Waldo Stoddard, Miss Holmgren To Wed June 1

Word has been received in La Grande of the coming marriage of Waldo I. Stoddard, son of Mrs. Ellen I. Stoddard, to Miss Winifred Holmgren, daughter of Mr. and Mrs. David Holmgren, of Salt Lake City. The marriage will take place in the Latter Day Saints temple in Salt Lake City on June 1.

The young couple will reside in Salt Lake City following the wedding, where Mr. Stoddard is in business.

Mrs. Stoddard, mother of Mr. Stoddard, will leave next weekend for Salt Lake City to attend the wedding.

Jack Wright, Miss Smiley To Marry

Miss Geraldine Smiley, of Walla Walla, whose marriage to Jack Wright, of La Grande, is to be an event of June 6, was honored Friday evening in Walla Walla, when she was the guest at a miscellaneous shower given by Miss Thelma McTavish, Mrs. Eva Edwards and Miss Edna Schiffman.

The little Misses Helen Schiffman and Ruth Archer, costumed as a bride and bridegroom, brought in the gifts for the honoree. During the evening the group was surprised by a serenade given by members of Mr. Wright's fraternity, Sigma Chi, at Whitman college.

The wedding of Miss Smiley and Mr. Wright will be solemnized June 5 in the First Presbyterian church. The former is graduating from Walla Walla High school with the 1931 class and has been prominent in activities there. Mr. Wright, who attended Whitman college, is now manager of the theatres in La Grande, where the couple expect to make their home.

Ah Delth Club Is Entertained

Seven members of the Ah Delth club were entertained at a one o'clock luncheon at Pendleton Saturday at the home of Mrs. H. T. Hugstep. The luncheon table and bridge appointments carried out a pink and yellow color scheme. Luncheon was served at a large round table, which was decorated with a centerpiece of pink roses and tall pink tapers.

Prizes at bridge were received by Mrs. L. M. Hoyt and Mrs. John Ormand.

Those who attended from La Grande were Mesdames Bert Hollister, J. E. Cunliffe, L. M. Hoyt, Roy Emberg, John Ormand, Henry Bradshaw and William Barclay. Mrs. Barclay and Mrs. Hugstep are sisters.

Music Pupils In Recital Friday

Miss Margaret Michaelson presented her music pupils in a recital Friday evening in the small ballroom of the Sacajawea Inn.

The interpretation and rendition of the numbers by each of the pupils was enthusiastically received by the audience. The trios made a fitting beginning and climax for the end.

Those playing were Marjorie Rogers, Maxine Noah, Virginia Hanson, Kenneth Lilly, John Rogers, Carlyle Wilson and Wallace MacCaffrey.

The stage lent a delightful atmosphere with its large baskets of spirea, columbine, iris, tulips, peonies and other flowers. A floor lamp and the semi-circular arrangement of chairs completed the scene.

Honor Mr., Mrs. Anderson Friday

On the occasion of their 25th and silver wedding anniversary, Mr. and Mrs. Frank Anderson were honored at an informal open house for which the Eagles auxiliary entertained Friday evening at 8 o'clock at the Eagles hall.

A mock wedding was the most interesting feature of the evening's entertainment. The procession was led by four flower girls, Katherine Huff, Norma Lee Haunts, Florence Walker and Shirley Ann Parker, followed by the maid of honor, Eunice Bush. The bride, Mrs. Anderson, followed on the arm of her father-for-the-evening, played by Mr. Nelson, and carrying her train were Herman McClain and Dicky Miller.

Following the bride came the ring bearer, Helen Miller, carrying a large curtain ring on a sofa pillow. The brides-maids, carrying large artificial bouquets, were Mrs. Ray Patten, Mrs. Frank Patt, Mrs. Charles Chadwick, Mrs. Maravitch, Mrs. B. W. Bailey and Mrs. Agnes Andrews.

The bride and her party were met at the altar by the bridegroom, Mr. Anderson, and the best man, C. E. Happersett. The ceremony was performed at an improvised altar which was banked with roses and other flowers, and over which hung a large rose and silver wedding bell. Charles E. Hildebrand was the minister, and Mrs. Estella Barnes was the mother of the bride.

Ushers were Ray Patten, Orville Doan, J. Hopkins, Del Spaeth, E. O. Morris and Joe Miller.

