THE BEST CANDIES - - TOBACCO'S

We'll buy your biscuits and pay cash!

On every tin of Schilling Baking Powder you will find this printed statement:

"If you find any fault whatever in this baking powder, or think you do, your grocer will return your money and also pay for the eggs, butter, flour, etc., you have used."

Whether it's a 25c pan of biscuits or a \$3.00 fruit cake, that offer stands. Your grocer pays you instantly. We pay him. He knows all about it. Ask him.

Your baking powder is the most important thing in baking. Above all else, it's got to be sure. It's got to be sure, to carry such a guarantee as you find on the Schilling tin. It's the cream of tartar in Schilling. That's the secret. Cream of tartar, not cheaper substitutes. Look on your baking powder tin. See if you can find the words "cream of tartar" anywhere. It's important!

THE PROBLEM:
A mail order house advertises to sell you \$20 worth of merchandise on their easy payment plan — as follows — \$4.00 cash and \$4.00 per month for four months. They add what they term "A Small Carrying Charge" of \$2.50 for this privilege. What rate of interest do you pay?

\$50 In Cash Prizes
For the Best Answers to this Problem

1st Prize \$25 2nd Prize \$10
For the Three Next Best Answers \$5 Each

The above prizes will be awarded for the best answers submitted to this problem together with a letter giving the best criticism of this plan in relation to the following:

- Does the rate of interest charged reconcile with the statement that only a "Small Carrying Charge" is added for the privilege of credit?
- Do you effect any real economy when called upon to pay a carrying charge of this amount?
- Is not this carrying charge excessive and out of proportion to any convenience extended for time payment?
- What amount would you save if you bought this merchandise at Carr's on the same payment plan? We charge one per cent per month on the unpaid balance at that time.
