

OVER THE VALLEY

Mabel E. Morton, Valley News Editor
Phone: Residence, Main 966; Office, Main 000

Chie Meeting. Temporary chairman of the Union County Grange association, is calling a meeting of the fair board to work on the plans for this year's fair, for Thursday afternoon at two o'clock at the office of Harry G. Avery, county agricultural agent, in the postoffice building. It is announced that new officers are to be elected at that time. Mr. Woodell, who lives in the Lone Star district, is the three-year man on the board, and he is the representative from Pleasant Grove Grange. R. S. Comstock, of Mt. Fannie Grange, is the two-year man and J. E. Witherspoon, master of the grange organization on Cricket Flat is the one-year man. Each grange is supposed to have one representative on the board. A. F. Bowman, of Wolf Creek, Frank Whitton, of Medicine Springs, Charles Moore, of Rock Wall and Roy Gekeler, of Blue Mountain are the other representatives. Mr. Gekeler, who has been back of the movement since its inception, has put in more time and thought on the project perhaps than any other granger, is the secretary of the board. The fair, held last year at the Grange Inn, was pronounced an outstanding success, it is recalled and those who are working on this year's fair are beginning early that the 1931 show may be even more successful than the last year's. The fair is to be held on the fair grounds in Union county.

Have Party. At the home of Mr. and Mrs. Ernest Gray, lower Cove, the young people of the lower Cove Grange Sunday school enjoyed an oyster supper last Friday evening. Twelve were served the delicious supper at eight o'clock. Games were played the rest of the evening.

Outlook for Hogs. At the recent economic conference, H. A. Lindgren, of the extension service, gave some figures in regard to hog raising. He stated that there were only 22 million hogs at the present time in comparison with last year's 28 million, which is the average normal supply. 1931, according to Mr. Lindgren, looks favorable to hog men. The tendency in Oregon is to increase the number of brood sows, and following that statement he said that an insufficient number has been produced in this section. Cheaper grain is expected to rapidly make up this shortage. The costs of production are down, and the price of the stockmen, Mr. Lindgren said, supplies are much cheaper, labor is lower at the present time. Investment cost, however, is still relatively high and this must be lowered to meet the lower price products.

Has Blood Transfusion. Mrs. Fowler, of the Allice-Imbler highway, is a patient at the Grange hospital, where she underwent the first of a number of blood transfusions the latter part of the week. Her son, Robert, came recently from Twin Falls, Idaho, and donated the blood for his mother. Mrs. Fowler has been in quite serious condition.

To Portland. Mrs. Clyde Myers, of near Summerville, has gone to Portland where she is the guest of her sister-in-law, Mrs. Myers and is receiving some medical attention while there.

Visit Parents. Mrs. Lynn Hasbrouck of Portland has been visiting at the home of her parents, Mr. and Mrs. Pryor at Imbler. She was accompanied by her two charming youngsters, who always keep things interesting and lively at the Pryor home.

His Dairy Cow. Russel Wade bought 10 dairy cows from the Charles Thornburg herd at a reported price of \$1250. For this he has his pick of the herd. Mr. Thornburg's large herd is always growing and he found this winter he had more than he could care for, and so he sold off the ten cows to make room for the others which are coming on—Record-Chief.

Taxpayers to Meet. Taxpayers in the valley are urged to remember the meeting of the County Taxpayers League, called by Mrs. Walter Peirce for next Saturday afternoon at 2:30 o'clock at the Sacajawea Inn. Problems of present, vital importance are to be discussed and all interested are asked to attend and enter into the discussions.

Visit Relatives. Mr. and Mrs. Wayne Frizzell, Mr. and Mrs. Victor Johnson, and Ray Johnston, all of Pleasant Grove, drove to Walla Walla county last week and were guests of their relatives in that county. One day, in company with Mrs. J. P. Gillespie of Walla Walla, they visited at the Ed Glenn home in Lostine. Mrs. Frizzell, Mrs. Gillespie and Mrs. Glenn are sisters of the two Johnston brothers.