Mr. and Mrs. Anderson were presented with a 26-piece silver table set and flowers from the auxiliary, Mrs. Bert Thompson, president, presented the gifts and spoke briefly concerning Mrs. Anderson's work for the Eagles auxiliary in La Grande and as first past president in Eastern Oregon.

Mr. and Mrs. Anderson's four sons, Claude W., Jean R., Orville and Frank Jr., were present for the event, and each gave a brief talk. On the program were included musical numbers by the Blue mountain Wranglers; and by Mr. and Mrs. Lamb, Mrs. C. E. Hildebrand, Mrs. Ardien See and Louie Evans, who sang "Down By the Old Mill Stream" and "When You and I Were Young, Maggie." Ray Patten, president of the Eagles, and Mr. Happersett, secretary, talked, after which the remainder of the evening was spent at games, cards and dancing. Refreshments were served cafeteria style, with Mr. and Mrs. Anderson, Mrs. Thompson, Mr. Patten, Mrs. Estella Barnes, Mr. Nelson and Mr. Hildebrand seated at the tables set aside for the guests of honor.

Mrs. Hildebrand was general chairman for the event, and was assisted by Mrs. Ray Patten, who served refreshments, and Mrs. A. Hough, who had charge of decorating.

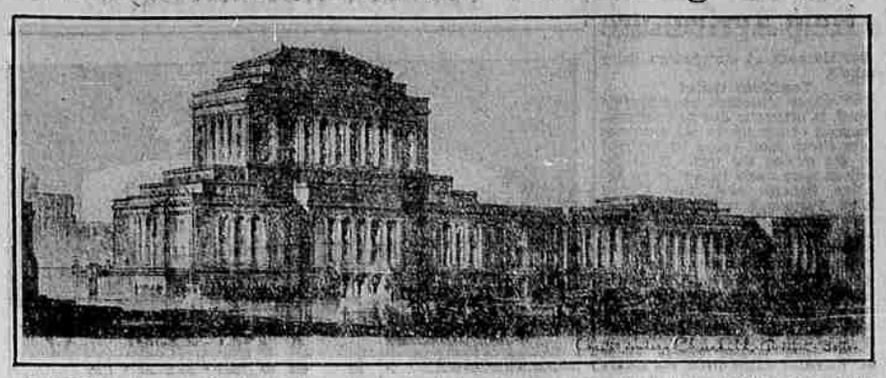
New Christian Science Publishing House



BOSTON, Mass. — Continued growth of the activities of The Christian Science Publishing Society has necessitated expanded facilities. To meet this condition The Christian Science Board of Directors of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, will erect, as soon as plans and arrangements are completed, a new Publishing House.

Here provision will be made for the needs of The Christian Science Monitor, The Christian Science Journal, the Christian Science Sentinel and all other literature published by the Society.

The new building, which will cost in the neighborhood of $3,000,000, will occupy approximately 53,000 square feet of ground bounded by Massachusetts Avenue, Norway, Falmouth and Clearway Streets, Back Bay. Operations are to be hastened in accord with the public and private building program which Mayor James M. Curley of Boston has been urging in conjunction with President Hoover's recommendations for relief of unemployment.

The structure will have a varying height. The Massachusetts Avenue end of the building, which will be used for offices, will be nine stories in height, while that part which is opposite The Mother Church edifice will be three and four stories in height and in scale with this edifice.

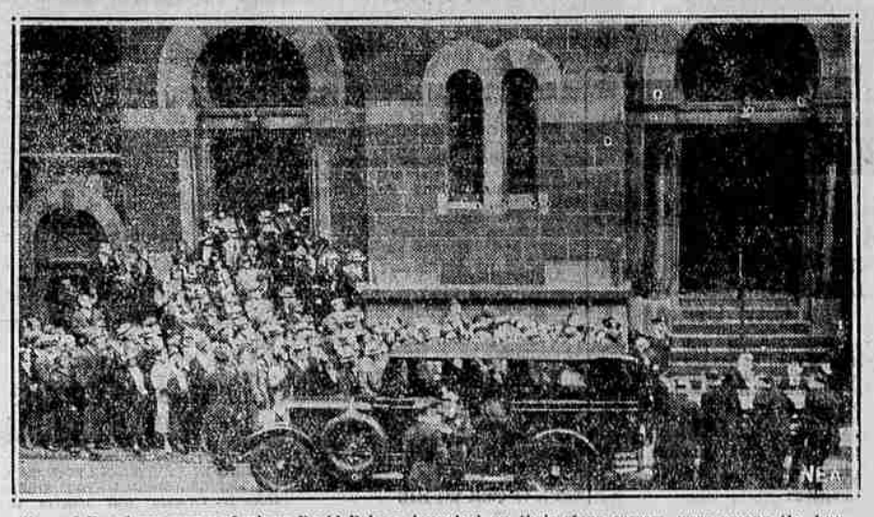
The publishing building will be related in architectural style to The Mother Church, and its design has been influenced by the fact that in the future it probably will become one of a group of buildings which will surround and form a fitting architectural setting for the Church. It will be an all-stone building of the Italian Renaissance type, the lower story to be of granite and the upper stories of limestone.

