

Help Build THE MT. EMILY ROAD

*.....and you will help
build this community*

***This Project will pay nearly \$15,000 in wages--
Will furnish work for 15 or more La Grande men
for many months--***

***Will bring \$8,000 in wages that otherwise would
be lost to this community--***

***Will provide a road that will be of great and last-
ing value to La Grande and community.***

Owing to unforeseen circumstances the \$2,000 expected from the city road fund, as La Grande's share for this year's work, is not now available. The representatives of the forestry service are here, and work on the road was started last Thursday morning, and will be pushed forward as rapidly as possible.

Believing the citizens of La Grande will stand back of them, the directors of the Chamber of Commerce informed the forestry service that La Grande's \$2,000 will be paid by July 1, 1931 —

If each citizen who can afford to do so will contribute one dollar (more if possible) the amount will easily be raised —

Your assistance will be greatly appreciated.
