

COVER THE VALLEY

Mabel E. Morton, Valley News Editor
Phones: Residence, Main 966; Office, Main 600

Having Picnic—Pupils of the Willowsdale school in the Hot Springs school building with their teacher, Miss Grace Halling, are at Cove today for an all-day picnic. Miss Halling now has 24 pupils which places this school among those larger one-room schools in the county. School will be dismissed for the summer a week from today. Miss Halling has been re-elected for next year at the same school.

Improves—Mrs. John Dahlstrom of Moss Chapel, who has been having a rather distressing time with her vaccination is reported to be about well again now.

Entertains Club—Mrs. Henry Hermann of the Island City-Cove highway entertained the members of the "Friendly Corner" club yesterday at her home. Perhaps the main feature of the day was the wonderful chicken dinner which Mrs. Hermann served at noon.

Does Damage—Archie McNeill, one of the prominent fruit growers of the county, and who lives up the Milk creek canyon reports that deer are doing considerable damage to his young cherry orchard which he put out this year.

Guests—Mrs. Frank Woodell of near Summerville had for her guests yesterday her mother, Edna Woodell of Summerville and her sister, Mrs. Minnie Shoberg, of Oakland, Cal., who has been her house guest for several weeks.

Is Better—Although she has not yet been able to return to her teaching duties at the Dry creek school, Mrs. Fries, who is ill, is reported as being very much better.

Re-elected—Miss Esther Blokland, who teaches at the Wolf creek school near North Powder spent the past weekend at the home of her mother, Mrs. M. Blokland, near Island City. Miss Esther has been elected for another year's work in this same school.

At Home—Miss Florence Smith, who is taking her first year's work at the Eastern Oregon Normal school, went to her home yesterday for the weekend with her parents, Mr. and Mrs. Ira Smith.

Aid to Meet—The Allice Ladies Aid society will be entertained next Thursday afternoon at the home of Mrs. Louis Stanley in the Iuka neighborhood, with Mrs. Loren Tucker, Mrs. J. H. Standley and Mrs. Hugh Hulse as assisting hostesses.

Club Meets—The members of the Work-A-Day 4-H club up in North High valley held their regular meeting at the school house on Friday, and then because of school work on five days and work at home on Saturday, they held their club meeting at the home of their leader, Mrs. Archie Burford on Sunday. They worked, during the day, on prizes for their Achievement Day contest. The last day of school and Achievement Day are combined, the celebration to take place a week from today, May 10.

Move to Farm—Mr. and Mrs. Clarence Richards of the Cove have moved to the farm out from that town which was vacated when Mr. and Mrs. Joseph Fisher moved to their new home near Union.

Is Given Honor—Her many friends in this valley will be very glad to know that Miss Clibel Nye, of Corvallis, state leader of home economics extension, has been asked to be a member of the committee on Homemaking of the president's conference on Home Building and Home Ownership. This committee will study the effect of housing upon family life, rather than with homemaking, which means that it will deal with the psychological study of the effect of housing upon the family under various conditions and the influence of housing upon social, economic, physical and emotional life.

Why Walk?—His friends are glad to know that George Miller, 82 year old pioneer in this valley, is holding his own, and while he does not improve very rapidly from his recent illness, still he does not get any worse. Mr. Miller has been confined to his bed now for about four weeks.

Visit—Mr. and Mrs. Eddie Blokland drove

over from Lostine and had a week-end visit with the members of his family at the Mrs. Mary Blokland home near Island City.

Club Meets—The Parkdale club holds its next regular meeting this coming Wednesday at the home of Mrs. E. Adler in May park.

Committees at Work—Mrs. Mary Woodell of near Summerville has been made chairman of the Memorial Day dinner to be served this year, as always, by the Summerville Cemetery association. The various committees are at work and the dinner and supper this year will without any doubt come up to corner years. This event is more than just a chicken dinner for the benefit of the cemetery. It is regarded more as a home-coming and each year sees scores of people who formerly lived in the valley at the dinner, to visit with old friends again.

To California—Mr. Graybeal of Imbler is leaving the first of the week for Orange, Cal., where he plans to work in the fruit harvest this year.

Returns Home—William McMurry left Wednesday by car for his home in Deer Trail, Colorado. Mr. McMurry has spent the winter with his niece, Mrs. Orin Anson, and has been in Oregon and Washington for the year and a half.

