Mrs. George Bean Elected Again To P. T. A. Presidency

Mrs. George Bean was re-elected president of the Union County Council of Parent Teacher associations at a meeting held Saturday afternoon at 2:30 at the domestic science room of the La Grande High school. Last year she was re-elected including Mrs. Frank McKennon, Imbler, first vice president; E. A. Sayre, county school superintendent, second vice president; and Mrs. Laura E. Bates, Willowdale.

Committees for next year were appointed with Mrs. L. Faus heading the public welfare group; Mrs. Louis Wetzel, program; Mrs. O. B. Maxam, publicity; membership, Mrs. E. D. Towler; health, Miss Alice Marquardt, county public health nurse.

Local Women Will Play The Dalles

After walking off with the honors in Sunday's tournament, with players representing the Union Pacific, from Portland, the women at the La Grande country club are set for an intercity tournament on Thursday with The Dalles. A group of picked players will leave Wednesday for The Dalles and play there on Thursday.

Memorial Dinner Will Be Served

A Memorial day dinner will be served at the La Grande country club on Monday, May 18.

"Nothing Like It" Say Lovely Women

No wonder beautiful women love this new face powder made by exclusive French process. MELLO-GLO stays on longer. Prevents large pores. So smooth and fine it blends naturally with any complexion and gives fresh, youthful bloom. No irritation. No flaky or pasty look. Never leaves the skin dry. It's wonderful. Glass Drugs, Inc. —Adv.

Piles Go Quick

Without Salves or Cutting Itching, bleeding, protruding piles are caused by bad circulation of the blood in the affected parts. The parts become weak, flabby, almost dead. Only an internal remedy can remove the cause—that's why salves, suppositories and cutting fail. Dr. Leonard's prescription, HEM-ROID, succeeds because it removes congestion, restores circulation, heals and strengthens the diseased part. HEM-ROID has such a wonderful record of quickly ending even piles of long standing, that Red Cross Drug Store says one bottle of HEM-ROID Tablets must end your pile agony or money back. —Adv.

Menus of The Day

By Mrs. Alexander George DRESSING FOR SALAD Menu For Dinner Meat Rolls Creamed New Potatoes Buttered Beets Bread Peach Jam Asparagus Salad Iowa Dressing Rhubarb Tartar Coffee

Meat Rolls (Serving 9) 1 cup chopped raw beef 2 tablespoons chopped parsley 1 tablespoon chopped celery 1 tablespoon chopped onion 1/2 teaspoon salt 1/2 teaspoon paprika 4 tablespoons fat 1-3 cup flour 1 cup tomatoes Mix beef and seasonings. Shape into rolls, 1 inch in diameter. Roll in the flour. Spread with the fat and fit into small baking pan. Add tomatoes. Cover and bake 25 minutes in moderate oven. Turn frequently.

Asparagus Salad 1 quart cooked asparagus 1-3 cup diced celery 2 tablespoons chopped pimientos 1/4 teaspoon salt Chill ingredients. Arrange on lettuce and top with dressing. Iowa Dressing 6 tablespoons sugar 1 teaspoon salt 1 teaspoon dry mustard 1/2 cup lemon juice 1 cup salad oil 1 teaspoon celery seed 1 teaspoon onion juice 4 tablespoons vinegar 1/2 cup catsup 1 cup salad oil, chilled Mix ingredients. Pour into bottle. Shake 2 minutes. Chill, shake well and serve on lettuce, vegetable or fruit salads. Rhubarb Tartar 2 cups flour 2-3 cup lard 1 teaspoon salt 3 tablespoons cold water Mix the flour and salt. Cut in lard with a knife. Mixing with knife and slowly add the water. When stiff dough forms, break off 2-3 of it and roll out very thin. Cut into 6 circles and fit into shallow pans. Roll out remaining dough and cut into strips, 1-3 inch wide. Arrange criss-cross fashion over tops of tartar after filling has been added. Bake 25 minutes in moderate oven.

Filling 3 cups diced rhubarb 3 tablespoons flour 1 1/2 cups sugar 1 teaspoon nutmeg 4 tablespoons butter 1 tablespoon lemon juice Mix ingredients with fork. Pour into tart cases and proceed as previously directed.

Home-coming To Be Held Tonight

The first annual home-coming celebration of the Masonic order and its auxiliary organizations will be held this evening with the Home-coming club, of which Alfred Cook is president, in charge of the affairs. Mr. Cook reports that lodge members hope to make the home-coming an annual event among Masons, Eastern Stars, Rainbow girls, DeMolay boys, all Masonic organizations, Masons and their families from Union county and from Baker are invited to enjoy the program from 8 to 9 o'clock this evening at the Masonic hall, followed by cards, dancing and refreshments from 9 until 12 o'clock.

