

# OVER THE VALLEY

Mabel E. Morton, Valley News Editor  
Phones: Residence, Main 966; Office, Main 600

**Celebrate Birthday**—Last Sunday in honor of the birthday anniversary of John Gekeler on Cricket Flat, a group of relatives gathered to spend the day and share in a family dinner at noon. A fine dinner was served by Mrs. Gekeler, which, of course, did not fail to include in its list of good things the lovely birthday cake. It was a very enjoyable day as told by those present—Mrs. James Wickens and sons, Henry, Ray and Lloyd; Mr. and Mrs. Harold Blanchard and daughter, Colleen; Mrs. Sarah Gekeler and sons, Walter and James; Mr. and Mrs. John Gekeler and children, Dorothy and Wendell and Mrs. L. E. Perin.

**Attend Debate and Then?**—Miss Mae Hileman and Miss Theilman Anderson, teachers in the Cove school and Miss Margaret Hubbard, a student at E. O. N., attended the Pacific University-E. O. N. debate at La Grande Monday evening. As they prepared to enter their car after the debate to return to their home at Cove they discovered that some one had let the air out of all four tires on their car.

**Have School Meeting**—A school meeting was held at Shanghai school the first of the week to elect a director to fill the vacancy on the board caused by the recent death of A. E. Hartley. John Miller was chosen for the office. Mrs. Thelma Miller, who has been a very successful teacher at Shanghai this year, was reelected for another year's teaching.

**Visiting**—Mr. and Mrs. Charley Hanson and children of Lostine are making a visit at the home of Mrs. Hanson's mother, Mrs. Amanda Wagoner, at Summerville.

**Mrs. Woods' Birthday**—Members of the Wallinger connection arranged a surprise on Mrs. Kate Woods in La Grande last Sunday, in honor of her birthday anniversary. They took their dinner with them and had a wonderfully good time, it is reported. The company of relatives who spent the day together thus were Miss Bertha Wallinger, Mr. and Mrs. James E. Moss, Mr. and Mrs. Tom Wallinger, Mr. and Mrs. Will Adler and daughter, Genevieve, Mr. and Mrs. Ray Fuller and son Dickie, Mr. and Mrs. Irwin Moss and daughter, Janie, and Mr. and Mrs. Clay Woods, together with Mrs. Kate Woods.

**Move Into New Home**—Mr. and Mrs. Grant Conley, recently married, are now at home in their own house, which has been remodelled and rented for their occupancy. The place was formerly owned by Jabe Conley and is near Cove.

**Dinner Guests**—Mr. and Mrs. E. B. Long entertained at dinner Sunday at their home north of Summerville. Mr. and Mrs. Frank Woodell, Mr. and Mrs. Wayne Park and Mrs. E. Sanderson.

**Have Whooping Cough**—The children of Mr. and Mrs. S. T. Ballie, who live on the Island City-Cove highway, have been among those who have been having whooping-cough. This has not kept the children from Sunday school however. That is because a rather fine

idea was hit upon when the two Hertzog youngsters, Dick and Don, contracted the disease and had to stay at the parsonage—a class was held for the "coughers" and last Sunday it is reported that attendance was 11.

**From Seattle**—Mrs. Earl Robinson of Seattle is making a visit in the valley, the guest at the home of her parents, Mr. and Mrs. Lee Childers, on the lower Cove market road. Her mother, Mrs. Childers, has been having quite a serious time with some antrum trouble.

**Returns Home**—Mrs. Melvin Loree returned to her home at Cove Wednesday from Hog Lake where she had been for so long a time. Mrs. Loree had to undergo two operations while at the lake but is now well on the road to recovery. Her friends are very glad to hear of her return home.

