days of fasting and prayer which Christ spent in the wilderness will be commemorated again during the Lenten season, the forty days preceding Easter, April 5, and beginning with Ash Wednesday, February 18 will usher in the period of preparation for the Easter festival, the season of spiritual discipline, with services at both the Episcopal and Catholic churches.

The forty-day fast at St. Peter's Episcopal church will be ushered in with a service at 10 with Litany, penitential office, and Holy Eucharist. Throughout Lent, meditation services will be held at 3 o'clock. At the Church of Our Lady of the Valley, Rev. Father O. Nooy announces the regular Ash Wednesday service at 8 o'clock Wednesday morning, and Lenten services every Wednesday and Friday evening at 7:30 throughout the season.

Since to the Catholic, Lent is a season of reflection and sacrifice, members are expected to fast, to forego social gatherings and entertainments until the end of the 40 days (Sunday, which is not a fast day, excluded) or the first Sunday after the full moon following March 21. This custom of gauging Easter day by the moon comes from the practice of the Hebrews of keeping the passover, and this moon is called the Paschal moon.

Ash Wednesday derives its name from the custom of the early Hebrew church to sprinkle ashes upon the heads of the penitent on the first day of Lent since ashes are associated with humility and penance.