LaBoheme Club In Swimming Party

The LaBoheme club enjoyed a swimming party at Cove yesterday afternoon. The group left La Grande at 2:30, and after swimming a picnic lunch was served. The club will hold its next regular business meeting on June 12, the place to be announced later.

Enterprise Girls Appear in Recitals

Musicians well-known in La Grande who have been appearing on programs at the Whitman conservatory of music recently are Miss Alice Cheney and Miss Grace Steele, both of Enterprise. Miss Cheney, contralto, recently appeared before the Pilgrim society in Walla Walla, and sang on the program. Miss Steele, soprano, sang for the Men's club meeting at the Baptist church in Walla Walla.

COAST PRO FOOTBALL LEAGUE

LOS ANGELES (AP)—Formation of a Pacific Coast league for professional football has been announced here with six cities represented while three others have the plan under consideration. Los Angeles, Hollywood, San Francisco, Oakland, Portland, Ore., and Seattle, Wash., would be in the league. Pasadena and San Diego, and Tacoma, Wash., are possibilities.

STATE Last Day

THREE-NIGHT PROGRAM OF MUSIC BEGINS

A three-night program of music by students of the Eastern Oregon school of music begins tonight in the Sacajawea ballroom at 8:15 with the presentation of the beginning and intermediate classes, both piano and violin. Tonight's program appeared in Saturday's Observer.

A new feature of this year's recitals will be the appearance of the junior piano ensemble on Tuesday evening, which is composed of nine students in the intermediate grades. This nine-piano ensemble will be heard in two numbers, following which the advanced piano students will give their program in solo numbers.

The attraction Wednesday evening will be the all-ensemble program featuring four ten-piano numbers, one five-piano number, one two piano number, and a vocal ensemble program. The program of the ten-piano ensemble of advanced students is an event which increases in popularity each year, and which is the only one of its kind in the northwest, outside of Seattle. Tuesday's program is as follows: (a) "By Moonlight".....Durand (b) "Dance Ecossaise".....Baker Junior piano ensemble—Isabelle Williams, Blanche Cunningham, Idamae Ambrose, Reginald H. Lockwood, Evelyn Ballard, Mae Shanks, Jennie Mae Sullivan, Fred Beeman, Robert McAnulty, Mrs. Parkinson conducting. "Country Gardens".....Grainger "Marguerite White".....Muskowski "Serenata".....Edna Brown "Romance".....Sibelius "Spinning Song".....Mendelssohn Isabelle Williams "Rigaudon".....MacDowell Vivian Gallagher "Valse Triste".....Sibelius Wanda Berry "Nocturne Op. 37 No. 2".....Chopin Madelon Gallagher "The Erl King".....Schubert-Liszt "Venezia Napoli III".....Liszt "Liebesfreud".....Fritz Kreisler Clara Norris "Liebestraum".....Liszt Bethel Trill St. John "Venezia Napoli III".....Liszt Mildred Shumate Pupils of Mrs. Parkinson. Nanking—Rival factions hasten war preparations.

Health

ARTIFICIAL RESPIRATION A little more than 250 years ago, Robert Hooke, an Englishman of phenomenal keenness, showed that by briskly blowing a bellows over the open chest of a dog, the animal could be kept alive when neither its chest nor lungs were in motion. This was the first experimental demonstration of the value of artificial respiration, which since the days of Robert Hooke, has become a regular part of first aid treatment. The earliest methods developed were manual in type. They were administered by hand, pressure either being applied to the chest of the unconscious individual or his arms

moved to secure chest action resembling breathing. Later, machines were developed for administering artificial respiration. The manual method of artificial respiration, such as the prone-pressure method, is of value in acute emergencies and when the need for artificial respiration does not extend beyond an hour or two. When applied for more than an hour or two and particularly when the patient is conscious, the manual method of artificial respiration becomes extremely painful. In recent years, a number of machines have been developed for the administration of artificial respiration. Most of these, however, require the placing of a mask over the face of the patient, and this, particularly in instances where the patient is conscious, is a distinct disadvantage. Nevertheless, medical science continues to take widely and freely from all other sciences anything that may prove of use in fighting disease or in saving human life. A recent illustration of this is the use of a machine, invented by an engineer for sustaining respiration in cases where there is a failure of the human breathing apparatus. This machine is known as the Drinker Respiator, being named after its inventor, Philip Drinker, assistant professor of industrial hygiene at the Harvard school of public health.

