GRANTS PASS DEDICATION HELD TODAY (Continued from Page One)

The coast advertising meeting, called to consider another co-operative advertising campaign like that conducted in nations mediums a month ago when Los Angeles, San Francisco, Portland and the Puget Sound cities joined in one united travel appeal, is being held here in connection with the dedication today of the Grants Pass cave men bridge over the Rogue river.

Coast is Represented—Representatives of four states and of British Columbia are here for the event. The ceremony was planned by the Redwood Empire association of which Josephine county is a member.

Governor Jullius L. Meier and General Butler and their party reached Grants Pass today with a special train of Portland visitors to the dedication. Motor caravans arrived from Roseburg, Crescent City, Medford and Ashland. A delegation from California was met at the state line last night and escorted into the city. Members of the California highway commission headed the group.

Melkie declared the cooperative advertising planned would give each participant more for his money than could any individual effort, and that Portland business men in raising the on-to-Oregon fund were doing it alone for the state, with the sole exception of a voluntary contribution from Manager George Sabin of the Oregon caves organization here.

Redwood Route Pays Way—C. H. Purcell, California state highway engineer, who was with the Oregon state highway service when the Oregon end of the redwood highway was authorized, declared the redwood route is one California project paying for itself with the traffic it attracts. It is, he said, helping to pay for the cost of other highways in many parts of California, in addition. It is the one northern route, he declared, which is given the support of Southern California.

Walter Garrison, head of the California department of public works and representing Governor Rolph at the dedication ceremonies, told the banquet crowd of 150 that Thursday he was 10,000 feet up in California air, with the governor, and Friday crawled on his hands and knees in the "bowling alley" of the Oregon earth in the Oregon caves.

Committee to Meet—After the regular meeting of the Knights of Pythias at 8 o'clock next Monday evening at the K. P. hall, the committee which is planning the past chancellors night will meet, according to L. Berry, chairman. Mr. Berry has not announced his committee for the June 8 event.

Here on Business—David Stoddard and Attorney A. A. Smith, of Baker, are spending the day in La Grande transacting business. Mr. Smith was the special prosecutor in the recent trial of Emma Fowler, former city treasurer, held in Baker. Mr. Stoddard is a former resident of La Grande.

Tourist Stops—R. T. Gardiner, of Emmett, Ida., stopped this morning at the chamber of commerce office to register his automobile. He is en route to Hood River and is very much impressed with Oregon's scenic possibilities.

Wedding Anniversary—In honor of the 25th wedding anniversary of Mr. and Mrs. Frank Anderson the Eagles auxiliary entertained last night at the Eagles hall. An amusing part of the evening entertainment was the mock wedding followed by a lively program of music furnished by the Blue Mountain Wranglers. Mr. and Mrs. Anderson were presented with a silver gift in honor of the silver anniversary. Dancing was enjoyed during the evening and refreshments were served by the auxiliary, with Mrs. C. E. Hildebrand in charge.

State Game Men—Charles McLees, state game supervisor; Art M. Fish, assistant game warden; and Jake Ellis, of Portland, were in town this morning transacting business and visiting with District Attorney Carl Helm. They left this afternoon.

To Pendleton—The members of the Ah Deith Bridge club left this morning for Pendleton where they will be entertained at the home of Mrs. William Barclay Stater, Mrs. H. G. Huggstep. They will return this evening.

It is absolutely essential that the head be sent in for examination. A person will not develop symptoms of rabies until 40 days after being bitten, but the serum is not effective unless administered within two or three weeks.

GRAIN MEET CONCLUDES WORK TODAY (Continued from Page One)

The conference as a success, said harmony prevailed at all sessions and that concessions and modifications were made in the interest of unanimity.

After approving the final agreement the conference adjourned sine die. The continuing committee plans to meet in the near future but the date for its session is indefinite.

The American delegations had held out firmly for a reduction in acreage as the best solution to the problem.

11 Represented.—Called at the suggestion of Canada, the international conference opened here May 18 attended by delegates of 11 wheat exporting countries, those represented besides Canada were the United States, Australia, Argentina, Bulgaria, Hungary, India, Poland, Rumania, Yugoslavia and Soviet Russia.

Outlining the United States position, Samuel R. McKelvie, former governor of Nebraska, grain member of the federal farm board and chief American delegate to the conference, recommended to this group a reduction "at the source" as a solution.

Poland and the Danubian countries, the international conference of wheat exporters, a scheme which drew the vigorous support of Soviet Russia. The Americans stood firm in opposition to this plan and for a while an impasse was created in the conference.

The consensus of the American delegation is that the meetings produced good results and when the figures which it is planned to collect are presented to the various countries, each nation will take the necessary action to remedy the world wheat situation.

REDUCTION IN PROSPECT WASHINGTON, May 23 (AP)—Reduction in world wheat acreage outside Russia and China for the 1931-32 season was said by the department of agriculture today to be definitely in prospect, the decrease being approximately 2 per cent and the total producing area aggregating 181,865,000 acres as against 185,278,000 acres last year.

ROBINSON RAPS HOOVER STORIES (Continued from Page One)

"We are not supposed to elect a president because of his alleged sponsorship of an educational movement or because he approves of the Red Cross. Everybody is in favor of these things, just as everybody endorses the ten commandments."

Robinson said "for the first time in our political history that I can recall, the president of the United States in the middle of an initial term finds it necessary" to attempt to rehabilitate himself with voters.

He concluded with citing when he said paragraphs have dubbed "humanizing Hoover"—illustrating with a story about the puppy that snatched an egg from the president's plate at breakfast—and with the observation that "perhaps the installation of a bed time story secretary to the president is only another example of the superior efficiency" of "a great engineer."