**Observe Wedding Anniversary**—A very pleasant evening was spent at the home of Mr. and Mrs. Elmer Daron in Willowdale, Tuesday, February 24, when 31 of their relatives and friends gathered, surprising them on their thirtieth wedding anniversary and also celebrating a sister-in-law, Mrs. Tom Mullenburg's, 25th birthday. The surprise was arranged by Mrs. Mullenburg, the mother of Mrs. Elmer Daron. The evening passed quickly, too quickly, with games, music and visiting, after which some refreshments were served.

**Ill**—According to the Oregon State Barometer, Miss Frances McKennon, daughter of Mr. and Mrs. Frank McKennon of the valley, is in the infirmary at Corvallis, ill of the flu.

**The Cove Library**—The report given by Mrs. Nellie R. Grace, librarian of the Cove city library at the last meeting of the Woman's club shows a grand total of 3,213 books loaned during the year. The report is as follows: adult fiction loaned, 1,566; adult non-fiction, 432; total books loaned to juveniles, 1,263. The report also shows 69 new readers for the year, 23 adult and 28 juvenile. Twenty-seven of the new readers are from outside the corporate limits of Cove.

**To Portland**—Mrs. Claire Hamilton and her son, Wellington, left the valley Tuesday for Portland and are spending a few days there with relatives. The Hamilton home is near Summerville.

**Portland Guest**—Mrs. C. H. Bidwell of Island City has as her guest at present her sister, Mrs. Foster, of Portland.

**Achel Aid**—Members of the committee are making the arrangements for the meeting of the Achel Ladies aid society, which is to be held on Thursday, March 19, at the home of Mrs. Everett Wallinger in the Valeria neighborhood. The committee for this month consists of Mrs. Wallinger, Miss Emma McAniah, Mrs. Harry Fisher and Mrs. Herbert Speckhart.

**Remains in Valley**—We have not been able to see John Wells Sr. recently but we

learn that his long record for attending sessions of the state legislature in Salem was broken this year as Mr. Wells was unable to make the trip to the Willamette valley. Mr. Wells has been going down to the capital city for many years now, staying with a daughter in that vicinity and watching with keen interest the doings in the legislative halls. Mr. Wells' health is as rugged as his friends would wish.

**Have Dinner Meeting**—Members of the T. & C. club had an exceptionally enjoyable party recently, when the men entertained the women at dinner at the La Grande hotel and later an evening at cards was enjoyed in the gold room. It seems that the scores are kept throughout the year by this club, and which ever group, men or women, have the lowest combined scores at the end of the year must arrange for such a party as this one was. And the men did well—the women say. During the evening, Mrs. Louie Standley made the high score and the woman and August Erickson for the men.

**Improves**—Mrs. Irwin Moss of Alicel, who has been ill, is very much improved at this time.

**Resumes Work**—Lyle Ledbetter of Alicel has gone back to his work with the county highway shops, after having been laid off for a month on account of illness and a necessary operation.

**It's Spring**—It surely is out in the valley, as elsewhere in Eastern Oregon. Quite a little plowing has been done this week in various sections, the bluebirds are back in great flocks, and the women are cleaning house. Unmistakable signs—all of them.

**Mastoid Operation**—Merton Taylor, the young son of Mr. and Mrs. W. E. Taylor, who live on the Island City-Cove highway, underwent a mastoid operation yesterday at the Grande Ronde hospital. Dr. Ralston being the surgeon. He is reported to be doing well following the operation.

**Have Lots of Fun**—The Nissaki group of Camp Fire girls, of Cove, gave a paper chase instead of their regular meeting Tuesday evening. The girls were divided into two groups, one group scattering the paper, the other following the trail which led them a merry chase, ending at the swimming pool where all the girls indulged in a treat of all-day suckers, peanuts and punch.

**Have Quilting**—Mrs. Everett Wallinger and her mother, Mrs. DeLong, gave a small quilting Wednesday afternoon at the Wallinger home, work having been done on the beautiful "Friendship" quilt. In the company were Mrs. S. McAniah and daughter, Miss Emma, Mrs. Harry Fisher and son, Jay Newton; Mrs. Mayme Speckhart.