Entertainers Class. The members of the class at the Island City community church taught by Mrs. Garretson Blokland enjoyed a polka supper at her home Friday evening. This class is made up of young people of the high school age and they have such good times together. After the supper and singing, the group witnessed the basketball game in La Grande.

Had Quadruplets. Mrs. H. A. Gaskill, of Allice, who is busy now with lambing season, on experience last week which is most unusual, to say the least. One of the registered ewes, which she had bought from near Elgin, had twin lambs one day last week, and within 32 hours after these were born, the ewe gave birth to two more lambs. None of the four animals lived. Lambing is quite successful thus far with the three bands which Routh is caring for and the percentage, low at first, is way past the 100 mark at the present time.

The Cove Strife. Shirley Blackfolk, of Cove, was added to the list of Cove sick folks at Hot Lake, Friday evening. He has been suffering from appendicitis but an examination revealed that the chief trouble was bad tonsils and he was removed from the hospital, according to our informant, Keith Hallmark is reported as being about the same with no great improvement being noted. Dr. Phy has diagnosed his case as poisoning from infected fruit juice. Mrs. Loree has been steadily improving since the last operation and Robert Coad was reported as not doing quite so well.

Family Together. In spite of being confined to her bed at the Grande Ronde hospital, Mrs. W. R. Ledbetter, of near Allice, had a wonderful day Sunday because she had all of her family here for the day. Ray from Baker, Ruby from Muddy Creek, Eva from Lewiston, Idaho, Edna from Weston, Glen from Salem, Marie from Salem and Lyle. Ray returned to Baker Sunday evening, and Mrs. Ruby Leoney to Muddy Creek after having spent the past ten days in the valley. Edna returned to Weston yesterday morning. The rest will stay for a longer visit.

Specialist Here. H. A. Lindgren, of the extension service of the state college, spent a short time in the valley last Saturday.

A SEASONABLE RECIPE

BUTTERSCOTCH SQUARES
1/4 cup butter
1 cup brown sugar
1 egg
1/4 cup flour
1 teaspoon baking powder
1/2 teaspoon vanilla
1/4 cup nut meats (pecans preferred)
Cook butter and sugar together until smooth and well blended. Cool to lukewarm. Add egg, vanilla and beat well. Add flour sifted with baking powder, then vanilla and nuts. Spread in pan lined with paraffin paper. Bake in a moderate oven. Turn out of pan and cut in squares.

day on his way from Enterprise, where he had been speaking at a series of farm meetings.

Grange to Meet. The regular meeting of Pleasant Grove Grange will be held at the hall this coming Saturday evening, February 21. Professor Johnson of the Imbler High school will show a group of slides of scenes at Yellowstone Park. The home economic committee will serve a lunch. Plans are being made for a general good time and all members are asked to make a special effort to be present. The grange gave one of its very best dancing parties last Saturday evening and the affair was enjoyed by a large crowd.

Dinner Guests. Mr. and Mrs. Jim McKinnis near Summerville had for their guests at dinner Sunday, Mr. and Mrs. Brook Galloway, Cecil Galloway, Mrs. B. Burroughs, Mr. and Mrs. Charles Bean and Jane Hathorn, all of the Rock Wall neighborhood above Elgin.

Out Again. Miss Lillian Knauts of the Iowa district is out again after her recent illness.

Enjoying Home. Mr. and Mrs. Frank Wade of the Mill creek canyon, above Cove, who lost their home by fire about a year ago, and which they replaced with the Aladdin bungalow, are very comfortable and happy in their new home. It is larger than the structure which it replaced and is more comfortable in every way. The Wades had splendid success with their ever-bearing strawberries last fall. They have quite a sizable berry bed which had excellent fruit until the last of November. There was no difficulty encountered in marketing the crop, the two La Grande hotels taking the major part of it.

Ill. It is reported that Homer Littleton, aged valley resident, of the Allice vicinity, who moved into La Grande for the winter months, has not been so well the past few weeks.

In La Grande. Mrs. J. A. Gaskill of near Imbler has been staying in La Grande with her daughter, Mrs. Walter Hutchison, and assisting in the care of the new son in the Hutchison household.

