Capital Society Dons Gay Colors For Beach Days

WASHINGTON (AP)—Gay colors and broad-brimmed straw hats as smart members of capital society flock the beaches. While cabinet members' wives may forego the gray bathing suits, they plan to avail themselves of the cooling shade of almost footwide hat brims. The swing-back from no brims to all brims is already meeting with favor for almost every occasion from luncheons to garden parties, and the gayer the big bonnet for beach wear, the better.

Most of them are decorated with designs ranging from flowers to diving flippers. Sometimes, however, a flapping broad brim is very plain and has enough style for a garden party.

Smoke a fresh cigarette

Of course I've switched to CAMELS

You don't have to look beyond your own intimate circle to realize what has happened. Everywhere you see evidence of a great country-wide switch to Camels. That is because the new Humidor Pack performs a real new service for the smoker. Throughout the nation, literally millions of people have found by actual test that the new air-sealed, sanitary package of moisture-proof Cellophane not only keeps out dust and germs, but also keeps in the rich, mild flavor of the choice Turkish and mellow Domestic tobaccos of which Camels are blended. To show their real appreciation of the Humidor Pack Camel smokers from all parts of the country write letters telling the advantages of this scientific new wrapping. Women tell us they carry Camels in the Humidor

Pack in their handbags without having them absorb powder and perfume odors. Workingmen say this moisture-proof wrapping protects their cigarettes from perspiration and pocket dust. Sailors are enthusiastic because the damp salt air does not reach Humidor-packed Camels. All real benefits of course, but the chief fact that is causing this great nation-wide swing to Camels is the protection which this air-sealed wrapping gives to the choice Turkish and mellow Domestic tobaccos of which Camel cigarettes are blended. No peppery dust to irritate the membrane; no dried-out tobacco to burn the tongue or scar the throat. Just the fresh, cool mildness of perfectly conditioned tobacco. Switch to Camels for one day, then quit them—if you can.

Tune in CAMEL QUARTER HOUR featuring Morton Downey and Tony Martin

Don't remove the moisture-proof Cellophane from your package of Camels after you open it. The Humidor Pack is protection against perfume and powder odors, dust and germs. It delivers fresh Camels and keeps them right until you smoke the last one.
