Dinner Club Is Entertained At The La Grande

Among Wednesday's hosts and hostesses were Mr. and Mrs. Charles Roehm who entertained for their dinner club at the La Grande hotel at 7 o'clock. The dining table was decorated with a centerpiece of flowers and tapers.

After dinner bridge was at play, with Mrs. A. L. Richardson receiving the prize for high score; H. E. Dixon, second; and Mrs. W. H. Guild, consolation.

Dr. and Mrs. Richardson will entertain the club next.

• • •

Mitzi Club Meets At Eberhard Home

Mrs. C. R. Eberhard entertained the Mitzi club Tuesday at a bridge luncheon at her home, with guests invited to make up three tables.

Luncheon was served at 1:15 with daffodils decorating the table.

Mrs. John Theisen received the prize for high score at bridge and Mrs. F. L. Tribe received consolation. Mrs. Hardy Taylor was a guest of the club, and received the guest prize.

Mrs. Jean Richardson will entertain the club at the Richardson cabin at Wallowa Lake on May 5.

• • •

Mrs. Goodnough Is Hostess to Club

An interesting event of Tuesday afternoon was a party at which Mrs. Ray Goodnough entertained for the M. I. L. club. Twelve women were invited for bridge, and Mrs. Gilbert Hunter made high score.

Refreshments were served late in the afternoon by the hostess. Mrs. Grover Grimmett will entertain the club on May 5.

• • •

Neighborhood Art Club In Session

The liberation movement in Russia provided the topic for an enlightening meeting of the Neighborhood Art club yesterday afternoon at 2 o'clock in the club rooms at the La Grande hotel. The liberation movement, the period preceding the world war, was described by Mrs. C. E. Happersett.

Mrs. H. H. Cleaver discussed the art of the period named, also many of the noted artists and their characteristics. She illustrated her talk with prints of Russian art work. Mrs. L. Denham spoke on Russian women, both of the past and the present, describing the part they played in the world war, as well as the way in which they are superior to Russian men.

• • •

Elmo Stevenson Speaks at Meeting

Elmo Stevenson, of the Eastern Oregon Normal school faculty, addressed the study group of the A. A. U. W. and the P. T. A. last night on the subject of the adolescent, suggesting lines along which parents may think in regard to the young boy. A large group of fathers and mothers attended the meeting.

The last meeting of the group will be held on May 5 at the Normal school, when Mrs. Chase Bohnenkamp will discuss adolescense from the standpoint of a girl, and Mrs. W. R. Nichols will discuss it from the standpoint of the parents.

• • •

Joint Social At The Eagles Hall

A joint social gathering following separate business meetings was enjoyed last night at 8 o'clock by the L. S. to the B. of L. F. and E. and the L. A. to the B. of R. T. at the Eagles hall. The Trainmen women held their business meeting at the Knights of Pythias hall with Mrs. Laura Kennedy presiding, and later joined the Ladies of the B. of L. F. and E. Mrs. L. J. Killgore is president of the latter.

An interesting program was planned for the social hour with Mrs. Melvin Galbraith and Mrs. Garfield Simmons in charge. The Blue Mountain Wranglers presented a group of popular old favorites, including "The Red River Valley," with Raymond O. Williams singing the vocal refrain. Mrs. Charlton gave a reading, "Si and Manida," who were at the Hot Springs for a cure.

A contest was held by Mrs. Mike Sullivan and Mrs. Walter Lane, with Mrs. Sullivan winning.

About 75 were present and formed a grand march after which refreshments were served with Mrs. Blanche McGhean as chairman of the committee.

• • •

Goodwill Club Planning Dinner

Plans for the annual Memorial day dinner of the Goodwill club were made at a meeting of the group yesterday afternoon at the home of Mrs. Fred Braden. The event is to be held on May 30 at the Knights of Pythias hall, Mrs. Francis Plank, president, will announce the committees later.

The afternoon, following the business meeting, was spent informally with the hostess serving refreshments at the close of the meeting, assisted by her daughter, Mrs. Harry Hansen.

Mrs. Eleanor Carr will entertain on May 5 at 2 o'clock for the group.

• • •

Auxiliary Will Meet Thursday

Members of the Francis Brown auxiliary to the Pioneers are requested to bring sewing equipment to the meeting Thursday afternoon at 2 o'clock at the home of Mrs. Fred Henning. The afternoon is to be spent in quilting and discussing future enterprises which the auxiliary is planning.

