PROLIFIC EWE--A RECORD LAMB CROP

How Ewe's Women-- Mrs. and Mrs. James E. Mann, of La Grande, and their relatives from different sections of the valley at their home for an Easter Sunday luncheon.

Very ill-- Mrs. A. R. Dinkel, of near the Cove, was very ill and taken to the La Grande hospital.

Club to Meet-- The Priscilla Sewing club will meet with Mrs. Claude Woodall of the Lone Star district next Thursday afternoon.

Day With Relatives-- Among the dinner guests which Mr. and Mrs. Logan Anderson and family, of the Cove, had on Easter Sunday were Mr. and Mrs. Harry U. Myers and Roxie Phillips of La Grande.

Wife Mother-- Miss Esther Hokland, who is one of the teachers at the Wolf Creek school, came into the valley to spend the Easter vacation at the home of her mother, Mrs. Andrew Hokland, of near Island City.

Ask Postponed-- The regular meeting of the Alford Aid society which would have come this week, Thursday, has been postponed until Thursday of next week, April 15, and will be held at the home of Mrs. Paul Knutsen in the lower neighborhood.

Have Easter Feast-- A group of neighbors and relatives held a picnic Easter Sunday at the home of Mr. and Mrs. Burt Oliver at Dry Creek. That it was a very happy day for all concerned, is the report which reaches us. Those who were present in addition to the members of the Oliver family, were Mr. and Mrs. Press Pugh, Mr. and Mrs. Leo Maderer and family, Mr. and Mrs. Edw. Sanderson, Mrs. Paul Knutsen, Mrs. Sanderson and daughter, John Shopp, Edward Bowen, Frank Oliver, all of Dry Creek, Mr. and Mrs. Wayne Park, Hugh Park, Mrs. Park, Mr. and Mrs. R. L. Long, Art Weaver, Clifford Wagner, Mrs. E. Sanderson, of Summerville, Mrs. Hobbie and her mother, Phyllis and Verne Sanderson of La Grande and Martin Woodall of Lone Star.

Organizes Club-- Harry G. Avery, county agricultural agent, and Harry Wood of Wolf Creek grange, organized a 4-H pig club at North Powder recently. The officers of the club are: president, Billie Charnell, vice president, Harold Atterberry, secretary, Duncy Atterberry, Harry Nide is the local club leader. Members of the club are: Albert Johnson, Harold Atterberry, Billie Charnell, Harold Henderson, Danny Gray, Harry Nide, Margaret Knutsen, Knute and Gert Carver.

Wife's Return-- Mr. and Mrs. John Dahlstrom and daughter, Dorothy, took Mrs. Dahlstrom's mother, Mrs. C. Dahlstrom, to her home at Olive Creek recently. Mrs. Dahlstrom had been visiting in this valley for the last ten days. On Monday they drove out to their home.

One of the major problems of sheep-raising was solved at the E. E. Dowdell ranch near Woodland, Cal. who recently gave birth to six healthy lambs to a cross in sheep raising, Bobby Johnson, a son of the ranch foreman, took on in wonderment.

The new daughter at the home of Mr. and Mrs. Claude Daugherty, Mrs. Daugherty and Mrs. Dahlstrom are sisters.

Monday Visitor-- Gordon Wright of Baker, drove into the valley Sunday and was a guest of his cousin at the Ledbetter home. On his return to Baker he was accompanied by Ray Ledbetter, who had been called here by the death of his mother.

To Portland-- Mrs. Milo Hokland had charming little daughter, Betty Jean, left during the weekend for Portland where they will join Mr. Hokland and make their home. We wonder how the two getting grandmothers can keep house without Betty Jean looking for little early read in occasionally. Some newspaper reporters will miss her, too.

Purchase Fairgrounds-- Mr. and Mrs. Harold Van Vleck have recently moved to Elgin from near Imbler which had been their home. They have purchased the old fairgrounds property, have removed the old fence which enclosed it and have started plowing. The buildings belonging to the fairgrounds, including the old grandstand will be torn down and replaced by modern modern farm structures. It is reported, a residence will be erected along the highway, adding very much to the attractiveness of that part of town. The Van Vleck's are descendants of Elgin some years ago when he was in charge of the Eastern Oregon Light & Power plant there.