Special attention will be given to the installation of modern heating and ventilating devices. The central plant will be housed in a building adapted to it, with an ornamental tower inclosing the stack, the tower to be of brick and stone conforming with the beauty and symmetry of the main building.

The building now occupied by The Christian Science Publishing Society, completed in 1908, will be used for the administration offices of The Mother Church.

The architect is Chester Lindsay Churchill, and with him is associated Lockwood-Greene Engineers, Inc., of Boston, which will have charge of the plant layout.

HUNDREDS IN LAST TRIBUTE TO DEAN OF DRAMA



Stars of Broadway, many of whom David Belasco launched on their stage careers, were among the hundreds who thronged the Central Synagogue, New York, when funeral services were held for the famous producer. This picture shows the casket being placed in the hearse after the funeral. Mayor James J. Walker and Daniel Frohman were among the honorary pall-bearers.

Belief In Bottomless Hole In Earth To Get Test By Submarine Soundings

DALLAS, Tex. (AP)—A scientist's belief in a great bottomless hole at the top of the world may be tested by the depth finders of the Wilkins submarine at the North pole this summer.

The existence of this hole is argued by Dr. Richard Ommo Meents, who holds the degree of Ph.D. and is professor of geology at Southern Methodist university here.

The hole takes a zig-zag course through the crust and from there on continues in a straight line to the center of the earth, he holds, bringing up welling water which is fed to it from huge fissures located at the bottoms of the great ocean "deeps" north and south of the equator. These fissures converge at the earth's center.

Similar at South Pole

Water rises similarly in conduits under the South pole, probably emptying into the bottom of Weddell and Ross seas, Dr. Meents says. He accounts for the polar upwelling and the equatorial sinking by the 25-mile flattening of the earth at the poles, which causes a difference in hydrostatic pressure.

Dr. Meents bases his belief upon study of ocean currents. He has written a paper to show why neither temperature differences, salinity differences, winds nor earth's rotation account satisfactorily for the great ocean currents.

Asked what verification the Wilkins expedition may find he says:

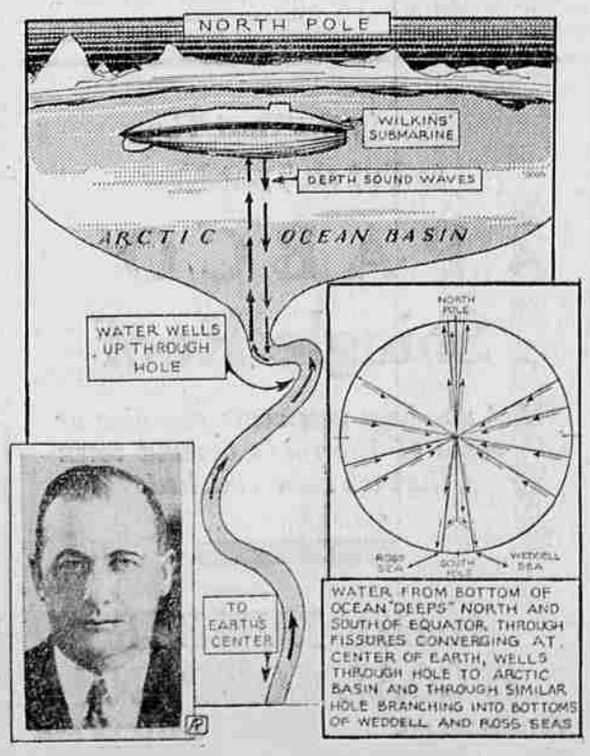
"Judging from the oceanic phenomena, I would say that the conduits are nearly one mile in diameter. They enlarge in a funnel shape before they intersect the sea floor."