Social Calendar

Wednesday, April 22
8:00 Eastern Star, at the Masonic hall.
8:00 Bid 'Em and Lose 'Em club, with Mrs. Mildred Winters.

• • •

Thursday, April 23
11:00 Friendly Corner club, with Mrs. August Hoffman, at Morgan lake.
1:00 Thursday club, with Mrs. G. T. Cochran.
1:00 Mary Elizabeth club, with Mrs. S. S. Nye.
2:00 Francis Brown auxiliary to the Sons and Daughters of the Pioneers, with Mrs. Fred Henning, 504 Penn. Ave.
2:00 Me-Way-A-Tum club, with Mrs. Clyde Hoppel and Mrs. Harry Hanson, at the home of the latter.

7:30 Delphian chapter at the Sacajawea Inn.

Menus of The Day

By Mrs. Alexander George

A SPRING DINNER MENU
Grilled Lamb Chops
Browned Potatoes, diced
Buttered Asparagus Belmond
Bread Currant Jelly
Fresh Vegetable Salad
Rhubarb Shortcake Lemon Sauce

Grilled Lamb Crops

6 loin chops (cut 2-3 inch thick).
1 teaspoon salt.
¼ teaspoon paprika.
¼ teaspoon celery salt.
2 tablespoons chopped parsley.
2 tablespoons lemon juice.
2 tablespoons butter.

Wipe off chops with damp cloth. Place in frying pan and broil 15 minutes. Turn to allow even browning. Arrange on a hot platter and sprinkle with all rest of ingredients.

Buttered Asparagus Belmond

6 pieces hot buttered toast.
36 spears asparagus (cooked).
2 tablespoons butter, melted.
1 hard cooked egg, diced.
2 tablespoons chopped pimentos.
½ teaspoon salt.
¼ teaspoon paprika.

Arrange the toast on serving plates and top with the asparagus. Mix rest of ingredients and pour over the top. Serve at once.

Fresh Vegetable Salad

6 slices tomatoes.
6 rings of sliced onions.
6 rings sliced green peppers.
½ cup diced celery.
1-3 cup sliced radishes.
½ teaspoon salt.
¼ teaspoon paprika.

Chill the ingredients. Arrange on lettuce and top with French dressing and serve at once.

Rhubarb Shortcake

2 cups flour.
4 teaspoons baking powder.
½ teaspoon salt.
2 tablespoons sugar.
4 tablespoons fat.
1 egg.
2-3 cup milk.

Mix the flour, baking powder, salt and sugar. Cut in the fat and mixing with the knife add the egg and milk. When a soft dough forms, place it in a greased pan. Pat the dough until it is 1 inch thick. Bake 15 minutes in moderate oven. Split and add the rhubarb.

Rhubarb

4 cups rhubarb.
4 tablespoons water.
1 cup sugar.
2 tablespoons flour.
½ teaspoon salt.
2 tablespoons butter.
½ teaspoon cinnamon.

Mix rhubarb and water and cook 5 minutes. Blend the sugar and flour and add to the rhubarb. Add rest of ingredients and cook 2 minutes. Stir constantly.

The News Used To Be:

TWENTY-FIVE YEARS AGO
(From Observer, Fri., April 20, 1906)

The property loss in the city of San Francisco, caused by fire and tremors, is now estimated at $200,000,000.

Did the earth shake here? There are those who reside near this city who believe that the hills surrounding Perry have been visited by some sort of earth tremor and to bear them out in the theory they point to numerous cracks and openings in the earth's crust which were not present until Wednesday at two o'clock.

TEN YEARS AGO
(From Observer, Thurs., Apr. 21, 1921)

There is no ground for rumors that local men are turned down on jobs on the state highway while hundreds of outsiders are being shipped in, according to Max Kuney, resident engineer in charge of the Kamela-La Grande section.

Walter E. Lees, pilot for the La Grande Aircraft corporation, is nearly ready to make his first flight of the present season.

Of interest to his many La Grande friends, is the announcement that L. A. Prescott has purchased from Geo. Ferguson his half interest in the Imbler Drug store.

ONE YEAR AGO
(From Observer, Mon., April 21, 1930)

Written from Washington, D. C. on April 17, a letter was received here today by Wesley F. Brownton, formerly of La Grande, telling of Frank Branch Riley's appearance before the Washington Isaak Walton league. Mr. Brownton was instrumental in arranging the lecture by Mr. Riley which was given in honor of La Grande.

