Ford Factory Doctor Pays High Tribute To Sargon's Powers

"Sargon is one of the most powerful strengthening, reconstructive tonics and body builders I have known in the 30 years I have engaged in the practice of medicine," declared Dr. P. K. Drummond, for 12 years factory physician at the Ford Motor Co., Detroit, who was retained to examine the formula. "At this season of the year, especially, people who are in a run-down condition, due to simple anemia, thin, watery blood, poor digestion or elimination, should benefit richly from the Sargon treatment."

Dr. Drummond's straightforward endorsement of Sargon is typical of the unstinted praise it has received from scores of other outstanding physicians and explains why Sargon is having the largest sale of any tonic medicine of its kind in the world today.

Belongings Sold At Rummage Sale

ROSEBURG, Ore., Apr. 24 (AP)—They were looking for Charles Nance, 29, today, who is charged with having staged a rummage sale with Salvation Army belongings, after the organization had given him lodging.

He first appeared two months ago. He was fed, clothed and given a job on a farm. Then he returned and again was taken care of.

He was apparently a conscientious young man, Envoys and Mrs. B. R. Stufflebeam, corps commanders, thought, so they left him in charge while they were called out of town on business.

Then he staged a rummage sale with great success.

The corps officers returned yesterday and found that their own clothing and personal effects had constituted the bulk of the rummage sale. Money and the wood was gone, and so was Nance.

RUPTURE Expert Here

C. F. Redlich, Minneapolis, Minn., will demonstrate without charge his unequalled method in

La Grande Friday May 8
at the Foley Hotel
from 10 a. m. to 4 p. m.

Mr. C. F. Redlich says: "The 'Perfect Retention Shields' hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time. The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically and actually sanitary, comfortable and actually holds ruptures which heretofore were considered incurable. Stomach troubles, backache and constipation, nearly always a consequence of rupture, promptly disappear."

Bring your children. According to statistics 95% recover by our method. NOTICE: All whom we have treated during the past ten years are invited to come in for a free inspection. Evening appointments by telephone only on the first day.