In Valley-- Mr. and Mrs. Frank Loening, Carl Loening and Miss Edna Poole of Muddy Creek were among those who drove into the valley Saturday to attend the funeral of the late Mrs. W. R. Ledbetter.

A SEASONABLE RECIPE

ESTATE ONIONS 5 or 6 1/2 inch white onions. 1 cup ground meat. 1/2 cup white sauce. Buttered bread crumbs. Mix the onions in salt water till tender. Drain and remove to casserole and cover with white sauce and ground meat well blended. Heat with a little pepper and cover with bread crumbs. Brown nicely.

Fruit Sprays Outlined By County Agent

In his recent bulletin, county agricultural agent, Harry G. Avery, has outlined a spraying program for fruit trees which should give the grower the best local fruit growers. The list includes sprays for prunes, cherries, apples, peaches and the cherry fruit.

Prunes-- Should be sprayed before buds open with lime sulphur. 1 part of liquid solution to 8 parts of water, to control red spider. 25 sprays appear during the growing season. Spray with lime sulphur, 3 to 400, or use nicotine sulphate, 1/2 of a pound to 100 gallons of water, adding 5 pounds of fish oil soap.

Cherries-- For cherry fruit fly, use poisoned bait, arsenic, 1/2 pound, spray, or malathion, 3 quarts, and water, 8 gallons. Three applications should be made, the first when the flies first appear at about the time the Royal Annet buds open, the second 10 days later and the third a week later. Rain will necessitate repeating this spray.

Apples and Peaches-- Dormant spray, 1 part liquid lime sulphur to 8 parts of water (for control of scale, blight, mites, spider mites). Apple Leaf Roller, miscible oil, 3 to 100. Codling Moth, First spray (Calyx spray). When the last petals fall, lead arsenate, 2 pounds to 100 gallons of water.

Apples and Peaches-- Second spray (lat cover spray). This spray should be timed to approximate the time when the worms are hatching. Checkerspot provided with a thermometer, read on this accurately. Spray from 10 to 15 days after the temperature in your orchard reaches 50 degrees at 8 p. m. Later sprays. Most apple growers will attempt to control worms with only two arsenate sprays in order to avoid having arsenate residue on the fruit.