Give Splendid Party—Yesterday afternoon at the Island City Community church, a special party for the mothers, anticipating Mother's Day, which is Sunday, was given by the ladies aid society. The church was very prettily decorated for the affair, there was a large attendance, the program was excellent, and as a result of this combination the society is quite pleased over its success. The devotionals were conducted by Mrs. O. O. Shafer of Moss Chapel, A. T. "Somebody" Carey, and Mrs. Edna Stonebreaker. Miss Minnie Holman had charge of the program while Mrs. Orin Anson supervised the refreshments which consisted of angel cake and coffee. Seventy mothers and daughters were served. It was a very nice afternoon.

From Pendleton—Mrs. Blakely of Pendleton visited early this week at the home of her aunt, Mrs. C. Y. Beale, in Ladd canyon.

Sell Apples—Milton-Freewater buyers bought two truckloads of "C" grade Rome Beauty apples of R. I. Barker of near Cove, the first having been packed

out from the Mt. Fanny fruit shed at Cove on Thursday and Friday of last week. It is rather unusual to pack apples this late in the season, it is said.

As in Life—There were some rather freakish things done in the severe wind and sand storm which visited this valley Wednesday and which caused a amount of grief to housewives who were either in the throes of housecleaning or had completed the job. We heard of one rather strange occurrence. In the Shafer place at Moss Chapel, there was a tree, probably a cherry tree. It had two large trunks and one of these had been dead for some time but had never been cut away. The wind took the live trunk and left the dead member standing. As this story was being told, a bystander made the remark that this was just like life, or a thing often seen in life, a person in apparent robust health is stricken while one suffering, limited, handicapped is left. And doesn't it seem to be true?

Completes Production Test—Lady's Stylish Pearl, a purebred Jersey cow, owned and tested by E. K. Hunter, prominent livestock breeder at Wallowa, and a nephew of the late Mr. W. H. Shafer, has completed her first official test. When she was five years and one month of age and in the following 305 days she produced 12,954 pounds of milk and 553.22 pounds of butterfat. With this record she qualifies for the Register of Merit of the American Jersey Cattle club. Lady's Stylish Pearl was sired by Yive Glow Tormentor and her dam is Vesta's Lady Fern.

Makes Visit—Dave Lowry of Medical Springs drove into the valley Wednesday night and was a guest at the home of Mr. and Mrs. Mike Royes in the Pleasant Grove neighborhood. Mr. Lowry was on his way to Lewiston, Idaho, on business.

Pool is Already Popular—A number of unusual swimming parties have been taking place at the Cove swimming pool recently, beginning with the one at 4 a. m. Sunday morning when ten of the employees of the Barbecue Lunch at La Grande, who worked at night, came to the pool for a swim before breakfast. They report it a rare treat to watch the dawn break while swimming and to have the birds furnish music for their enjoyment. Mrs. Senter, owner of the pool, took the trouble to make them welcome and comfortable as they are unable to swim during the day. The next party arrived at 8 a. m. and were 20 members of the State and Liberty theatre force of La Grande who also report a most enjoyable morning. Beside the regular party of Cove people and swimmers from other nearby points of the I. O. U. Imperial Order of Independence—Boys club at Pendleton High school came for a party at the pool Sunday.

Those who came from Pendleton were: Olga Nelson, Frank Nash, Peggy Muina, Malcolm Bower, Peggy Oliver, Frank Lybecker, Peggy McClure, Dick Spofford, Valco Lucas, Evrett Frickley, Janet La Fontaine, Leslie Hagen, Muriel Clark, Hubert Wheeler, Mary Bond, Dave Lehman, Mary Howland, Louis Pison, Elizabeth Crommell, Wayne Erwin, Peggy Hester, Lowell Caplinger, Jean Payne, Louis Umbarger, Marjorie Erwin, Robert Umbarger, Evelyn Caplinger, Donald Crosswell, Marian Johnson, Robert Baur, Elaine Goodyear, Pat Edmondson, Ennis Wilson, Johnny Williams, Dorothy Howell, Emil Geist, Mrs. C. F. Lybecker, Mr. Poland Oliver, Mrs. J. Bauer and Mr. and Mrs. C. P. Miller, sponsors.

Class Meets—The Sunday school class at the Island City Community church, taught by Mrs. Emma Blokland met at her home Tuesday evening for the purpose of reorganization. The same was changed to the "Cheer Up Class," and Alfred Blokland was chosen for president, Wesley Hershey, vice president and Daphne Bowers, secretary-treasurer. The officers who had just completed a term's work were—president, Harold Zubrick, vice president, Daphne Bowers, secretary-treasurer, Anna Mae Shafer. There was a social hour following the business meeting and Mrs. Blokland served some nice refreshments. Their next meeting is to be at the home of Anna Mae Shafer, the first Wednesday in June.