The La Grande High school track team encountered some unusually keen competition in the triangular track and field meet at Pendleton Saturday, which was won by the Buckaroos with the Tigers second and Milton-Freewater third, seven points behind La Grande.

MRS. FARRER, FORMER PROVO AUDITOR, FREE

PROVO, Utah, April 22 (AP) — Mrs. Ruth E. Farrer, former Provo city auditor, was free today of all charges in connection with a $7,000 shortage in the city's accounts.

District Judge George W. Worthen had sustained a defense objection to introduction as evidence of a warrant on which the state's case was based.

This charge was the last of 22 filed against Mrs. Farrer in connection with the shortage. All previous charges were dismissed. In barring introduction of the warrant yesterday, Judge Worthen said the warrant was not a public record within the meaning of the law.

Deer Flat Storage Reservoir Is Full

BOISE, Apr. 22 (AP)—Deer Flat reservoir is full of water and any "storage water" from Boise river will go now into Arrowrock reservoir which absorb 120,000 acre feet more than it contains at present before its capacity of 280,000 acre feet is reached.

At present the reservoir contains 160,000 acre feet, 20,000 acre feet less than it held at this time last year, but Deer Flat reservoir contains 7000 acre feet more than a year ago.

Irrigation demands have already begun and all canals and laterals are being filled. The board of control said many irrigators would use only part of their rights this early in the season, allowing the balance to go into storage.

COAL DEALERS ELECT

NAMPA, Idaho, Apr. 22 (AP)—Archie W. Lake of Boise was re-elected president of the Southwestern Idaho Coal Dealers association at the closing session of their two day convention here last night.

Burley was chosen for the 1932 convention.

Other officers were A. B. C. Dawson of Boise, secretary; Bert Stone of Boise, treasurer, both re-elected, and the following vice presidents: Paul Van Patten of Ontario, Ore., C. F. Borden of Shoshone, and R. H. Bell of Meridian.

AMERICA'S BIGGEST SELLER!

Grandmother, Of Iowa, Is Awarded Doctor's Degree

PARIS (AP) — An American grandmother recently won the degree of doctor of the University of Paris.

In addition, Mrs. Mecca Marie Varney of Glenwood, Id., mother of a son 32 years of age and of a grandson old enough to use his lungs, was showered with the highest mention the university gives, "tres honorable."

While no one had the patience to search dusty university records, which go back to the twelfth century, to verify it, it is believed that Mrs. Varney is the first grandmother to win such high recognition here.

Grandmother ran a race with her son and daughter-in-law and won. Both of these "children" were — and still are—studying for doctor's degrees at the University of Paris.

Dr. Varney studied in Paris four years before she asked to be examined on her research work into the influence of women on the life of the founder of sociology, Auguste Comte. She learned French profoundly enough in that time to write her thesis in that language. The thesis is now appearing in book form.

Mrs. Varney became interested in Auguste Comte while studying at the University of California, where she won a bachelor's degree. She decided to come here where Comte lived and worked.

An ordained minister of the gospel Dr. Varney took her husband's pulpit after his death twelve years ago. Later she went into chautauqua and lyceum work.

Her daughter-in-law, Jeanne, is a gifted French lady, known in France as the only instructor capable of teaching Americans how to master the elusive French accent. She has written a book on phonetics which is now on the press. As does her mother-in-law, she too has a degree from the University of California.

Mrs. Varney's son, Charles, has written a novel on Russian life.

BOND ISSUE HELD UP

BOISE, Apr. 22 (AP)—The Blackfoot asylum bond issue of $250,000 has been held up temporarily by action of Governor C. Ben Ross who declined to sign the bonds before the money was needed.

He explained to State Treasurer George Barrett that the money would not be needed until about July and for that reason declined to sign them at present.

The bonds were sold to the endowment fund with interest rate of 4¼ per cent but will not draw interest until the governor approves them.

Kisses Are Like Money

Everybody wants plenty. The more you get, the more you want. They are payable on demand and good for face value. Some are counterfeit. Some come in small denominations, others in large. Some people are stingy with them, others extravagant. They can't always buy happiness. Kisses are like money, only sweeter.—Exchange.

Whites Carve Totems

Indian totems for centuries were carved from cedar trees, but prosperity has led several tribes to employ white men with electrical tools to cut such historical data in marble and granite. By the use of the harder material and finer tools modern stoneworkers are able to write the tribal histories in one-tenth the space utilized by the old native carvers. These miniature marble totems are for use only in tribal burial places.