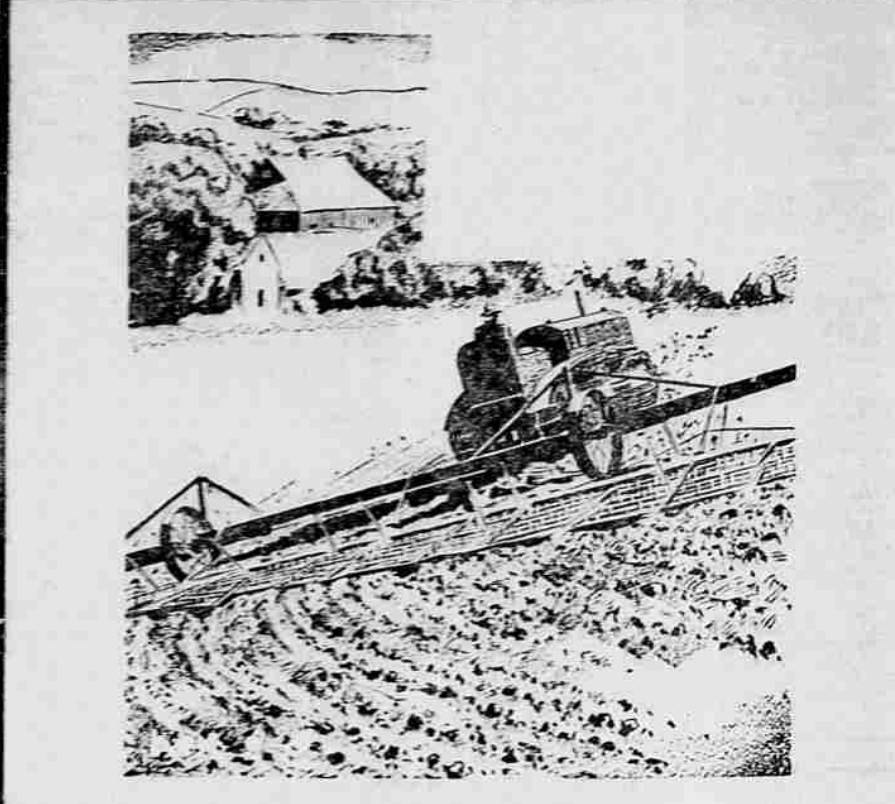

Perfect Process-- Cherry juice in this valley, especially those who sold their Royal Annet, for marachino purposes. Will be interested in a story which has recently come from the state college and other white cherries in Oregon is announced by the horticultural products division of the Oregon State college experiment station. The process is the result of two years research by H. E. Wiegman, head of the division, and D. E. Sullivan, assistant chemist.

Fire Destroys Big Hotel and Cottages-- The hotel from Manhattan, hotel, largest summer holiday at this resort, and six cottages were destroyed by the fire yesterday. The hotel, owned by the Hawaiian Hotel Co., was destroyed by a fire which started in the kitchen. The fire spread rapidly and destroyed the hotel and six cottages. The hotel was a large building and the fire was very intense. The fire started in the kitchen and spread to the rest of the building. The fire was very intense and the building was completely destroyed. The fire was very intense and the building was completely destroyed.

Corn Needs Are Greater Than Supply

OREGON STATE COLLEGE, Corvallis, April 7--Oregon's acreage of corn grown for grain could be increased 100 per cent or more without overproducing for the present state demand, says a report issued today by the Oregon State college extension service. Corn shipments into the state total several times the amount of home grown corn sold by farmers.

ON SCHEDULE

In Morocco or Missouri... in Alberta or Alabama... the "Caterpillar" owner farms to his own schedule... does the class of work he wants to do when it does the most good. He has sturdy dependability and positive track-type traction to make his fuel and time buy more well-done work. Thus, he can farm more land... raise better crops. His "Caterpillar" Tractor protects his farm. He prepares his fields for bigger yields... plants on time... and he's ready for any emergency. Through the years he follows the system he knows is best... gets the most each season can give... with a "Caterpillar" track-type Tractor.

Bunting Tractor Co. 1426 Jefferson Ave.

On the go and grow! Up-and-coming youngsters in tune with The Great Outdoors--children who laugh at wind and weather! What's the secret? Wise mothers! Mothers who have learned there is more to feeding children than keeping them "well-fed." There is, for instance, the new news about vitamins that Science has discovered. Where? In the heart of the wheat! Hence Carnation Wheat (cereal-favorite for more than 30 years) takes on new value in health-wise homes. It is more than a hot, nourishing cereal. It is a vitamin-rich food that protects against illness and fatigue. Fortify your family-health with this "sunshine food"--The Vitalizing Cereal!

The Vitalizing Cereal... hot Plump, golden, sun-filled grains... steamed and rolled into creamy, wafer-thin flakes... Carnation Wheat brings to your breakfast bowl all the health-heart of the wheat with its precious vitamins; bran, the regulator; carbohydrates and fats for quick-to-use energy; proteins for bone and muscle; minerals for rosy cheeks and robust bodies! Whole wheat hearts, Science now tells us, are the richest known source of Vitamins B and E and the best cereal source of Vitamin A. Mysterious, priceless, life-giving vitamins... always essential to good growth, good appetite, good health... doubly essential in winter when Nature calls for added food-protection. Your grocer has it! Carnation Wheat ONE OF THE Carnation-Albers PRODUCTS OILERS ARE: CARNATION MILK - CARNATION OATS (quick and regular) - ALBERS FLAPJACK - PEACOCK BUCKWHEAT - PEARLS OF WHEAT - INSTANT TAPIOCA - ALBERS CORNMEAL