Late Lambing—It is reported that many of the small flocks of sheep which lambed in January are lambling out a comparatively large number of late lambs. J. R. Fletcher who lives above the Cove reports about 15 or 16 March and April lambs in his flock of 120 ewes. This brings his percentage much higher than was at first expected. The January lambs proved very large and strong although fewer twins were noted than in other years.

Have Dinner Together—A group of young people who have been meeting together at regular intervals during the winter for a pot-luck dinner and an evening of games, etc., had one of their get-togethers early this week at the home of Mr. and Mrs. Ray Blokland in Island City. In the crowd were Mr. and Mrs. Bewick Clark and Charles, Mr. and Mrs. Ralph Clark and two children, Della Jean, Mrs. Jean Blokland and Betty Anne, Mrs. Howard Smith, Mr. and Mrs. William Perry, Mr. and Mrs. Tom Ruckman.

Weather Good For Growing In Wallowa Co.

According to G. C. Meek of Wallowa, excellent growing weather is being enjoyed in that community at the present time. The weather shower of rain fell over much of that end of the valley the latter part of the week, supplying some of the water which was needed for several days previous had caused the surface of the soil to become quite dry and germination of seed which was only slightly covered to be very slow. The rain, while lasting only a couple of hours, was sufficient to wet to a depth of two or three inches in the cultivated fields and will assure a good start of the seed which has been planted recently.

A large amount of seeding has been in progress during the past week. With the spring season becoming well advanced and conditions excellent for planting, many of the farmers have been rushing their work as rapidly as possible. Some who are behind with their work because of shortage of help are being helped by the county extension agent as well as during the remainder of the week.

Winter wheat crops are making a wonderful growth at this time. Some pasturing of the grain is being done at some of the farms in the hills. Some farmers believe that considerable benefit is derived (through pasturing in the spring) some others contend that a better root growth results and that fairly heavy pasturing results in somewhat less injury to the grain. A large amount of grain at threshing time.

A few of the farmers in the Leap section have been busy during part of the week about a normal amount where the soil had dried sufficiently to allow teams to pass over it without damage to the grain. Spring rains which have been needed for a short time is coming up nicely at this time and most fields where the grain is up present a very even stand, spring seedlings here are mostly of garden plowing has been done in this community during the past ten days. However, but little planting has been done, but it is expected that within the next few days, a few small plots which were planted several days ago are beginning to come up at this time.

Reports from various farmers of the community in regard to intended acreages of potatoes for this season are about the same. A normal amount will be planted with but little attention being given to the probable price outlook for the coming fall and winter. It is expected to some extent, potato planting during the coming week.

Gran for Weeds," D. C. Smith.

Here for Visit—Mr. and Mrs. Milo Blokland and daughter, Betty Anne, came out from Portland last Saturday for a visit with their kinkoff and friends here. Mr. Blokland returned to his work Sunday night, but the rest of the family have been here during the week, planning to return to Portland Saturday. While here, Mrs. Blokland and daughter have been honored by a number of social functions.

SIXTY COWS HAVE 40 POUND RECORD IN ASSOCIATION

From the 28 herds enrolled in the Union County Dairy Herd Improvement association, 60 cows have made a production of 40 pounds of butterfat during the month of April, according to the official tester, Ralph Ed Pratt, whose report has just been filed. There were 511 cows enrolled during the month and of that number, 72 were dry. The total milk production for the period was 283,606 pounds and that of butterfat, 12,710.8. The average production, including both cows in milk and dry cows, was 553.0 pounds of milk and 24.93 pounds of butterfat.

The two high cows of the association were both grade Jerseys, the highest, a three-year-old belonging to R. R. Adell, produced 1290 pounds of milk and 67.1 pounds of fat. The second highest cow belonged to E. H. DeLong's herd and had a net credit 1170 pounds of milk and 65.5 pounds of fat.

High Herds for Month
In the count where dry cows were included, Ed Pratt's 22 head made the highest record in the herds of over 20 cows. This herd averaged 728 pounds of milk and 28.4 pounds of fat. In the herds of from 12 to 20 cows, E. H. DeLong's herd of grade Jerseys, numbering 30 head, made an average of 639 pounds of milk and 32.6 pounds of fat. In the herds of less than 12 cows, the mixed herd on A. J. Stange's ranch, 11 head in all, had an average production of 945 pounds of milk and 36.0 pounds of butterfat.

In the count where the dry cows were excluded, the 47 cows of the Ed Pratt herd averaged 737 pounds of milk and 32.42 pounds of fat—this in the group of more than 20 cows per herd. In the group of from 12 to 20 cows, Ed Pratt's mixed herd of 17 head had to their credit 942 pounds of milk, average, and 36.78 pounds of fat, average. The high herd in the group of under 12 head, A. J. Stange's 10 cows made an average of 1039 milk and 39.65 of fat.