## Wallowa Folks Wonder About Future Weather

G. C. Meek writes this week about weather conditions in the Wallowa vicinity, saying that the extreme evenness of temperature and general weather conditions which have been experienced over this section of the country and which are still continuing, are somewhat of a surprise to many who have been looking forward to some very disagreeable weather to follow the greater part of the winter season which has passed with but little storm or other disagreeable conditions. While rather hard freezing is still occurring at night the days are most pleasant with warm sunbeams causing a considerable thawing of the snow and frozen ground. The frost is said to be leaving the soil in many places at this time. This is most noticeable in cultivated fields which are breaking through in many places where stock travels over them. Much of the higher sections of the community is still blanketed with from eight to ten inches of solid snow and the most of the wells and springs which were low during the entire winter have filled brim full, which would indicate that considerable moisture from the melting snow has found its way into the soil despite the fact that there has been considerable frost in the ground.

Farmers feel that with the frost getting out now that the moisture from the present supply of snow together with storms which are likely to occur yet before settled spring weather comes, will no doubt provide plenty of moisture to make crop conditions as good as normal. Many of the dirt roads in this section are becoming quite deep in mud at this time. Cars have been in use on many of the outlying roads during this winter, however, and at this time about the only way in which cars can be used on many of the roads is to go early in the mornings before the ground has become thawed.

About the usual amount of feeding is still necessary for all classes of livestock except horses, many of which are ranging in the bunch grass pastures at this time and doing fine. Much of the south slopes in the foothills are practically bare of snow at this time and the new grass which got a fairly good start last fall is said to be growing some and in a few instances sheep owners are ranging their sheep on these pastures at this time. Farmers in some instances are finding it difficult to find suitable feeding places because of soft muddy ground and more feeding is being done in racks and mangers to prevent waste of feed.

**A SEASONABLE RECIPE**

**BURNT SUGAR CAKE**

1 cup sugar.  
1 cup sour cream.  
1 egg.  
1 teaspoon soda.  
1 teaspoon baking powder.  
2 cups flour.  
3 tablespoons burnt sugar syrup.  
½ cup nut meat.  
½ cup dates ground.

Beat egg with sugar until light. Add sour cream, then soda dissolved in boiling water. Add salt and baking powder to flour and mix twice. Add to the cake. Then add the burnt sugar, nut meats and dates which have been sifted with some flour. Bake first cake with filling of one cup light brown sugar and two egg whites. Boil sugar until it spins a thread and pour over beaten egg whites. Beat until thick enough to

## Co. Declaratory League Gives Contest Rules

From the office of the county superintendent of schools is issued, this week, the rules which are to govern the approaching declaratory contests to be held in the county and entered into by schools of all sections. The plans, rules, etc., are given as adopted as follows:

The directors of the Union County Declaratory League have set Friday, March 27, 1931, at 7:30 p. m. to hold the local contests over the county.

The county contest will be held April 3 and 4, 1931, in the auditorium of the Eastern Oregon Normal school in La Grande. The elementary contest (divisions 2 and 3) will be held Friday, April 3, at 7:30 p. m. The high school contest (division 1) will be held Saturday, April 4, at 7:30 p. m.

The Inter-County Contest between Gilliam, Morrow, Umatilla and Union counties will be held at Arlington, Saturday, April 18, 1931, at 7 p. m. The schools of the county are divided into divisions according to grades, for these contests.

Division I consists of all high schools in the county. The contestants in this division may take part in extemporaneous dramatic or humorous selections. Time limit on delivery is 12 minutes. You are entitled to three representatives.

Division II consists of grades 6, 7 and 8. Contestants may take part in humorous and non-humorous selections. Time limit for delivery, 6 minutes.

Division III consists of grades 3, 4 and 5. Contestants may take part in humorous and non-humorous selections. You may have two representatives from this division; one humorous and one non-humorous. Time limit for delivery, 6 minutes.