Business Terms

The abbreviation "Inc." for "Incorporated" indicates that the company has been formed into a legal corporation according to the laws of one of the states. In Canada and Britain, the word "Limited" after a firm name indicates that the liability of each shareholder in the company is limited to the amount of his stock or shares, or to an amount fixed by a guarantee. The law requires this word to follow the firm name.

Important Safety Device

The first vestibuled car, a Pullman invention, was built in 1887. It is considered the greatest single safety device in railroad travel. It provides safe car-to-car travel, includes anti-telescoping construction to prevent cars climbing one another in collision and holds the train in a rigid unit, riding more safely and smoothly.

UNIFORM FLAVOR IN COFFEE DEPENDS UPON THE ROASTING

Hills Bros. Insure Uniformity by Their Patented, Continuous Process

Coffee experts agree that blend alone, regardless of quality, will not produce a perfect cup of coffee. In the roasting of the blend lies the secret of perfect flavor.

The common method of roasting coffee in bulk falls short in developing flavor, because it is not possible to roast every berry evenly. Realizing this, Hills Bros., after years of experimenting, discovered and patented a continuous process of roasting coffee a little at a time.

Control is the watchword of this process. The quantity of coffee passing into the roaster does not vary. The speed of operation and temperature remain the same with the result that Hills Bros. Coffee is absolutely uniform. This process, fittingly called "Controlled Roasting," gives a flavor in the cup that no other coffee has.

Hills Bros. Coffee never "goes stale" because it is packed in vacuum cans. Ordinary cans, even if air-tight, do not keep coffee fresh because air, which destroys the flavor of coffee, is inside. By the vacuum process, air is taken out of the can and kept out. Hills Bros. Coffee is sold everywhere by grocers. Ask for it by name and look for the Arab—the trade-mark—on the can.

Hills Bros. Coffee, Inc., Portland, Oregon. ©1931

Interior Heads Planning Work In West States

WASHINGTON, April 22 (AP)—Officials of the interior department are making an especially early start this year on surveys of numerous activities under their jurisdiction in western states.

Secretary Wilbur has urged this policy upon them so there may be plenty of time to work on the department's budget. This, he expects, will have to be curtailed rubstantially this fall because of the stringency at the treasury, caused by shrunken revenues and materially increased expenditures for non-routine government activities.

Wilbur is confident, however, that necessary paring can be accomplished without serious harm to essential developments. A postponement of a number of projects which have been waiting their turn is likely and desired expansion of activities in the reclamation projects, Indian service and other interior department branches may be delayed.

To Visit Western States

The secretary expects to go west during the summer but he has not yet decided when his trip will take place nor how much territory he will cover.

Reclamation Commissioner Mead will be back in Washington this week after less than a month spent in a rapid survey of southwestern projects. Indiana Commissioners Rhoads recently left for a bare three weeks in the same region. Representatives of the park service and other interior divisions are also on tour.

Mead plans a second trip west to cover the more northern projects under his supervision. He may accompany Mr. Wilbur.

Hobbies Benefit Children

Encourage your child to develop a hobby. No matter that the hobby does not interest you, if it will develop initiative, artistic or construction ability, something that the child will grow along with, encourage him in it. Wholesome hobbies like carpentry, photography, billiards, chess, radio and modeling keep the youngsters off the streets and at home where they belong.

Brown Eggs or White

Many people believe that brown eggs are richer and more nutritious than white ones and this popular belief is an important factor in the commercial distribution of eggs. Analysis shows that eggs of all shades are practically the same in chemical composition and that there is no difference in the food content in light-colored and dark-colored eggs.—Pathfinder Magazine.

Signers of Armistice

The signers of the armistice which ended the World war were Marshal Foch and Vice Admiral R. E. Wemyss on the Allied side and Mathias Erzberger, Gen. H. K. A. von Winterfeld, Count Alfred von Obendorff and Naval Captain von Salow for the Germans. Others mentioned as having been present include the French general Maxime Weygand and Von Helldorf, German courier and interpreter.

Many New Jersey Bays

The United States coast and geodetic survey says that there are 20 bays which are named on the charts of the coast of New Jersey. The principal ones contiguous to the outer coast are Newark, Raritan, New York, Sandy Hook, Barnegat, Great, Great Egg and Delaware bays. In addition to the number given above there are a number of bodies of water that conform to the definition of bay, but which are designated sound, harbor, inlet or lake.