proposed Mr. Ferguson for permanent chairman. After a general discussion the conference adjourned until tomorrow. The nations represented at these meetings are the United States, Canada, Australia, Argentina, Bulgaria, Hungary, India, Poland, Rumania, Jugoslavia and Soviet Russia. The United States is represented by Mr. McKelvie, former governor of Nebraska, and head of the United States delegation to the world wheat conference, which opens today, outlined his country's program this afternoon at a conference with newspapermen. By July 1, he said, the United States will be faced with a carry-over of roughly 375,000,000 bushels of wheat in the face of the new crop, as compared with an ordinary annual carry-over of from 100,000,000 to 125,000,000. "Consequently," he said, "we have come here prepared to co-operate. But we do not propose to join nor

will we agree to join any international pool. "Furthermore, we do not propose to dump one bushel of the farm board's holdings." MT. EMILY ROAD CAMPAIGN WILL BE FORUM TOPIC (Continued from Page One) for the Oregonian and classing the pastoral view from the top of the mountain as the finest he has seen throughout his world travels. This statement served materially to revive interest in the project. General Butler said he has already spent much time in working out the police system here. He had maps and a mass of data which he will turn over to the man who is to head the department. Considerable preliminary work was done, he said, before he reached the state. When questioned as to whether he would fly over the state Butler said flying is not to his liking, but if Governor Meier wishes him to use a plane he will do so. "Flying depresses my heart," he told Joseph. "I am not worth anything for two hours after I get back on the ground. It makes me dizzy. However, I have had 300 hours in the air and can stand it if necessary." Butler said he would like to complete his work here by Saturday night and then return to Chicago.

WORLD MEET ON WHEAT IS IN PROGRESS (Continued from Page One) such surpluses when they recur. It was Samuel H. McKelvie, representative of the United States, who

A new feature of this year's recitals will be the appearance of the junior piano ensemble on Tuesday evening, which is composed of nine students in the intermediate grades. This nine-piano ensemble will be heard in two numbers, following which the advanced piano students will give their program in solo numbers.

The attraction Wednesday evening will be the all-ensemble program featuring four ten-piano numbers, one five-piano number, one two piano number, and a vocal ensemble program. The program of the ten-piano ensemble of advanced students is an event which increases in popularity each year, and which is the only one of its kind in the northwest, outside of Seattle. Tuesday's program is as follows: (a) "By Moonlight".....Durand (b) "Dance Ecossaise".....Baker Junior piano ensemble—Isabelle Williams, Blanche Cunningham, Idamae Ambrose, Reginald H. Lockwood, Evelyn Ballard, Mae Shanks, Jennie Mae Sullivan, Fred Beeman, Robert McAnulty, Mrs. Parkinson conducting. "Country Gardens".....Grainger "Marguerite White".....Muskowski "Serenata".....Edna Brown "Romance".....Sibelius "Spinning Song".....Mendelssohn Isabelle Williams "Rigaudon".....MacDowell Vivian Gallagher "Valse Triste".....Sibelius Wanda Berry "Nocturne Op. 37 No. 2".....Chopin Madelon Gallagher "The Erl King".....Schubert-Liszt "Venezia Napoli III".....Liszt "Liebesfreud".....Fritz Kreisler Clara Norris "Liebestraum".....Liszt Bethel Trill St. John "Venezia Napoli III".....Liszt Mildred Shumate Pupils of Mrs. Parkinson. Nanking—Rival factions hasten war preparations.

Health

ARTIFICIAL RESPIRATION A little more than 250 years ago, Robert Hooke, an Englishman of phenomenal keenness, showed that by briskly blowing a bellows over the open chest of a dog, the animal could be kept alive when neither its chest nor lungs were in motion. This was the first experimental demonstration of the value of artificial respiration, which since the days of Robert Hooke, has become a regular part of first aid treatment. The earliest methods developed were manual in type. They were administered by hand, pressure either being applied to the chest of the unconscious individual or his arms

moved to secure chest action resembling breathing. Later, machines were developed for administering artificial respiration. The manual method of artificial respiration, such as the prone-pressure method, is of value in acute emergencies and when the need for artificial respiration does not extend beyond an hour or two. When applied for more than an hour or two and particularly when the patient is conscious, the manual method of artificial respiration becomes extremely painful. In recent years, a number of machines have been developed for the administration of artificial respiration. Most of these, however, require the placing of a mask over the face of the patient, and this, particularly in instances where the patient is conscious, is a distinct disadvantage. Nevertheless, medical science continues to take widely and freely from all other sciences anything that may prove of use in fighting disease or in saving human life.