High Herds for 10 Months
The high herds to date, which means a ten month record, are as follows, and in this table, the dry cows are included:

Two high herds, over 20 cows—
N. K. West, mixed breeds, 55 head, 6005 milk, 297.8 butterfat.
Ed Pratt, mixed breeds, 22 head, 5787 milk, 249.2 butterfat.
Two high herds, 12 to 20 cows—
T. R. Ballie, grade and purebred Jerseys, 13 head, 5657 milk, 282.2 butterfat.
J. W. Hoatson, grade Jerseys, 13 head, 5975 milk, 293.2 butterfat.
S. T. Ballie, grade and purebred Jerseys, 12 head, 5581 milk, 282.2 butterfat.
E. H. Bell, purebred Jerseys, 6 head, 3590 milk, 315.1 butterfat.
A. J. Stange, mixed breeds, 11 head, 7716 milk, 297.7 butterfat.

Roll of Honor Cows
Class A, mature cows making over 60 pounds fat—
N. K. West, "Blacky," grade Holstein, 1464 milk, 61.5 butterfat.
A. J. Stange, "Bell," grade Short-horn, 1800 milk, 65.1 butterfat.
N. K. West, four-year-olds making 45 pounds fat—
E. H. DeLong, "Tiny," grade Jersey, 1170 milk, 65.5 butterfat.
Arthur Hancock, "Bodie," grade Jersey, 1080 milk, 65.1 butterfat.
N. K. West, "Ricket," grade Guernsey, 903 milk, 49.7 butterfat.
N. K. West, "Mabel," grade Holstein, 767 milk, 61.7 butterfat.
Class C, three-year-olds making over 40 pounds fat—
E. H. DeLong, "Roanie," grade Jersey, 827 milk, 47.1 butterfat.
R. R. Adell, "Judy," grade Jersey, 1290 milk, 67.1 butterfat.
Ed Pratt, "Midget," grade Jersey, 666 milk, 50.2 butterfat.
Julius Fisher, "Clara," purebred Short-horn, 1119 milk, 45.9 butterfat.
J. H. Hoatson, "Bridget," grade Jersey, 930 milk, 45.8 butterfat.
Class D, two-year-olds making 35 pounds fat—
Charles DeHaas, "Tiny," grade Jersey, 954 milk, 52.5 butterfat.
A. J. Stange, "Lily," grade Jersey, 963 milk, 43.3 butterfat.
T. R. Conklin, "Dixie," grade Jersey, 702 milk, 40.7 butterfat.
A. J. Stange, "Rose," grade Guernsey, 785 milk, 39.0 butterfat.

Every cook knows that it is risky to pour all the milk at once into the flour when making waffles. In spite of vigorous stirring the batter will invariably contain lumps. Coffee roasted in bulk also involves risk. Even the most skillful operator cannot prevent uneven roasting in the roaster because the quantity is too large to handle. As a result some of the coffee berries are overdone and some underdone. Such variation in the roast causes variation in flavor. Beating this, Hills Bros., in San Francisco, perfected and patented a process that roasts every coffee berry evenly. By automatic control, only a few pounds at a time pass through the roasters in which heat is also automatically controlled. When the coffee finally leaves the roaster, it is perfectly uniform in color and roast and gives a delicious flavor in the cup that no other coffee can equal. No matter when or where you buy Hills Bros. Coffee, it is as fresh and complete in exclusive flavor and aroma when it came from the roasters. This is because Hills Bros. Coffee is packed in vacuum—a process that takes air, which destroys coffee flavor, from the can. The ordinary air-tight can does not keep coffee fresh. Hills Bros. Coffee is sold everywhere. Ask for it by name and look for the Aral, the trade-mark—on the can. Hills Bros. Coffee, Inc., Portland, Oregon.

We have a complete line of lawn sprinklers, garden hose and tools. Highest quality merchandise, moderately priced. Make this store your headquarters for guns, Kleenore ammunition, and fishing tackle.

Grace Hardware & Harness Store

A SEASONABLE RECIPE
SCALLOPED CHICKEN
Take one five-pound, fat chicken, cook till tender. Cut off the bone and discard all gristle and tough skin. Add about one teaspoon onion while this is boiling. Strain broth, use three eggs and make noodles; boil in the chicken broth. Cool milk, then drain two cans of peas. Put into a baking dish in layers, first a layer of noodles, then chicken, then peas, until all is used. Bake about one hour if it gets a little dry add a little hot water and butter. This will serve twenty and is delicious.