Rococo

This word means: "A style of decoration distinguished by a profusion of meaningless but often delicately executed ornaments in imitation of rockwork, shells, foliage, and scrolls massed together; prevalent in Europe during the Seventeenth and Eighteenth centuries; hence, anything that is eccentric, quaint, tasteless, or odd in art or literature." It is pronounced ro-ko'ko—first and third o's as in obey, second o as in go; the c's pronounced as k.—Literary Digest.

Setting It Straight

For the purpose of setting the record straight, we hereby set down what was one of Kin Hubbard's best, much-stolen paragraphs: "Tell Rinkley arrived at the poorhouse in his $3,000 limousine too late to see his mother die."—F. P. A. in New York World.

Famous Carillon

The following are the words associated with Big Ben, London's great clock, "In all the press of multitudinous days, Nor fails the breath of prayer, the sound of praise, Serene above the city day and night. The chimes ring out with every quarter's flight; O Lord our God, Be thou our guide, That by thy help, No foot may slide."—Washington Star.

Myrtle in History

Medicinal virtues are attributed to the myrtle, and its oil had a place among the drugs of the apothecary in the days of chivalry and incessant warfare. Now, however, it is esteemed chiefly for the beauty and sweet fragrance of its foliage, and as such is planted freely about the palaces of eastern potentates, as has been the rule from remote antiquity.

Battle That Made History

The battle of Chalons was fought near Chalons-su-Marne, France, in 451 A. D. The weapons used were swords, stone-headed axes, javelins and arrows. The attacking army first used arrows, next spears, and finally engaged in hand-to-hand combat with the enemy.

One Temptation Missed

"It is attributed to the Father of Our Country, that he never told a lie," reminds a doubter to the Lynden Tribune, "but tell me," he demands, "did he undergo the same temptations that we have today?" "Not the same, no," informs the editor. "No one ever asked George Washington how many miles he got to the gallon."

Duties of Church Courts

Ecclesiastical courts meet to determine matters of church policy and also the action of the church in conformity with its declaration of principles in regard to social or spiritual matters such as the stand of the church upon marriage, birth control, prohibition, child welfare, education, confederation and many other church principles.

When Words Fail

"When we say that words fail us," said Hi Ho, the sage of Chinatown, "we may take consolation in the fact that some of the poets and philosophers have found that words did not convey their meaning."—Washington Star.

Grow Callous and Calluses

A native of India, a lay preacher, in his sermon said: "When we are in the morning of life we sow our seeds, and in life's evening we cut our corns."—Boston Transcript.

Fruit Supplies Vitamin

The vitamin C that is destroyed by the boiling of pasteurized milk, as it should be prepared for infants, may be replaced by the addition of orange juice and tomato juice to the diet, says Hygeia Magazine.

Health

PSORIASIS

Psoriasis is a common disease of the skin occurring chiefly in adults, children being less often affected.

The cause of psoriasis is unknown despite extensive medical research. Some thing the cause is a germ as yet undiscovered, while others attribute it to internal chemical changes.

At all events, psoriasis is not contagious, nor can it be said to be an inherited disease, although it often affects more than one member of a family. It seems to prefer persons who look the "picture of health."

While the disease is often very annoying, fortunately the face is rarely affected, and, although the scalp is a favorite site for psoriasis, it does not cause any appreciable fall of hair.

Psoriasis is a most capricious disease, and when once it has appeared no one can predict how long it will last or when it will recur. There may be years of freedom from psoriasis but there is no permanent cure, though individual attacks can be successfully treated.

There are certain principles of treatment which every sufferer from psoriasis should know. In spite of a healthy appearance, any deviation from a normal method of living should be corrected.

Soap and water are invariably helpful in psoriasis and when followed by greasy applications at least remove the scales. Psoriatics, indeed, cannot bathe too frequently.

Nothing is safer or better than sunshine in direct contact with the skin. Persons with psoriasis should go to the sea shore in the warm months and acquire a heavy tan. As long as the skin is tanned there will be no psoriasis. When the tan disappears, the disease may or may not recur.

A low nitrogenous diet (omitting meat, fish, poultry, eggs and cheese) has at times proved valuable and is worth a trial. Treatment by X-rays, chrysarobin and arsenic should be undertaken only by experienced physicians.