McKelvie States U. S. Is Not Out Of World Market

By Frank L. Weller. (Associated Press Farm Editor) WASHINGTON, May 22 (AP)—The seeming discrepancy between the farm board's position at the wheat conference in London and its oft-told tale of depleted export markets for American wheat revealed yesterday that "qualifications" have attended the board's acreage adjustment campaign.

Sam R. McKelvie, grain member of the board, told the international parley the United States "emphatically is not out of the world export wheat market."

When this government declined an invitation to attend the wheat conference at Rome last March McKelvie said it was because it did not want to lead American farmers to believe they could compete in the world market at current price levels.

He pointed to the government-supported spread of about 20 cents a bushel between Chicago and Liverpool values as indicative of the benefit of an American market for American products.

It was explained at board headquarters that in the campaign to adjust domestic production to the consumption of the board never had lost sight of the necessity for exporting some wheat.

It would be impractical, it was said, to set an arbitrary figure for domestic consumption and ask farmers to produce no more nor less.

The blunt "domestic basis" advocated by Alexander Hamilton, former chairman, did not carry to the public mind the qualifications imposed by weather and the changing food, feed and seed requirements.

The program to put American production on a domestic consumption basis, it was said, embraced full cognizance that the government would not insure against possible crop failure the next season.

American mills require about 40,000,000 bushels of wheat a month and it would be to endanger the competition to wind up the crop year with empty bins and risk the necessity of importing wheat over high tariff walls.

"A domestic basis," it was said, involved the production over a long period of years of a crop which in the aggregate would supply actual and potential domestic requirements without saddling the markets with stocks in excess of those demands.

In the final analysis, acreage adjustment merely means that the American farmer would produce wheat for a domestic rather than a world market. The seeming paradox in McKelvie's London remarks, however, is described as a lack of general understanding that from time to time there would be more wheat than this country could use but that the entrance of such surplus into export channels would not necessarily mean the price it brought would determine domestic values.

CHATS WITH PARENTS (Continued from Page One)

By Alice Judson Peale In this day of popularized psychology it is hard to know what "defenses" that is behavior which the individual unconsciously uses in order to hide from himself his own real feelings.

There are good defenses and bad ones, those which smooth the individual's path by making him an agreeable person and those which put obstacles in his way by making him difficult or unpleasant to get along with.

A tendency to laugh at everything, an acid critical tongue, a loud bragging manner, often are only so many different screens behind which are hidden painful feelings of inferiority. Through laughing at everyone including himself, the individual prevents others from laughing at him. Through belittling others he minimizes his shame at his own shortcomings. Through bragging loudly he tries to hide his own poor opinion of himself.

The person who turns everything into a joke is not apt to get himself into trouble since people are kindly disposed toward anyone who makes them laugh. But the braggart is a boring and irksome companion and the mean tongued critic is sensed as a dangerous one.

A watchful mother can check the development of such troublesome defenses. A hyper-critical attitude in a child is usually his response to excessive criticism which has so humiliated him that he in turn wishes to humiliate others. Such a child needs to be helped through being approved of as much as possible and through learning to do things which will earn him the self-respect and praise which he desires.

Pastoral Ruse—Some popular pastors, receiving calls to deliver Sunday sermons in other cities, find they must cloak their movements in secrecy in order to avoid a reduction in attendance at their own churches while they are away. One of the best known New York preachers never lets his congregation know in advance when he plans to be absent. Not until the churchgoers enter the pews and receive programs do they find it out.—New York Times.

Menus of The Day (Continued from Page One)

SUNDAY'S MENU Breakfast Fresh Berries Bran Muffins Coffee Dinner Broiled Chicken Coffee Buttered Potatoes Creamed Asparagus Bread Currant Jam Frozen Fruit Salad Strawberry Shortcake Coffee Supper Shrimp Salad Pickles Oatmeal Macaroons Tea

Browned Chicken 1 chicken (4 pounds), 4 tablespoons butter, 4 tablespoons bacon fat, 1½ cup rolled oats, 1 teaspoon salt, ¼ teaspoon paprika, ½ cup water. Thoroughly wash chicken and cut in serving pieces. Wipe dry with soft cloth. Sprinkle with flour. Heat fat in frying pan, when hot add and brown the chicken. Put into greased baking pan. Sprinkle with flour and salt. Dot with butter and add water. Cover and bake 1½ hours in moderate oven. Turn chicken several times to allow even cooking.

Frozen Fruit Salad 2 tablespoons granulated gelatin, 2 tablespoons cold water, ½ cup canned fruit juices, 2 tablespoons lemon juice, 1 cup seeded white cherries, 1 cup canned pears, ½ cup gelatin and cold water three minutes. Heat fruit juices and water, add gelatin mixture and stir until gelatin has dissolved. Cool and fold in rest of ingredients. Pour into mold, seal tightly and freeze in equal parts of coarse salt and chopped ice. This salad can be frozen in four hours in tray of mechanical refrigerator.

Oatmeal Macaroons 2 eggs, beaten, 1 cup sugar, 1 tablespoon butter, 1 teaspoon salt, 1 teaspoon vanilla, 1 cup rolled oats, ½ teaspoon baking powder. Beat eggs and add sugar and butter. Mix well. Add rest of ingredients. Drop portions from end of spoon on greased baking pans. Bake 20 minutes in slow oven. Remove from oven and use knife dipped in water to remove warm cookies. If allowed to cool, cookies will stick to pan and be hard to remove.