"Jumping Off Place"

"Consequently, when the Wilkins expedition takes soundings in the Arctic ocean, a sudden increase in depth will be noted as the conduit is approached, there being a sort of 'jumping off place' at the beginning of the funnel.

"The vertical drop in the conduit below the Arctic ocean basis floor may be about five miles. As the average maximum depth of the Arctic thus far reported is between two and three miles, I would say that soundings which indicate a sudden increase in depth of about two and one-half miles to anywhere above that figure may be accepted as those taken within the throat of the conduit."

There may be more than one Arctic conduit, Dr. Meents says, but due to the basin-like nature of the Arctic he favors "one gigantic somewhat circular opening" approximately directly under the geographical pole.



N. O. W. Juveniles Meet Saturday

Kenneth Flanery was initiated into the Neighbors of Woodcraft Juveniles at a meeting of the group Saturday afternoon at the K. P. hall. Twenty-two members and three guests were present, and the members practiced drill work for the coming convention of the N. O. W.

Light refreshments were served by the advisor, Mrs. Clyde Sullivan, late in the afternoon. They will meet again on June 13 at the K. P. hall.

Menus of The Day

By Mrs. Alexander George

MENU FOR SUNDAY TEA

Fruit Salad — Ice Box Rolls
Olives — Celery
Sunshine Cake, frosted — Coffee

Fruit Salad in Gelatin, Serving 8

1 package lemon flavored gelatin mixture.
2 cups boiling fruit juices.
2 tablespoons lemon juice.
1 cup diced pineapple.
1 cup diced peaches.
1 cup grapefruit.
2 tablespoons sugar.

Pour fruit juices over gelatin mixture. Stir until dissolved. Cool. Add rest of ingredients. Pour into individual dishes rinsed out of cold water. Set in cold place to stiffen. Unmold on lettuce and top with whipped cream which has been mixed with salad dressing. Top with red cherries.

Ice Box Rolls

¼ cup lard and butter.
1 teaspoon salt.
1 cup boiling water.
½ cup sugar.
2 eggs.
1 cup cold water.
2 cakes yeast.
6 cups flour.

Crumble yeast and add lard which has been mixed with cold and boiling water. Mix well and add salt, sugar, eggs, and two cups of flour. Beat three minutes. Beat in rest of flour. Place in greased bowl. Cover and store in ice box. When rolls are desired, break off bits of dough. Shape as desired and place side by side on greased pan. Cover with cloth and let rise four hours in moderately warm place, as a room with 72 degrees temperature. Bake 20 minutes in moderate oven. If tops of rolls get brown before rolls are baked, cover with yellow paper. The baking can continue, but tops will not become too brown.

If stored in very cold place, this dough will last for a week or ten days and can be used as desired.

Sunshine Cake

6 egg yolks.
1 cup sugar, sifted 4 times.
1 teaspoon lemon extract.
1 teaspoon almond.
½ teaspoon vanilla.
⅛ teaspoon salt.
1 cup pastry flour (sifted 4 times).
6 egg whites, beaten.
½ teaspoon cream of tartar.

Beat egg yolks and add sugar. Beat steadily. Fold in all rest of ingredients. Pour into deep, greased pan. Bake 40 minutes in slow oven. Cool and cover with any light fluffy frosting.

GUESSWORK REMOVED BY ROASTING COFFEE IN SMALL QUANTITIES

Patented Process Invented by Hills Bros. Insures Delicious, Uniform Flavor Always

When coffee is roasted in the ordinary way, which is in two or three hundred pound lots, it is a problem to get an even roast. Some of the berries may be overdone, some underdone. What is more, one batch may vary from another in color. All of these variations prevent a uniform flavor.

Hills Bros. overcame this problem by inventing and patenting a roasting method that automatically regulates the amount of coffee roasted and the degree of heat. By a slow but continuous process, only a few pounds at a time pass through the roasters. So exact is the control, that every berry is roasted evenly and gives a matchless, uniform flavor in every cup.

No other coffee can taste like Hills Bros. Coffee because no other coffee is roasted the same way. The continuous process, Controlled Roasting, that means so much in flavor and strength is Hills Bros.' exclusively.

When you buy Hills Bros. Coffee it is as fresh and rich in flavor and aroma as when it comes from the roasters. Air, which destroys the flavor of coffee, is completely excluded from the vacuum cans in which Hills Bros. Coffee is packed. Coffee packed in ordinary air-tight cans does not stay fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can. Sold everywhere.