Dinner Guests. Mr. and Mrs. Delbert Anson who live east of Island City had for their dinner guests Sunday at their home, Mr. and Mrs. John Dahlstrom and daughter, Della Jean of Moss Chapel.

Ill of Flu. Harry Fisher who lives near the Cove, is reported as being ill of the flu. Mr. Fisher has been bedfast since Sunday.

To Seattle. Mrs. O. W. Barlow of the Elgin Grangehouse, was called to Seattle recently by the serious illness of her father, Mr. Jay, a gentleman over 90 years of age.

Club Meets. Mrs. Albert Hamann, Mrs. Will Taylor and Mrs. Lon Ayers, all of the valley, were the hostesses to the Countrywomen's club when it met

Declamatory League Has First Meet

Much interest has been manifested over the valley in the recently organized County Declamatory League and the prospect of approaching contests has been received with little enthusiasm in the schools of the county. A detailed report of the meeting held Saturday in the office of the county superintendent of schools, E. A. Sayre, is given us as follows:

The directors of the Union County Declamatory League held their first meeting in the court house Saturday forenoon, February 14, 1931.

It was decided to hold the sectional contests in the different zones Saturday evening, March 28th. The final contest to be held in the auditorium of the Eastern Oregon Normal school. The final contest for the elementary grades will be Friday evening, April 3rd, and for high schools, Saturday evening, April 4th.

It was decided to finance the contests without charging admission to the public. The county is divided into four zones or sections. Zone one is La Grande with Herbert Evans, director. Zone two is composed of Union, Cove, North Powder and adjoining districts with C. C. Springer, director. Zone three consists of Elgin, Imbler and adjoining districts with J. W. King, director. Zone four includes all school districts not in any other zone with Island City as the meeting place. Prof. John Wortman is director.

The county school superintendent was authorized to confer with county superintendents from Morrow, Gilliam and Umatilla counties and make arrangements for an inter-county declamatory contest. A meeting of these county superintendents is being held in Arlington, Tuesday, February 17th.

Announcement will be made from time to time through the public press of the county concerning declamatory contests.

A TYPICAL BAND OF UNION COUNTY SHEEP

The sheep industry in this county has been given great publicity the last week through the discussion of the Eighth Annual Economic conference, and also on account of the recent organization of the Woolgrowers' auxiliary, whose sole purpose is the giving of any assistance in the

COVE 'HILL BILLY' COMPARES PRESENT AND FORMER DAYS

"Hill Billy" from the vicinity of Cove continues the sketch started last week concerning the earliest pioneers and his attractions to the valley as follows:

Now I wish you had been with me on top of China Cap one night some time ago and had seen the lights from La Grande and the little towns surrounding—the lights of the big fields—the beacon lights that mark the Varney Air Line, the "Highway of the Sky" some lights of moving automobiles through a labyrinth of smaller lights from the thousands of homes. The scene was like looking into a mirror lake reflecting the sky on a bright starry night and to this adding a fantastic phenomena engrossing the scene. Beacon lights ever turning as if we could see the master of heavy machinery revolving—locomotive headlights moving, some straight line—then it seemed to me that millions of auto lights were traveling in every conceivable direction looking as if the sky had gone wild with shooting, falling stars and meteors through a field of twinkling smaller lights—the fixed stars—the center of each little world—the units—the homes of our "Great Grande Ronde Valley."

There by the light and warmth of my little fire on that high mountain peak of heavy machinery revolving—locomotive headlights moving, some straight line—then it seemed to me that millions of auto lights were traveling in every conceivable direction looking as if the sky had gone wild with shooting, falling stars and meteors through a field of twinkling smaller lights—the fixed stars—the center of each little world—the units—the homes of our "Great Grande Ronde Valley."

There by the light and warmth of my little fire on that high mountain peak of heavy machinery revolving—locomotive headlights moving, some straight line—then it seemed to me that millions of auto lights were traveling in every conceivable direction looking as if the sky had gone wild with shooting, falling stars and meteors through a field of twinkling smaller lights—the fixed stars—the center of each little world—the units—the homes of our "Great Grande Ronde Valley."
