**Family Reunion**—The annual family reunion of the Woodell family (which includes the Woodell family) is being celebrated for the first time in the valley Sunday morning for a week's rest at the home of her parents, Mr. and Mrs. Louise Standley, in the lower district. Miss Woodell has just completed her year's work at the University of Washington, Seattle, but has secured a position there with the Sound Lumber Co. and will return for the remainder of the summer.

**Home for Week's Visit**—Miss Mildred Standley arrived in the valley Sunday morning for a week's visit at the home of her parents, Mr. and Mrs. Louise Standley, in the lower district. Miss Woodell has just completed her year's work at the University of Washington, Seattle, but has secured a position there with the Sound Lumber Co. and will return for the remainder of the summer.

**A Nice Visit**—Yesterday morning we had a nice visit again at the home of Mr. and Mrs. Julius Fisher on the lower coast road. It was somewhat cooler under the trees on the Fisher lawn than it had been on Sunday. For the time being the weather is just what is needed for the sun's rays to shine up as high as 100 during the day. The crop there have, as yet, not been affected by the extreme dry weather unless it was one which killed Mr. Fisher's 35 acres in corn which in most cases would be the loss. Mr. Fisher is still very proud of the fine specimen of Shetland stallion which he received last week from prominent breeders in New York state. The animal, purchased from the Oregon State college summer school, is a fine specimen of the breed, but will soon be in condition again. Mr. Fisher's herd of cattle is a hundred head of purebred milking Shetlands, a steady producer.

**Young Folks Enjoy**—Of the long list of those in Clifton county who were scheduled at the Oregon State college summer school, many of them are still in the valley. The college will be in condition again. Mr. Fisher's herd of cattle is a hundred head of purebred milking Shetlands, a steady producer.

boys, although Allen Mills, of near Cove, may go next week after the local show cases. Clifford Rogers, of Pleasant Grove, Dale Standley, of the lower coast, and Josephine Fisher, of lower Cove, were the ones able to go and they were joined here by the delegation from Wallawa and Baker counties.

**Visiting**—Miss Martha Clark, of Wallawa, is in the valley making an extended visit with her friend, Miss June Conrad, near Imbort.

**Consolidation Completed**—The Junior Creek school district has recently been consolidated with the North Power district in order to effect greater economy in operating the schools. Each of the districts approved the step, and the district boundary board, composed of Justice Couch, the county commissioner, and County Superintendent, E. A. Skene, have ratified their vote. State teachers' organizations are to be given next Wednesday, Thursday, Friday and Saturday in the grand jury room at the county court house. These organizations are to be taken by all applicants for teachers' certification.

**Home for Summer**—Olin Conrad, son of Mr. and Mrs. Ralph Conrad, of the Mill Creek canyon, arrived home Saturday from Clifton where he has been a student at the state college and will spend his summer with his parents.

**Open Up Road**—A group of eight business men drove up to Tulelake last week on Sunday, clearing the road. That party was the first road party since the road was closed. The party might well be able to clear through. They found a group of about 200 people at the lake, including the business men, some of whom were in Western business and others there in that section, who are interested in the valley. The story of the party is given by the eight business men in all parts of the valley and the story ends as follows:

Frank Hollister, Clifton River, came down with his family to spend the summer with his parents. The road was closed for some time, but will soon be in condition again. Mr. Fisher's herd of cattle is a hundred head of purebred milking Shetlands, a steady producer.

being to avoid limbs that might scratch and mar the car. Fair time was made on the trip in spite of frequent stops to clear the road away from the road and other around trees. The party arriving at the lake about 11 o'clock.

Much to the surprise of the trail breakers a good crowd was found at the lake, there being close to 50 cars and 200 people there, having a great time, boating, swimming and fishing. The party remained at the lake for lunch and presently started home, meeting two cars on the way up the road from this side.

Toll Gate lake is a favorite camping and picnic ground for the residents of Western. Mill Creek, Freewater and Walla Walla. The road has been graded for several miles up the other side and is in good condition. The lake is on the proposed Western-Elliott State Mountain road and will be a favorite stopping place for tourists when the road is completed. A trip is made up the road every spring by several men who clear out the fallen trees on the road and in every way they can make the road passable.

**Home for Summer**—Olin Conrad, son of Mr. and Mrs. Ralph Conrad, of the Mill Creek canyon, arrived home Saturday from Clifton where he has been a student at the state college and will spend his summer with his parents.

## UNION COUNTY DAIRY ANIMALS

Wednesday, Thursday and Friday of this week visitors at the Eastern Oregon Livestock show will have the opportunity to inspect stall after stall containing fine stock animals as those pictured above. The exhibit in Blackstock from all over Eastern Oregon will be an exhibition. They have been assembled by the hundreds this week. Each day is to be a big day—tomorrow, Thursday and Friday.

**Mr. Ernest Case, of Island City, drove to Wallawa lake Sunday where they enjoyed a day's outing.**

**Mr. and Mrs. Tom Wallinger, Harold and Tom Jr.**

**Mr. and Mrs. E. Becker, who has been visiting with her son, Gene Becker, in the Baker district, has returned now to her home at Summerville.**

## State Leader Gives Report On Co. Agents

Following the way for increased returns on the farm through more effective marketing of quality products and assisting in bringing this about was a part of the service rendered by Congress' staff of 29 county agents, according to the annual report just filed by F. L. Ballard, county agent leader.

The report was given to the marketing committee at the meeting of the county agent work in that state, close relationships with the existing cooperative associations were maintained, assistance given to local organizations, home made complaints with just and order. It was a happy afternoon.

## A SEASONABLE RECIPE

**Richmond Russet Cream**  
1 tablespoon gelatin.  
1 cup cold water.  
1/2 cup boiling milk.  
1/2 teaspoon salt.  
1/2 cup whipping cream.  
Soak gelatin in cold water. Add milk and salt. Beat in a clean glass until it begins to thicken. Then add the cream and whip. Whip until stiff in a bowl. Chill. Turn out and serve.

## ON THE AIR

## 11 Children Receive Book Certificates

Eleven children, Edna Erickson, Martha Wells, Wade Wells, Eugene Taylor, Margaret Wilson, Betty White, George Smith, Harold Smith, Marie Smith, all pupils of the Clifton school, received book certificates from the Oregon State library.

The book certificates were presented to the children at the school by Miss Erickson, who was assisted by Miss White and Miss Taylor. The certificates were for books on the history of the valley and the life of the pioneers.

**Here It Is!**  
**The NEW McCormick-Deering MILKER**  
NOW we are able to offer you a MILKER in the McCormick-Deering line. Financed a long time, hoped for and waited for—it is here, in our store.

The new milker has been preceded by years of painstaking development work by the Harvester Company. On hundreds of farms it has already proved itself worthy of the honored name "McCormick-Deering." In every way it is a real companion to the famous McCormick-Deering Fall-Beating Cream Separator.

The New McCormick-Deering Milker is ready for your inspection. We want you to see the many features that make it the outstanding value in milkers.

**It Has Come—**  
the "Caterpillar" Auto Patrol — it has come to offer to those responsible for road maintenance a machine specially designed from the ground up for this particular work. A one purpose machine—designing skill and a quarter of a century's experience have been concentrated on the production of a machine that would serve that single purpose — road maintenance — better than it has ever been served before. A machine of "Caterpillar" quality. A machine to maintain more miles of road, in better condition, for fewer taxpayers' dollars

**That's the 'Caterpillar' Auto Patrol**