Selections may be obtained from any source. Selections may be either prose or poetry. If you are limited on material to select from, send for catalogue to:

Ivan Bloom Harden Co., Des Moines, Iowa.  
Wetmore Publishing Co., Sioux City, Iowa.  
Lowman Hanford Co., Seattle, Washington, 918 E. Pine St.

For local contests the county is divided into four zones, or districts. District one will hold its contest in La Grande. Herbert Evans, principal of the Riviera school, is the director in charge of the contest. District two will hold its contest at Cove. C. G. Springer, principal of the Cove school, is in charge of the contest. District three will hold its contest at Imbler. J. W. King, principal of the Imbler school, is the director in charge of the contest. District four will hold its contest at Island City. John Wortman, principal of the Island City school, will have charge of the contest at Island City.

Gold medals will be given for first prizes in the county contest. Ribbons will be given for second and third places.

The public is invited to attend all contests, which will be open and free to the public.

Contestants shall not be allowed to use make-up or use stage setting. Now is the time for the schools to get busy. Shall we have the cooperation of the teachers?

All entries will begin on time.

Yours truly,  
E. A. SAYRE,  
County School Superintendent.

**Build Milk House**—Harry Fisher is building a new milk house, adjacent to the cow barn on his dairy ranch near Cove. Mr. Fisher is now milking around 14 or 15 cows, and has installed a two bucket surge milker to assist with the heavy work. Mr. Fisher is greatly improved from his recent attack of the flu but has not gained all of his strength back yet.

**Have Quilt Show**—And why not? All over the valley women are making quilts of all designs and some are exceptionally beautiful. If all the quilts—the outstanding ones—made in the valley during the winter last past, could be gathered together, what an exhibition it would make! So yesterday at the gymnasium at Cove the Women's club had a quilt show, with many lovely pieces of handwork displayed. They served tea and cakes to add a little to their club treasury.

**Weather is Favorable**—G. C. Meek of Wallowa, writing about lambing conditions in that section at the present time, writes as follows: Sheepmen of this section are exceptionally well pleased with present conditions which, which they say, are ideal for lambing. Many new lambs are arriving at a considerable number of the local (Continued on Page Eight)

## Outlook Report Points Toward Better Business

With the improvements in business conditions which seems fairly certain during the 1931-32 marketing year, the demand for farm products is also expected to increase, says L. R. Breithaupt, economist of the Oregon extension service here, who has just released the Oregon Outlook report. It is in the section on the first dealing principally with livestock enterprises, and the second the crops and horticulture outlook.

The Oregon report, based on information gathered from every county of the state in addition to the conclusions of the national outlook conference, is available in mimeographed form from county agents underwritten by the state college. Copies of comments on the report by local specialists in the various divisions will be distributed from the same sources.

Although improvement in poultry prices may not reasonably be expected before late in 1931 or early 1932, successful commercial poultrymen of this state will do better to increase rather than decrease their flocks, believes A. G. Lunn, head of the poultry department. Feed, building and labor costs are low, he explains, and volume of production is necessary to return a profit in competition with other favored sections.

The comment by P. M. Brandt, head of the dairy department, was to the effect that "in general dairy expansion in Oregon should be recommended only where production costs are favorable." He points out that an accurate, careful check on production costs by individual dairymen is now of more importance than ever. Many Oregon dairymen, he says, have already reduced production costs to the point where satisfactory profits are obtained even under present conditions, while other could not make dairying profitable if prices were doubled.

Outlook for turkeys, beef, cattle, hogs, sheep and wool, molar, and a number of other commodities are also reported in the first section of the report, while the second deals with wheat and other farm crops.

## Build Milk House

Harry Fisher is building a new milk house, adjacent to the cow barn on his dairy ranch near Cove. Mr. Fisher is now milking around 14 or 15 cows, and has installed a two bucket surge milker to assist with the heavy work. Mr. Fisher is greatly improved from his recent attack of the flu but has not gained all of his strength back yet.
